**INTER-OFFICE MEMORANDUM**

March 25, 2020

**TO:** Patrick Davis, President, City Council

**FROM:** Timothy M. Keller, Mayor

**SUBJECT:** Project# 2018-001843 – RZ-2019-00046 Text Amendment to the Integrated Development Ordinance for the 2019 Annual Update

This Ordinance would adopt a text amendment of the Integrated Development Ordinance (IDO) with Technical Edits that clarify existing regulations and Council Amendments that adopt new regulations.

These proposed changes were gathered over the course of the first year implementing the Integrated Development Ordinance and applying these new zoning regulations to real-world projects and real-world contexts.

Planning staff gathered Technical Edits that resulted from development review and questions/suggestions from applicants and residents. Councilors submitted Amendments with new regulations to address new challenges to development and neighborhood protections and new opportunities to raise the bar for quality development citywide.

The Environmental Planning Commission (EPC) reviewed proposed changes over six hearings from September 9, 2019 to January 23, 2020, which included multiple opportunities for public input and revisions to Technical Edits and Council Amendments. EPC voted to recommend APPROVAL of this text amendment, subject to conditions of approval for Technical Edits and Council Amendments, which are noted in the Notice of Decision.

Planning staff incorporated the Technical Edits and related conditions of approval recommended by EPC into a Redline Draft of the IDO for review by City Council. Council Amendments with related conditions of approval recommended by EPC are provided as a separate Exhibit, so that City Council can weigh in about these new regulatory additions to the IDO.

This Article is created pursuant to authority granted in Article I of the Charter of the City of Albuquerque, which was originally adopted at a special election on June 29, 1971, pursuant to Article X, Section 6 of the Constitution of the State of New Mexico. In enacting this IDO, the City intends to comply with the provisions of existing state law on the same subject, and the provisions of this IDO should be interpreted to achieve that goal.

### 1-3 PURPOSE

The purpose of this IDO is to:

- 1-3(A) Implement the adopted Albuquerque/Bernalillo County Comprehensive Plan (ABC Comp Plan), as amended.
- 1-3(B) Ensure that all development in the City is consistent with the spirit and intent of any other plans and policies adopted by City Council.
- 1-3(C) Ensure the provision of adequate public facilities and services for new development.
- 1-3(D) Protect the quality and character of residential neighborhoods.
- 1-3(E) Promote the economic development and fiscal sustainability of the City.
- 1-3(F) Provide for the efficient administration of City land use and development regulations.
- 1-3(G) Protect the health, safety, and general welfare of the public.
- 1-3(H) Provide for orderly and coordinated development patterns.
- 1-3(I) Encourage the conservation and efficient use of water and other natural resources.
- 1-3(J) Implement a connected system of parks, trails, and open spaces to promote improved outdoor activity and public health.
- 1-3(K) Provide reasonable protection from possible nuisances and hazards and to otherwise protect and improve public health.
- 1-3(L) Encourage efficient and connected transportation and circulation systems for motor vehicles, bicycles, and pedestrians.

### 1-4 APPLICABILITY

- 1-4(A) This IDO applies to all private land in the City, and the owners and occupants of all land in the City are required to comply with the regulations of this IDO applicable to the zone district in which the property is located, except as noted in this Subsection 14-16-1-4.

---

<sup>1</sup> Council Amendment I and the associated Exhibit A addresses the language "to the maximum extent practicable" throughout the IDO, sometimes eliminating the term and sometimes removing it. EPC Condition #62 recommends several additional revisions related to this phrase.

## Part 14-16-1: General Provisions

### 1-5: Effective Date

---

- 1-4(A)(1) Development after the Effective Date of this IDO**  
All development after the effective date of this IDO is subject to IDO standards.
- 1-4(A)(2) Development prior to the Effective Date of this IDO**  
Development that existed prior to the IDO is subject to timeframes established for compliance with IDO standards, including but not limited to standards for nonconformance in Section 14-16-6-8 (Nonconformities), to be calculated from the effective date of this IDO.
- 1-4(A)(3) Approvals Granted prior to the IDO**  
See Section 14-16-1-10 (Transitions from Previous Regulations).
- 1-4(B) This IDO is not applicable to federal activities or development on federally-owned lands where either the federal government has retained from the time of statehood or subsequently obtained the right to legislate in relation to such lands or the State of New Mexico has ceded jurisdiction to legislate back to the United States in relation to such lands. Private activities or development for private purposes on such lands shall be subject to this IDO.
- 1-4(C) This IDO is applicable to City activities or development on properties owned or leased by the City.
- 1-4(D) This IDO may not be applicable to state or governmental activities or development on lands owned by a state or governmental or quasi-governmental entity, to the extent the state of New Mexico has explicitly exempted them from the operation of local land use regulations.

### 1-5 EFFECTIVE DATE

The effective date of this IDO shall be May 17, 2018.

### 1-6 OFFICIAL ZONING MAP

- 1-6(A) The standards and regulations in this IDO applicable to specific zone districts or Overlay zones apply to the areas of the city shown with those zone districts or Overlay zones on the Official Zoning Map.
- 1-6(B) The Official Zoning Map is the latest version of the zoning map as approved or amended by City Council **or its designee, the Environmental Planning Commission**, and maintained in electronic form by the City Planning Department. **The zone districts and zone boundaries as established and shown on that map are incorporated herein and designated as the Official Zoning Map of the City.**<sup>2</sup>

### 1-7 COMPLIANCE REQUIRED

#### 1-7(A) GENERAL

- 1-7(A)(1) No person shall develop or use any land, building, or structure within the City in violation of this IDO, regulations authorized under this IDO, including but not limited to those regulations in the Development Process Manual (DPM), or the terms and conditions of permits or approvals issued under this IDO.

---

<sup>2</sup> Revised per EPC Condition #2.

## Part 14-16-1: General Provisions

### 1-7: Compliance Required

---

- 1-7(A)(2) **Allowable uses conducted indoors** must be located within buildings that meet the standards in Articles 14-1, **14-2**, and 14-3 of ROA 1994 (Uniform Administrative Code and Technical Codes, **Fire Code**, and Uniform Housing Code) and other applicable technical codes adopted by the City. Allowable uses conducted in buildings that are not in compliance with this requirement are a violation of this IDO.<sup>3</sup>
- 1-7(A)(3) **Other City regulations or state or federal laws may apply, even if the IDO is silent on these other applicable laws or regulations. Violations of these other applicable laws or regulations are not considered violations of this IDO.**<sup>4</sup>
- 1-7(A)(4) The Mayor is responsible for the promulgation of rules and technical standards necessary to fulfill the intent of this IDO. Additional rules and technical standards shall be published in the DPM. The terms and provisions of the DPM, as amended, shall be enforceable to the same extent as if incorporated into the text of this IDO.

### **1-7(B) DEVELOPMENT ON APPROVED LOT REQUIRED<sup>5</sup>**

A building permit shall not be issued by the City unless the applicant presents the following:

- 1-7(B)(1) Evidence of a proper **lot**, constituted by 1 of the following:
- 1-7(B)(1)(a) A print of the final subdivision plat as recorded with the County Clerk and approved pursuant to this IDO or any predecessor ordinance that applied at the time the **lot** was created, showing the **subject property**.
  - 1-7(B)(1)(b) Satisfactory evidence that this IDO is not applicable to the **lot** upon which the building is to take place, either because the **lot** existed prior to the enactment of this IDO or any predecessor ordinances or because the **lot** is outside the jurisdiction of this IDO. If such evidence is provided, exemption from the IDO regulations shall only apply to the establishment of the lot and not any development on the lot.
- 1-7(B)(2) Approval by the City Engineer that:
- 1-7(B)(2)(a) The alteration of the natural topography, drainage pattern, and perviousness of any lot resulting from the intended construction and prior or planned site preparation complies with a previously submitted and approved drainage report and/or plan, or that no drainage report or plan is required.
  - 1-7(B)(2)(b) The traffic flow and parking layout complies with a previously submitted and approved Site Plan or Traffic Circulation Layout or that no Site Plan or Traffic Circulation Layout is required.
  - 1-7(B)(2)(c) Adequate provision has been made for connection of the lot to water and sanitary sewer lines if these are necessary for reasonable use of the structure.

---

<sup>3</sup> Revised per EPC Condition #1 (Tech Edits) and EPC Condition #3.

<sup>4</sup> Added per EPC Condition #1 (Tech Edits).

<sup>5</sup> Revised for consistent use of the term "lot" and "subject property" instead of "parcel" per EPC Condition #1 (Tech Edits).

- 1-7(B)(2)(e) All infrastructure improvements, including but not limited to sidewalks, curb and gutter, pavement, storm drain system, water and sewer, and any other improvements required by the City Engineer, have been constructed **within easements or in the public right-of-way.**<sup>6</sup>
- 1-7(B)(3) After approval and recording of a final subdivision plat with the County Clerk and required improvements have been completed and accepted by the City (where the construction of improvements was required), building permits for structures within the subdivision may be issued. The Building Safety Division of the City Planning Department may issue building permits prior to completion of all improvements where sanitary sewer, water, and storm drainage facilities have been completed and other improvements are to be commenced within 6 months, but the City may require financial assurance for the completion of those improvements pursuant to Subsection 14-16-6-4(Q) (Required Improvements and Financial Assurance).

#### **1-7(C) COMPLETE APPLICATIONS<sup>7</sup>**

Applications shall be reviewed and decided based on conditions that exist and requirements in effect when the application was accepted as complete by the City Planning Department, including but not limited to any of the following:

Where Overlay zone regulations complement other IDO regulations, the Overlay zone regulations apply in addition to the other IDO regulations, unless specified otherwise. Where the Overlay zone is silent, other IDO regulations apply.
- 1-8(A)(2) When any regulation in Section 14-16-4-3 (Use-specific Standards) conflicts with any regulation in Part 14-16-5 (Development Standards), the Use-specific Standard shall prevail regardless of whether the Use-specific Standard is more or less restrictive than the Development Standard. Where Use-specific Standards complement Development Standards, the Use-specific Standards apply in addition to the Development Standards, unless specified otherwise. Where Use-specific Standards are silent, other Development Standards apply.
- 1-8(A)(3) When any area-specific regulation (i.e. for Centers, Corridors, or small areas) conflicts with any citywide regulation in Part 14-16-4 (Use Regulations), Part 14-16-5 (Development Standards), or Part 14-16-6 (Administration and Enforcement), the area-specific regulations prevail for development within the specified area regardless of whether the area-specific regulation is more or less restrictive than the citywide regulation. The area-specific regulations apply instead of, not in addition to, the citywide regulations, unless specified otherwise. Where the area-specific regulations are silent, the citywide regulations in Part 14-16-4 (Use Regulations), Part 14-16-5 (Development Standards), and Part 14-16-6 (Administration and Enforcement) apply.<sup>10</sup>
- 1-8(B) If any regulation in this IDO refers to a regulation in another section of this IDO, the applicability of the referencing section prevails over the applicability in the referenced section, unless specified otherwise.<sup>11</sup>
- 1-8(C) If any regulation in this IDO conflicts with Articles 14-1, 14-2, and 14-3 of ROA 1994 (Uniform Administrative Code and Technical Codes, Fire Code, and Uniform Housing Code) or any other building safety codes, the provisions in those codes shall prevail.<sup>12</sup>
- 1-8(D) If any regulation in this IDO conflicts with other applicable laws or regulations of the City, or conflicts with applicable state or federal law, the more restrictive provision shall prevail, unless the provisions of state or federal law, as interpreted by the courts, prevent that result.

### 1-9 RELATIONSHIP TO PRIVATE AGREEMENTS AND COVENANTS

- 1-9(A) This IDO applies to all land uses and development regardless of whether it imposes a greater or lesser restriction on the development or use of structures or land than a private agreement or restriction, but shall have no impact on the applicability or enforceability of any private agreement or restriction between the parties to that agreement or restriction, except as set forth in Subsection (C) below.

## 1-10 TRANSITIONS FROM PREVIOUS REGULATIONS

### 1-10(A) PRE-IDO APPROVALS

- 1-10(A)(1) Any approvals granted prior to the effective date of this IDO shall remain valid, subject to expiration pursuant to Subsection 14-16-6-4(W) and to amendment pursuant to Subsection 14-16-6-4(X) (Amendments of Approvals) or 14-16-6-4(Y) (Amendments of Pre-IDO Approvals), as applicable. **Any use standards or development standards associated with any pre-IDO approval or zoning designation establish rights and limitations and are exclusive of and prevail over any other provision of this IDO. Notwithstanding the pre-IDO approval, development on such a site is exclusively subject to the procedures and decision criteria established in Part 14-16-6 (Administration and Enforcement).** Where those approvals are silent, provisions in this IDO shall apply, including but not limited to the following:<sup>14</sup>

1-10(A)(1)(a) Subsection 14-16-4-1(E) (Previously Allowed Uses) for the continuity of conditional uses.

1-10(A)(1)(b) Subsection 14-16-6-4(Y) (Amendments of Pre-IDO Approvals) for amending pr-IDO approvals.

1-10(A)(1)(c) Section 14-16-6-8 (Nonconformities) for information about expansions when the use or structure is nonconforming under this IDO.

- 1-10(A)(2) For former Special Use zones that were converted to the Planned Development (PD) or Planned Community (PC) zone districts through adoption of this IDO, any approval associated with the Special Use zone is considered the required Site Plan – EPC or Framework Plan, respectively. Any use standards or development standards associated with pre-IDO approvals or zoning designations establish the rights and limitations for the PD and PC zone districts and are exclusive of and prevail over any other provision of this IDO.

- 1-10(A)(3) When referencing pre-IDO approvals, the most recent approval, including any amendments, shall apply unless specified otherwise.**<sup>15</sup>

### 1-10(B) REFERENCES IN PRE-IDO REGULATIONS AND APPROVALS

Any City regulations or approvals that refer to zone district designations that existed prior to the effective date of this IDO will be deemed to refer to the IDO zone district associated with the previous zone district as shown in Table 2-2-1.

**1-10(C) PREVIOUS VIOLATIONS**

Any violation of the City zoning, subdivision, or land development regulations in effect prior to the effective date of this IDO will continue to be a violation under this IDO, unless the development or other activity that was a violation of the previous regulations is consistent with the requirements and regulations of this IDO.

**1-11 FIGURES AND ILLUSTRATIONS**

Figures and illustrations in this IDO are for illustrative purposes only and may not be to scale. In the event of a conflict between an illustration and the text of this IDO, the text shall prevail.

**1-12 DESIGNEES**

When this IDO authorizes or requires an official or an appointed or elected body of the City government to perform a task in the administration of this IDO, the named official or appointed or elected body may designate another individual or entity of the City, or an individual employed by the City and under its control, to perform the task, unless the delegation of that task is specifically prohibited by New Mexico law or the City Charter.

**1-13 SEVERABILITY**

If any section, division, sentence, clause, phrase, or part of this IDO is for any reason declared unconstitutional or invalid, the validity of the remaining portions of this IDO shall not be affected, since it is the express intent of the City Council to pass each section, division, sentence, clause, phrase, and every part of this Ordinance separately and independently of every other part.

### 2-5(B)(3) District Standards

#### 2-5(B)(3)(a) Eligibility for Rezoning to NR-BP

1. The minimum total contiguous area eligible for an NR-BP zone designation is 20 acres.
2. Rezoning to the NR-BP zone district requires the approval of a Master Development Plan that furthers and implements applicable goals and policies of the ABC Comp Plan, as amended, and complies with all applicable requirements of the DPM. The Master Development Plan shall be submitted at the same time as the rezoning to the NR-BP zone district, and the requests shall be reviewed and decided as described in Subsections 14-16-6-6(F) (Master Development Plan) and 14-16-6-7(H) (Zoning Map Amendment – Council).

#### 2-5(B)(3)(b) Allowable Uses

Allowable uses shall be per the NR-BP column in Table 4-2-1. Use-specific standards may be specified in the Master Development Plan as long they do not change the allowable uses in Table 4-2-1 and do not reduce requirements of any related Use-specific Standards in Section 14-16-4-3.

#### 2-5(B)(3)(c) Development Standards

1. The Master Development Plan may specify development standards that apply to all lots and structures in the plan area in order to implement a coordinated and cohesive design for the project.
2. The site-specific standards in the Master Development Plan shall not conflict with or reduce other standards in this IDO, including those of any Overlay zone that applies to the site. In particular, the standards in the Master Development Plan may not reduce requirements in Section 14-16-5-9 (Neighborhood

Edges) designed to protect abutting properties from potential adverse impacts of development.

3. If the Master Development Plan does not specify development standards, or if there is no Master Development Plan but development is allowed pursuant to Subsection 14-16-2-5(B)(3)(e) below, standards in Part 14-16-5 (Development Standards) apply. If Development Standards for the NR-BP zone district are not specified or if an IDO standard specifies that it is “per approved plan” in the NR-BP zone district, development shall meet the Development Standards established for the NR-C zone district.<sup>27</sup>

**2-5(B)(3)(d) Development on Properties with NR-BP Zoning and Master Development Plans**

All permits and approvals for property within a Master Development Plan area shall be consistent with the Master Development Plan, as amended. Where the Master Development Plan is silent, other IDO standards apply.

1. Once a Master Development Plan has been approved, development can be approved through a Site Plan pursuant to the applicability, procedures, and criteria in Subsection 14-16-6-5(H) (Site Plan – Administrative), 14-16-6-6(I) (Site Plan – DRB), or 14-16-6-6(J) (Site Plan – EPC), as applicable.<sup>28</sup>
2. Master Development Plans are on file at the City Planning Department.
3. See also Subsection 14-16-6-4(W) (Expiration of Approvals).

**2-5(B)(3)(e) Development on Properties with NR-BP Zoning but without a Master Development Plan**

1. For properties zoned NR-BP that are less than 20 acres without a Master Development Plan, unsubdivided lots can be subdivided pursuant to Subsection 14-16-6-6(K) (Subdivision of Land – Minor).<sup>29</sup>
2. For properties zoned NR-BP that are less than 20 acres without a Master Development Plan, development can be approved through a Site Plan pursuant to the applicability, procedures, and criteria in Subsection 14-16-6-5(H) (Site Plan – Administrative), 14-16-6-6(J) (Site Plan – DRB), or 14-16-6-6(K) (Site Plan – EPC), as applicable.
3. For properties zoned NR-BP that are 20 acres or more, development requires a Master Development Plan to be reviewed and approved by the Environmental Planning Commission (EPC) pursuant to the procedures in Subsection 14-16-6-6(F) (Master Development Plan).

<sup>27</sup> Added per EPC Condition #1 (Tech Edits).

<sup>28</sup> Added per EPC Condition #1 (Tech Edits).

<sup>29</sup> Added per EPC Condition #1 (Tech Edits).

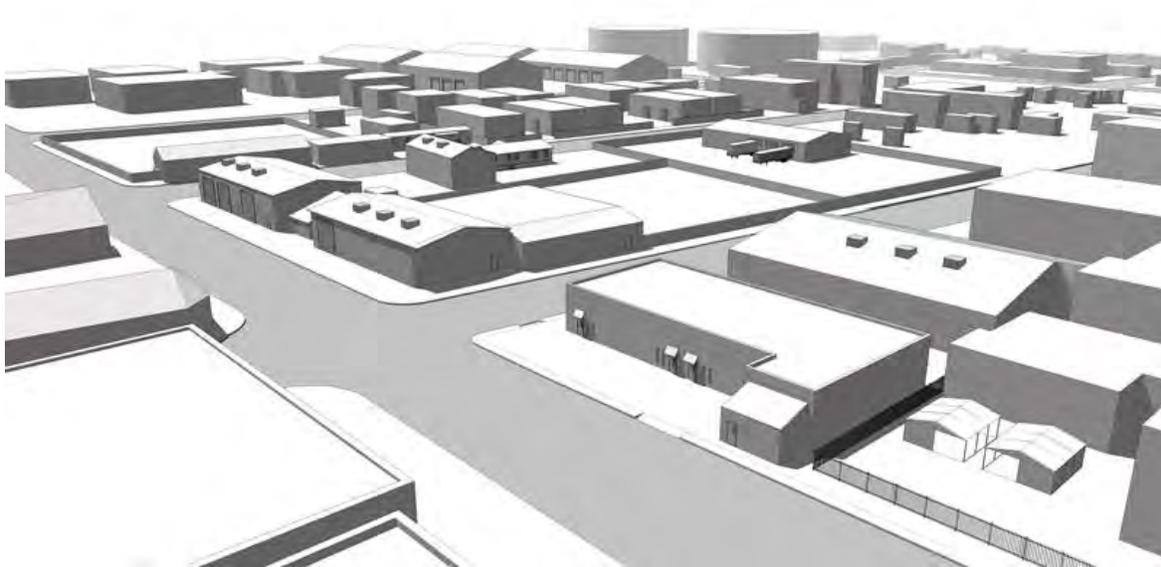

**2-5(B)(3)(f) Master Development Plan Amendments**

1. Master Development Plans may be amended by the procedures in Subsection 14-16-5-6-4(X) (Amendments of Approvals) or Subsection 14-16-6-4(Y) (Amendments of Pre-IDO Approvals), as applicable.
2. See also Section 14-16-6-8 for Nonconformities.

**2-5(C) NON-RESIDENTIAL – LIGHT MANUFACTURING ZONE DISTRICT (NR-LM)**

**2-5(C)(1) Purpose**

The purpose of the NR-LM zone district is to accommodate moderate-intensity commercial, light assembly, fabrication, and light manufacturing uses, while buffering adjacent lower-intensity, Residential and Mixed-use zone districts from the traffic, noise, and other impacts of those uses. Allowable uses are shown in Table 4-2-1.

For PD zone districts that show a clear pattern of single-family residential platting or land use based on a pre-IDO approval, the property owner may apply for a (Site Plan – Administrative) pursuant to Subsection 14-16-6-5(H) for low-density residential development that maintains the pattern of development in the surrounding subdivision.

#### **2-6(A)(6) Development and Form Standards**

- 2-6(A)(6)(a) All development in the PD zone district shall be subject to the provisions of Part 14-16-5 (Development Standards) for the type of use or structures in the approved Planned Development, unless those standards are modified by the Site Plan – EPC associated with the PD zone district approval.

Specific provisions and regulations applicable to each approved PD zone district are on file at the City Planning Department.

<sup>32</sup> Added per EPC Condition #1 (Tech Edits) to replace May 29, 2018 ZEO memo.

**2-6(B) PLANNED COMMUNITY ZONE DISTRICT (PC)**

**2-6(B)(1) Purpose**

The purpose of the PC zone district is to accommodate innovative, very large-scale residential or mixed-use communities that cannot be accommodated through the use of other zone districts, provided that those projects are consistent with the ABC Comp Plan, as amended, and include significant public benefits that would not otherwise be required of the applicant. Because of their size, projects in this zone district will include construction of new and expanded transportation networks and infrastructure. This growth may require additional analysis and resulting measures to mitigate impact on the surrounding community. This zone district is applied on a case-by-case basis to reflect a new or existing negotiated agreement with the applicant. Allowable uses are negotiated on a case-by-case basis but may not include any use that is not included in Table 4-2-1.

**2-6(B)(3) Eligibility for Rezoning to PC**

- 2-6(B)(3)(a) Each PC zone district must contain at least 100 contiguous acres of land or more than 500 single-family, two-family, or townhouse dwelling units. Each proposed development meeting or exceeding these thresholds, considering all proposed phases of development, shall be required to obtain approval through the PC zone district process in Subsection 14-16-6-7(H)(1) (Zoning Map Amendment – Council).
- 2-6(B)(3)(b) Rezoning to a PC zone district requires the preparation of a Framework Plan that furthers and implements applicable goals and policies of the ABC Comp Plan and complies with all applicable requirements of the DPM.

1. The Framework Plan shall indicate proposed zoning on platted lots or lots proposed to be platted or general proposed land uses and development densities/intensities for subsequent phases where platting is yet to be decided.
2. The Framework Plan shall indicate general circulation and mobility routes for various travel modes and general locations of open space.
3. The Framework Plan shall be submitted, reviewed, and decided at the same time and via the same process as the rezoning to the PC zone district, as described in Subsection 14-16-6-7(H)(1) (Zoning Map Amendment – Council). All later permits and approvals for the property under this IDO shall be consistent with the approved Framework Plan, as amended.

2-6(B)(3)(c) The City Council may require a Development Agreement to outline the phasing of development, to assign financial, operations, and management responsibilities over time via infrastructure/service agreements, to identify any public incentives or agreements between the City and the applicant/developer, and to address any other items deemed appropriate to ensure an efficient, self-sufficient community and to prevent net expense to the City.

#### **2-6(B)(4) Allowable Uses**

2-6(B)(4)(a) A PC zone may contain any of the uses listed in Table 4-2-1, except those that require NR-SU zoning, for all or part of the PC zone district, provided that those uses do not create significant adverse impacts on nearby existing neighborhoods, City parks or trails, or Major Public Open Space.

2-6(B)(4)(b) All allowable uses in the PC zone district are subject to the applicable Use-specific Standards listed for that use in Section 14-16-4-3 unless modified by the Framework Plan associated with the PC zone district approval.

#### **2-6(B)(5) Development and Form Standards**

##### **2-6(B)(5)(a) General**

1. All development in the PC zone district is subject to the provisions of Part 14-16-5 (Development Standards) for the type of use or structures in the approved Planned Community, unless those standards are modified by the Framework Plan associated with the PC zone district approval.
2. Subsection 14-16-1-10(A)(2) (Pre-IDO Approvals) applies to all properties that converted from a Special Use zone to the PC zone district through the adoption of this IDO.

##### **2-6(B)(5)(b) Avoidance of Sensitive Lands**

1. Each Planned Community shall be organized to protect or enhance the following types of natural resources and features, by including such areas in common landscaped areas or

dedicated open space or by mitigating the impacts of construction on these features to the maximum extent feasible.

- a. Drainage channels, arroyos, and streams (in addition to floodplains).
  - b. Historic or archeological sites designated as significant by the state.
  - c. Significant views of the Sandia Mountains or Petroglyph National Monument from high points or public places.
  - d. Riparian wildlife habitat areas and corridors designated as significant by the state.
  - e. Natural or geologic hazard areas or soil conditions, such as unstable or potentially unstable slopes, faulting, landslides, rock falls, or expansive soils.
2. Lands that show evidence of slope instability, landslides, avalanche, flooding, or other natural or manmade hazards shall not be included in platted lots.
  3. New structures intended for human occupancy are prohibited within 100 feet in any direction of any perennial stream, public lake, reservoir, or element of a public water supply system unless the City Engineer determines that a smaller setback would adequately protect water quality and wildlife habitat.<sup>33</sup>
  4. Natural features to be protected shall be identified in a site analysis as part of a Framework Plan or with any Site Plan or plat when a Framework Plan is not required.

#### **2-6(B)(5)(c) Adequate Water Supply**

An application for a Planned Community shall not be processed unless accompanied by written documentation from the Albuquerque Bernalillo County Water Utility Authority (ABCWUA) that adequate water is available to serve the development, based on known water supplies owned or controlled by the ABCWUA or the applicant, without creating adverse impacts on the cost, quality, or availability of water for existing residents of the city and the area served by the ABCWUA.

#### **2-6(B)(5)(d) Mix of Uses and Housing Types**

1. Each phase of a Planned Community shall include at least 10 percent of the land area for non-residential uses.
2. No phase of a Planned Community may develop more than 80 percent of the land area designated for residential or mixed-use development as single-family detached dwellings.
3. Parks shall be provided at a rate of 2 acres of park land for every 500 dwelling units designated NR-PO-C, which requires

<sup>33</sup> Revised per EPC Condition #1 (Tech Edits) to remove the term "linear."

parcs to be built to City standards and designed as acceptable to Parks and Recreation Department, or NR-PO-A and dedicated to the City.

- 4. Major Public Open Space, open space, and trails shall be provided consistent with the Facility Plan for Major Public Open Space, the Facility Plan for Arroyos, and the Bikeways and Trails Facility Plan. Any Major Public Open Space dedications must be acceptable to and are subject to approval by the Open Space Division of the City Parks and Recreation Department.
- 5. Any treatment for a major arroyo shall be designed per the standards in the Facility Plan for Arroyos.

**2-6(B)(5)(e) Creation of Distinct Neighborhoods**

No area of the Planned Community in which more than 70 percent of the lots are occupied by a Household Living use as shown in Table 4-2-1 shall contain more than 100 contiguous acres unless it is separated from other adjacent residential development areas by a significant natural or man-made feature, including any of the following:

- 1. Clearly visible bluffs, rock outcroppings, or landforms designated as open space.
- 2. Major drainages, arroyos, or designated open spaces at least 100 feet in width.
- 3. An arterial street.
- 4. A collector street with a median at least 14 feet in width.
- 5. Non-residential uses allowed per Table 4-2-1.

**2-6(B)(6) Provisions for Specific Areas**

Provisions and regulations applicable to each approved PC zone district are specified in Framework Plans and associated Site Plans, on file at the City Planning Department.

**2-6(B)(7) Development on Properties with PC Zoning and Framework Plans<sup>34</sup>**

Once a Framework Plan has been approved, development can be approved through a Site Plan pursuant to the applicability, procedures, and criteria in Subsection 14-16-6-5(H) (Site Plan – Administrative), 14-16-6-6(F) (Site Plan – DRB), or 14-16-6-6(J) (Site Plan – EPC), as applicable.

## Part 14-16-3 Overlay Zones<sup>35</sup>

### 3-1 OVERLAY ZONES ESTABLISHED

- 3-1(A) The Overlay zones listed in Sections 14-16-3-2 through 14-16-3-6 are hereby created. These Overlay zones shall have the boundaries shown on the Official Zoning Map maintained in electronic form by the City Planning Department and available on the City of Albuquerque website.
- 3-1(B) These Overlay zones supplement, but do not replace, the underlying zone districts listed in Part 14-16-2 (Zone Districts). In the case of a conflict between the provisions of a zone district and the provisions of an Overlay zone, the provisions of the Overlay zone shall prevail. Where multiple Overlay zones apply to a property, development must comply with all relevant provisions. Where an Overlay zone is silent, IDO requirements apply.

**3-3 AIRPORT PROTECTION OVERLAY ZONE**

**3-3(A) PURPOSE**

The purpose of the Airport Protection Overlay (APO) zone is to require that land use and development at or around public airport facilities comply with the regulations of the Federal Aviation Administration (FAA) that protect the public from noise, vibration, and hazard impacts of airport operations and that protect the safety of aircraft operators.

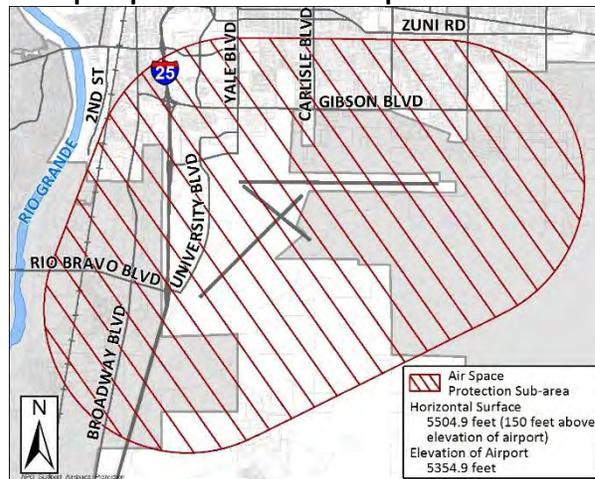

**3-3(B) APPLICABILITY**

The standards in this Section 14-16-3-3 apply to the Albuquerque International Sunport and Double Eagle II Airport and other properties in all zone districts within the following sub-areas of the APO zone, which are mapped and briefly described below. These sub-areas correspond to FAA “zones” and/or “surfaces” and are detailed separately by the FAA.

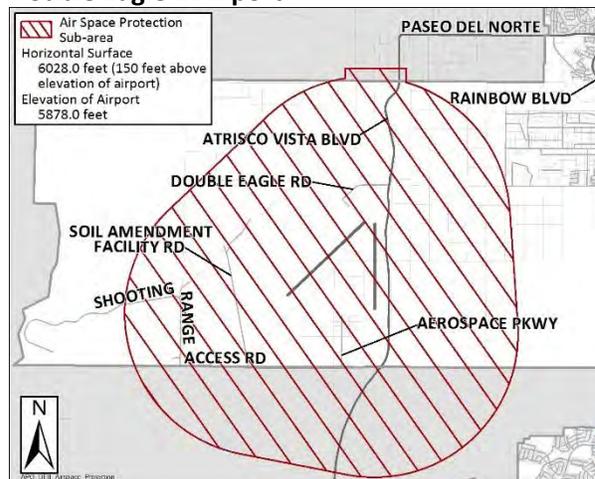

**3-3(B)(1) Air Space Protection Sub-area**

This sub-area underlies a Horizontal Surface established at a height of 150 feet above the highest point of the usable landing area at each airport, resulting in a Horizontal Surface at 5,504.9 feet in elevation for the Albuquerque International Sunport and at 6,028.0 feet in elevation for the Double Eagle II Airport.

**3-3(B)(1)(a) Albuquerque International Sunport**

**3-3(B)(1)(b) Double Eagle II Airport**

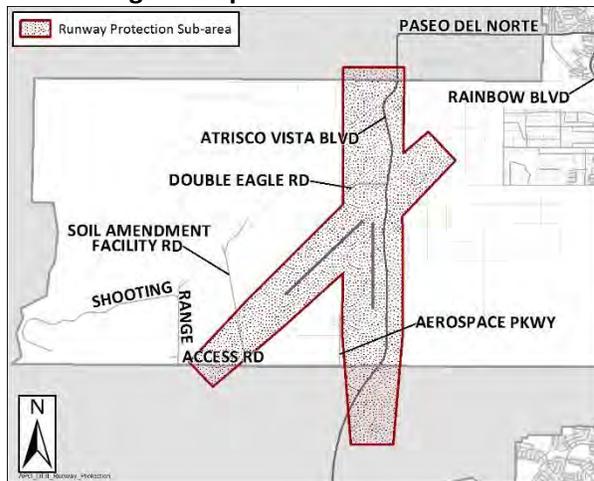

**3-3(B)(2) Runway Protection Sub-area**

This sub-area includes the runways, adjacent Approach Surfaces, and trapezoidal flares at the end of each runway.

**3-3(B)(2)(a) Albuquerque International Support**

**3-3(B)(2)(b) Double Eagle II Airport**

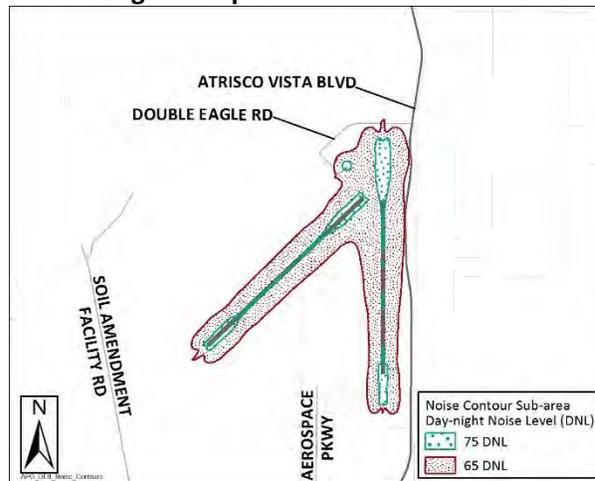

**3-3(B)(3) Noise Contour Sub-area**

This irregularly shaped sub-area reflects the intermittent noise levels that are expected in each airport area, based on averaged ambient conditions and existing and projected aircraft operations (landings and takeoffs). The effect of noise generated by any other specific land use is not reflected. The sub-area is bounded by the 65 Day-night Noise Level (DNL) contour and includes the 75 DNL contour, as calculated by the FAA Integrated Noise Model.

**3-3(B)(3)(a) Albuquerque International Sunport**

**3-3(B)(3)(b) Double Eagle II Airport**

**3-3(C) USE REGULATIONS**

**3-3(C)(1) Air Space and Runway Protection Sub-areas**

The following uses and activities are prohibited within the Air Space and Runway Protection Sub-areas:

- 3-3(C)(1)(a) Rifle range, public or private (see other outdoor entertainment in Table 4-2-1).
- 3-3(C)(1)(b) Private airport or helipad aircraft landing fields that would interfere with the safe use by aircraft of the Double Eagle II Airport or Albuquerque International Sunport as determined by the City Aviation Department.
- 3-3(C)(1)(c) Hot air balloon takeoff/landing (see Table 4-2-1).
- 3-3(C)(1)(d) Flying of kites.
- 3-3(C)(1)(e) Any primary, accessory, or temporary use that creates electrical interference with radio communication between the airport and aircraft, or that creates any interference with radar transmissions or with reception between aircraft and any radar installation or

between any radar installation and the airport, as determined by the City Aviation Department.

- 3-3(C)(1)(f) Any primary, accessory, or temporary use that makes it difficult for flyers to distinguish between airport lights and others, results in glare in the eyes of flyers using the airport, impairs visibility in the vicinity of the airport or otherwise endangers the landing, taking-off, or maneuvering of aircraft as determined by the City Aviation Department.
- 3-3(C)(1)(g) Any primary, accessory, or temporary use that produces smoke, fumes, gasses, or odors that would interfere with the safe use by aircraft of the Double Eagle II Airport or Albuquerque International Sunport, as determined by the City Aviation Department.

**3-3(C)(2) Noise Contour Sub-area**

The Permissive uses in the Noise Contour Sub-area are as listed in Table 3-3-1 and Table 3-3-2, unless prohibited or more restricted in Subsection 14-16-3-3(C)(1) above or by the zone district.

- 3-3(C)(3) The conditional uses in the Noise Contour Sub-area are the permissive uses or conditional uses allowed by the zone district and not listed as permissive in Table 3-3-1 or Table 3-3-2. Conditional Use Approval shall be pursuant to Subsection 14-16-6-6(A) and shall also be subject to the Zoning Hearing Examiner's (ZHE) determination that, due to the particular nature of the use or the special character of the enclosing structure, one of the following applies:
- 3-3(C)(3)(a) The use will not be adversely affected by noise expected to be generated by operation of aircraft.
  - 3-3(C)(3)(b) A small amount of adverse effect from the noise expected to be generated by operation of aircraft is clearly outweighed by a special need for the use.

**3-3(D) DEVELOPMENT STANDARDS**

**3-3(D)(1) Height Standards**

- 3-3(D)(1)(a) The height standards in this section apply to any permanent structure, temporary structure erected for however brief a period

of time, and to vegetation (typically trees) based on its expected height at maturity located within the Air Space Protection Sub-area and Runway Protection Sub-area.

3-3(D)(1)(b) In the Air Space Protection Sub-area, maximum building height is per the Dimensional Standards Tables in Section 14-16-5-1 for each zone district, but in no case may a building be higher than the Horizontal Surface for each airport. Maximum height may therefore vary based on the elevation of the land at the location of the proposed structure or vegetation.

3-3(D)(1)(c) Where an area is covered by more than one height limitation, including standards in the zone district or an Overlay zone, the most restrictive limitation shall prevail.

**3-3(D)(2) Reflectivity**

The exterior surfaces of structures shall not have a light reflective value (LRV) that results in glare in the eyes of flyers using the airport, impairs visibility in the vicinity of the airport, or otherwise endangers the landing, taking-off, or maneuvering of aircraft as determined by the City Aviation Department and per applicable FAA regulations.

**3-3(E) TRANSPORTATION ROUTES**

Public and private streets and rail lines are allowed within the Noise Contour Sub-area. See also Subsection 14-16-0 (Easements or Rights-of-Way).

**3-3(F) HAZARD MARKING AND LIGHTING**

The FAA or the City Aviation Department may require the owner of an existing structure or landscaping or the applicant for a new structure or landscaping in the APO zone at his/her own expense to install, operate, and maintain such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard. Such markers and lights shall conform to all applicable federal regulations and specifications and may require permitting through the City Planning Department.

**3-3(G) CROSS-REFERENCES**

- 3-3(G)(1) Subsection 14-16-5-8(B)(2) (Outdoor Lighting).
- 3-3(G)(2) Subsection 14-16-6-4(I) (Referrals to Commenting Agencies).

## 3-4 CHARACTER PROTECTION OVERLAY ZONES<sup>36</sup>

### 3-4(A) PURPOSE

The purpose of the Character Protection Overlay (CPO) zone is to preserve areas with distinctive characteristics that are worthy of conservation but are not historical or may lack sufficient significance to qualify as Historic Protection Overlay (HPO) zones. These areas meet 1 or more of the following characteristics:

- 3-4(A)(1) Have recognized neighborhood identity and character.
- 3-4(A)(2) Have high architectural value.
- 3-4(A)(3) Have a relationship to HPO zones that make the area's conservation critical.
- 3-4(A)(4) Have a relationship with cultural landscapes identified in the Albuquerque/ Bernalillo County Comprehensive Plan (ABC Comp Plan), as amended.

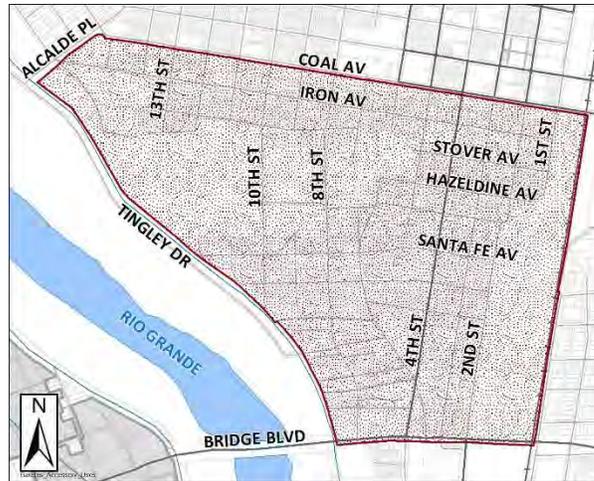

---

<sup>36</sup> Interim guidelines for North 4th Street were adopted in August 2019 (R-19-162, Enactment #R-2019-061). As of this Redline Draft, a revised version of those guidelines has been recommended for approval by the EPC and will be reviewed and decided by City Council. If City Council approves that amendment, it will be reflected in the effective draft of the IDO after this 2019 Annual Update is adopted. It is not reflected in this Redline draft.

<sup>70</sup> Council Amendment U introduces a new VPO for West Central. This Amendment was withdrawn.

### 3-6(D) COORS BOULEVARD – VPO-1

#### 3-6(D)(1) Applicability

The VPO-1 standards apply in the following mapped area. Where the VPO-1 boundary crosses a lot line, the entire lot is subject to these standards.

#### 3-6(D)(2) Protected Views

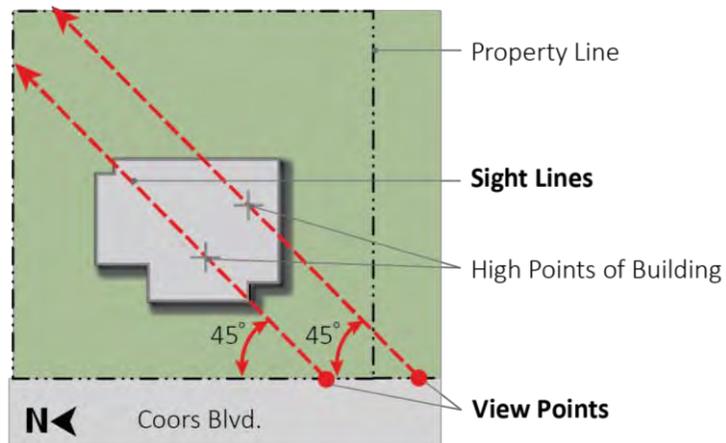

Views protected by this VPO-1 are from Coors Boulevard, along the segment between Western Trail/Namaste Road and Alameda Boulevard, looking toward the Rio Grande Bosque and Sandia Mountains.

#### 3-6(D)(3) Definitions

The terms defined and illustrated below are used in the standards of this VPO-1.

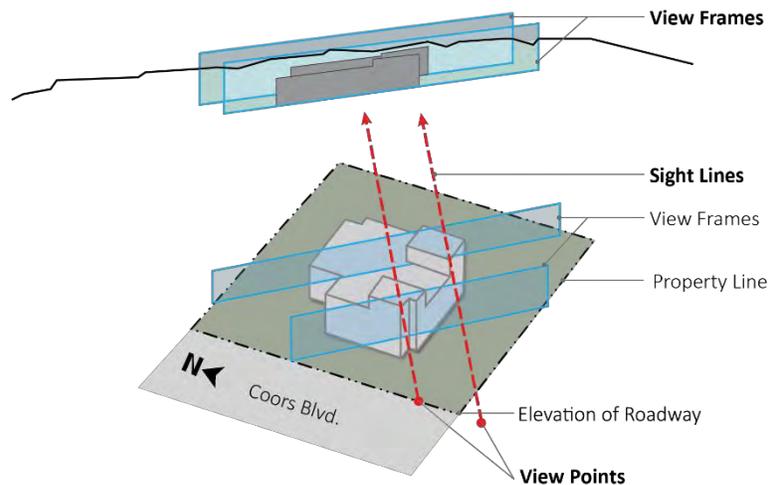

##### 3-6(D)(3)(a) Sight Lines

Lines that begin at the east edge of the public right-of-way of Coors Boulevard and follow a 45 degree angle to Coors Boulevard, in an approximately northeast direction toward the Sandia ridgeline. Sight lines are required to intersect the highest point(s) of the proposed building(s) on the site and, if the building has no higher point, the lowest elevation(s) of the public right-of-way of Coors Boulevard abutting or nearest the site. (See figure below.)

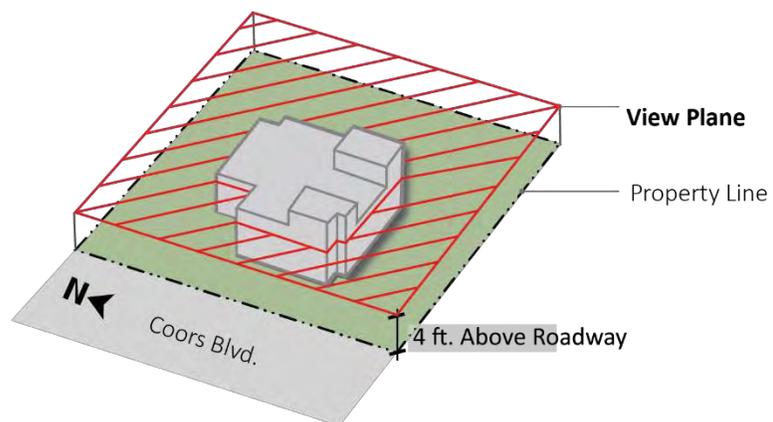

**3-6(D)(3)(b) View Frame**

A vertical rectangular frame drawn perpendicular (i.e. 90 degrees) to a given sight line through the highest point of the proposed building. The top of the view frame is established by the highest visible point of the Sandia ridgeline within the view frame. The bottom of the view frame is the elevation of the public right-of-way of Coors Boulevard where the sight line begins. The left and right edges of the view frame are an upward projection of the property lines at the site boundary where the view frame intersects the property lines. As many view frames as necessary to capture all the sight lines on a site are required. (See figure below.)

**3-6(D)(3)(c) View Plane**

A view plane 4 feet above the elevation of the east edge of the east driving lane on Coors Boulevard and extending horizontally above sites located east of Coors Boulevard. (See figure below.)

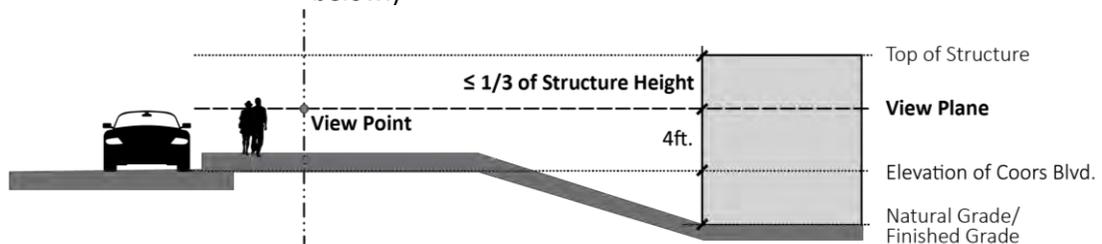

**3-6(D)(4) Setback Standards**

Within this VPO-1, the setback standards in Subsection 14-16-3-4(C)(3)(b) (Setback from Coors Boulevard) shall apply for lots abutting Coors Boulevard.

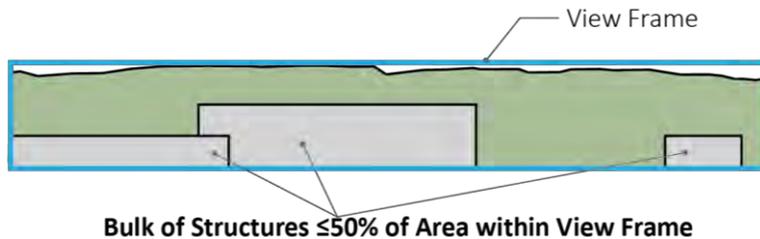

**3-6(D)(5) Height, Bulk, and Massing**

All development within this VPO-1 shall meet all of the following requirements.

3-6(D)(5)(a) No more than 1/3 of the height of structures (including building parapets, mechanical equipment and associated screening, walls, and fences) shall be allowed to penetrate above the view plane as shown in section diagram below. On lots with developable area that is constrained because the natural grade (or finished grade, if infrastructure is already installed) is less than or equal to 10 feet below the elevation of the east edge of the public right-of-way of Coors Boulevard and may also include sensitive lands (see Subsection 14-16-5-2(C)), a total height of 16 feet for low-density residential and 20 feet for other uses is allowed. (See figure below.)

3-6(D)(5)(b) Not more than 50 percent of the area within any view frame for a property shall be obscured by the bulk of the structure(s) (including walls and fences) placed on the property. (See figure below.)

3-6(D)(5)(c) Projects containing several buildings shall provide variety in building size and massing. Lower, smaller buildings shall be located closer to Coors Boulevard, with larger, taller buildings located farther back on the property, to the maximum extent practicable. (See figure below.)

**3-6(D)(6) Colors**

The exterior surfaces of structures, including but not limited to mechanical devices, roof vents, and screening materials, shall be colors with light reflective value (LRV) ranging from 20 percent to 50 percent. This middle range of reflectance is intended to avoid very light and very dark colors.

3-6(D)(6)(a) Allowable colors include the browns and greens existing within the Bosque.

3-6(D)(6)(b) Trim materials on façades constituting less than 10 percent of the façade’s opaque surface may be any color.

**3-6(D)(7) Site Landscaping Within Coors Boulevard Setback**

3-6(D)(7)(a) Any private landscaping other than trees shall not be higher at maturity than the view plane.

3-6(D)(7)(b) Tree varieties shall be selected for small “see through” type foliage texture and shall be planted singularly or in small groupings with concern for enhancing, not blocking, views to the east.

**3-6(D)(8) Variances**

Variances to standards for setback, structure height, or structure bulk and massing in this Coors Boulevard – VPO-1 shall be reviewed and decided by the Environmental Planning Commission (EPC) pursuant to Subsection 14-16-6-6(N) (Variance – EPC).

### 3-6(E) NORTHWEST MESA ESCARPMENT – VPO-2

#### 3-6(E)(1) Applicability

The VPO-2 standards apply in the following mapped area. Where the VPO-2 boundary crosses a lot line, the entire lot is subject to these standards.

#### 3-6(E)(2) Protected Views

Views protected by this VPO-2 are looking to and from the Petroglyph National Monument.

#### 3-6(E)(3) Structure Height

The following standards apply in the Height Restrictions Sub-area shown in the map above.

- 3-6(E)(3)(a) Structure height shall not exceed 15 feet, as measured from natural grade.
- 3-6(E)(3)(b) For properties with undulating terrain that would require fill as part of site grading, the resulting building shall not be taller than the tallest building on any abutting lot located within the Height Restriction sub-area and shall not block views to or from the escarpment, as shown in a view analysis.
- 3-6(E)(3)(c) Additional height may be requested through a Variance – EPC pursuant to Subsection 14-16-6-6(N).
  - 1. No structure shall exceed 19 feet in height from the finished grade, inclusive of any Variance granted.
  - 2. When a Variance is requested for structure height, the visual impact of additional structure height on views to and from the escarpment shall be minimized through at least 1 of the following techniques:
    - a. Height/Slope  
An increase in height in response to slope to produce a stepped-down effect and a smooth transition in scale. For example, 1 foot of additional structure height may be granted for every 3 feet to 4 feet of drop in ground elevation from a base elevation established at the

escarpment face (i.e. where the 9 percent slope line begins). Buildings may also be depressed below the natural grade.

b. View Corridors

Two-story construction that is located and designed so that massing maintains views to the escarpment at the perimeter of the site, or at the nearest public road (whichever offers the predominant public views) and views from the escarpment – primarily from public trails and access points. The intent is to preserve the maximum amount of unobstructed lateral views to the base of the escarpment. If the site is located above the escarpment, the views will be to the top of the escarpment.

c. Height/Slope/Setback

Structures set back from major public views (i.e. views from the site perimeter, nearest public road, public trails, or access points along the escarpment; views to the east, west, south, and north property lines; or views to the escarpment) so that building height increases in proportion to the size of the setback and the slope without increasing the visual impact from a particular vantage point.

**3-6(E)(4) Colors**

The exterior surfaces of structures, including but not limited to mechanical devices, roof vents, and screening materials, shall be colors with light reflective value (LRV) ranging from 20 percent to 50 percent. This middle range of reflectance is intended to avoid very light and very dark colors.

3-6(E)(4)(a) Colors include the yellow ochers, browns, dull reds, and grey-greens existing on the Northwest Mesa and escarpment, exclusive of the basalt.

3-6(E)(4)(b) Trim materials on façades constituting less than 20 percent of the façade's opaque surface may be any color.

**3-6(E)(5) Reflectivity**

Reflective or mirrored glass is prohibited.

**3-6(E)(6) Roof-mounted Equipment**

No exposed roof-mounted heating, ventilation, and air conditioning equipment shall be allowed. Any such equipment shall be fully screened from view from the nearest public streets and from the escarpment.

**3-6(E)(7) Cross-references**

3-6(E)(7)(a) Subsection 14-16-6-4(O)(3)(e) (Deviations to Overlay Standards Not Allowed).

## Part 14-16-4 Use Regulations

### 4-1 GENERAL

#### 4-1(A) LISTED USES

Table 4-2-1 indicates allowable land uses in individual zone districts, with abbreviations as described in Subsection 14-16-4-1(C). Use-specific Standards in Section 14-16-4-3 **establish restrictions, requirements, additional allowances, or review procedures.**<sup>71</sup>

- 4-1(A)(1) Table 4-2-1 may indicate that a use is allowed in a particular zone district, while the Use-specific Standard may restrict that use in particular contexts or in specified areas. For example, a use may be allowed citywide but not next to residential uses, or a use may be allowed in a small area but not citywide in the same zone district.<sup>72</sup>
- 4-1(A)(2) A blank cell in Table 4-2-1 indicates that the use is not allowed in that zone district.
- 4-1(A)(3) Definitions of each land use may allow another land use listed in the table as incidental to the defined use.
- 4-1(A)(4) Additional land uses or restrictions on the use of land in a particular zone district may be contained in Sections 14-16-2-3 through 14-16-2-6 (Zone Districts) or in an Overlay zone applicable to the subject property in 0.
- 4-1(A)(4)(a) Allowable uses in the MX-FB Zone District are pursuant to Subsection 14-16-2-4(E)(3)(c) (Use Regulations).
- 4-1(A)(4)(b) The NR-SU zone district allows primary uses not allowed in any other zone district as indicated in Subsection 14-16-2-5(E)(2) (Use and Development Standards).<sup>73</sup>
1. Accessory uses listed as allowable in the NR-SU zone district in Table 4-2-1 may be approved in conjunction with a primary NR-SU use if they are found to be compatible with or complementary to the proposed primary use.
  2. Additional uses not listed as allowable in the NR-SU zone district in Table 4-2-1 may be approved as accessory to the proposed primary use if they are found to be compatible with or complementary to the proposed primary uses.
  3. Accessory uses approved in an NR-SU zone district shall be subject to the relevant Use-specific Standards or any other standards deemed appropriate and necessary by the relevant decision-making body.
  4. Uses approved for each property and any related standards are documented in the approved Site Plan for that property on file with the City Planning Department.

<sup>71</sup> Revised per EPC Condition #14.c.

<sup>72</sup> Added per EPC Condition #14.c.

<sup>73</sup> Revised per EPC Condition #1 (Tech Edits).

## 4-1: General

- 4-1(A)(4)(c) Uses are regulated in the NR-PO sub-zones as follows:
1. NR-PO-A: Uses may be specified in Master Plans or Site Plans beyond those listed by Table 4-2-1, as approved by the City Parks and Recreation Department pursuant to Subsection 14-16-2-5(F)(3)(a) (Sub-zone A: City-owned or Managed Parks).
  2. NR-PO-B: Uses may be specified in Master Plans, Resource Management Plans, or Site Plans beyond those listed by Table 4-2-1, as approved by the Open Space Division of the City Parks and Recreation Department pursuant to Subsection 14-16-2-5(F)(3)(b) (Sub-zone B: Major Public Open Space).
  3. NR-PO-C: Allowable uses are listed in Table 4-2-1.
  4. NR-PO-D: The BioPark is regulated by a Master Plan, which specifies allowable uses associated with the ABQ BioPark Zoo, Aquarium, Botanic Gardens, and Tingley Beach facilities, as approved by the City Cultural Services Department.
- 4-1(A)(4)(d) Allowable uses in the PD zone district are pursuant to Subsection 14-16-2-6(A)(4) (Allowable Uses). Uses approved for each property and any related standards are documented in the approved Site Plan for that property on file with the City Planning Department.
- 4-1(A)(4)(e) Allowable uses in the PC zone district are pursuant to Subsection 14-16-2-6(B)(4) (Allowable Uses). Allowable uses and any related standards are documented in the approved Framework Plan for the PC zone district on file with the City Planning Department.

**4-1(B) UNLISTED USES**

When a proposed land use is not explicitly listed in Table 4-2-1, the Zoning Enforcement Officer (ZEO) shall determine whether or not it is included in the definition of a listed use or is so consistent with the size, scale, operating characteristics, and external impacts of a listed use that it should be treated as the same use. In making this determination, the ZEO shall consider the scale, character, traffic impacts, storm drainage impacts, utility demands, and potential impacts of the proposed use on surrounding properties. The ZEO's interpretation shall be made available to the public on the City Planning Department website and shall be binding on future decisions of the City until the ZEO makes a different interpretation or this IDO is amended to treat the use differently.

**4-1(C) ABBREVIATIONS**

- 4-1(C)(1) A "P" in a cell of Table 4-2-1 indicates that the use is Permissive Primary (i.e. a primary use allowed by right in that zone district), subject to compliance with any Use-specific Standards referenced in the right-hand column of that line of the table.
- 4-1(C)(2) A "C" in a cell of Table 4-2-1 indicates that the use is Conditional Primary (i.e. a primary use allowed only after the applicant obtains a Conditional Use Approval pursuant to Subsection 14-16-6-6(A)) and subject to any Use-specific Standards referenced in the right-hand column of that line of the table.
- 4-1(C)(3) An "A" in a cell of Table 4-2-1 indicates that the use is Permissive Accessory (i.e. allowed as an accessory use compatible with a Permissive Primary or

## 4-1: General

Conditional Primary use on the lot), and is subject to any Use-specific Standards referenced in the right-hand column of that line of the table.

- 4-1(C)(4) A “CA” in a cell of Table 4-2-1 indicates that the use is Conditional Accessory (i.e. an accessory use allowed only after the applicant obtains a Conditional Use Approval pursuant to Subsection 14-16-6-6(A)) and subject to any Use-specific Standards referenced in the right-hand column of that line the table.
- 4-1(C)(5) A “CV” in a cell of Table 4-2-1 indicates that the use is allowed in a structure that has been vacant for a period of 5 or more years, only after the applicant obtains a Conditional Use Approval pursuant to Subsection 14-16-6-6(A) and subject to any Use-specific Standards referenced in the right-hand column of that line of the table.
- 4-1(C)(6) A “T” in a cell of Table 4-2-1 indicates that the use is allowed as a temporary use, subject to any Use-specific Standards referenced in the right-hand column of the table and as permitted pursuant to Section 14-16-6-5(F) (Permit – Temporary Use).

**4-1(D) MULTIPLE USES**

- 4-1(D)(1) A development may include multiple primary uses, including a combination of residential and non-residential uses, provided that each use is listed as an allowable Permissive Primary use or a Conditional Primary use in that zone district, that a Conditional Use Approval pursuant to Subsection 14-16-6-6(A)) is obtained for any Conditional Primary use, all Use-specific Standards applicable to each use are met, and the development complies with all applicable density, dimensional, impervious surface, development, and performance standards in Part 14-16-5 (Development Standards).
- 4-1(D)(2) In Mixed-use and Non-residential zone districts, accessory uses may be on a lot abutting the primary use.

**4-1(E) PREVIOUSLY ALLOWED USES**

- 4-1(E)(1) Each use that exists on the effective date of this IDO that is required by this IDO to obtain a Conditional Use Approval, but that was a permissive use or an approved conditional use prior to the effective date of this IDO is deemed to have a Conditional Use Approval to continue operation in structures and on land areas where the operation was conducted prior to the effective date of this IDO and to expand operations without the need to obtain a Conditional Use Approval, provided that the expansion complies with all Use-specific Standards and other requirements of this IDO (other than the requirement for a Conditional Use Approval).
- 4-1(E)(2) Each use that exists on the effective date of this IDO that was a permissive use or an approved conditional use prior to the effective date of this IDO and that is not allowed in the IDO zone district where it is located is a nonconforming use. See Section 14-16-6-8 (Nonconformities).

**4-1(F) REQUIRED STATE LICENSES OR PERMITS**

All uses required by the State of New Mexico or by another public or quasi-public or regulatory agency to have an approval, license, or permit to operate are required by the City

of Albuquerque to have that State approval, license, or permit in effect at all times, and failure to do so constitutes a violation of this IDO.

**4-1(G) SEPARATION OF USES**

Where a specific use is required to be separated from a protected use by a minimum distance, and the specific use complies with those standards, the later arrival of a protected use located within the minimum spacing distance does not make the specific use subject to the spacing requirement nonconforming, subject to the discontinuance provisions of Subsection 14-16-6-8(C)(3) (Discontinuance of Nonconforming Use), and does not limit the ability of the specific use to expand if such expansion would have been allowed before the arrival of the protected use.

- 4-3(B)(2)(c) The number of dwelling units is determined by dividing the area of the project site by the minimum lot size allowed in the zone district, rounded down to the nearest whole number, but shall not exceed 50, except in the Los Duranes – CPO-6, where the number of dwelling units shall not exceed 20.
- 4-3(B)(2)(d) If the zone district allows two-family detached (duplex) dwellings, a cluster development may include that dwelling type.
- 4-3(B)(2)(e) The cluster development project site shall **include common** open space set aside for agriculture, landscaping, on-site ponding, outdoor recreation, or any combination thereof allowed in the zone district, and for the use and enjoyment of the residents.<sup>95</sup>

- 4-3(B)(2)(g) If the zone district allows two-family detached (duplex) dwellings, a cluster development may include that dwelling type.

### **4-3(B)(3) Dwelling, Conservation Development<sup>98</sup>**

- 4-3(B)(3)(a) Minimum project size for this use is 1 acre.
- 4-3(B)(3)(b) Zone district lot and setback requirements, including contextual standards in Subsection 14-16-5-1(C)(2), shall apply to the project site as a whole, but not to individual dwellings.
- 4-3(B)(3)(c) The number of dwelling units is determined by dividing the site area by the minimum lot size allowed in the zone rounded down to the nearest whole number but shall not exceed 50 per conservation development, except in the Los Duranes – CPO-6, where the number of dwelling units shall not exceed 20.

#### 4-3(B)(4) Dwelling, Cottage Development<sup>99</sup>

- 4-3(B)(4)(a) Minimum project size for a cottage development is 1 acre, and the maximum project size is 2 acres.

- 4-3(B)(4)(b) Cottage developments shall be measured in square feet of residential gross floor area rather than in the number of dwelling units.

1. In all zone districts, a cottage development shall have no more than the total residential gross floor area that would be allowed on an equal size property in the same zone district for single-family detached development. This is calculated by first determining the number of lots that would be allowed in that zone district, assuming the minimum lot size established in Table 5-1-1. That number is then multiplied by 2,000 square feet, an assumed size of a typical single-family dwelling, to determine the maximum residential gross floor area.<sup>100</sup>
  - a. When the calculation of the number of lots that would be allowed on the site based on the minimum lot size for the zone district results in a fraction of a lot, the number of lots used to calculate the maximum total residential gross floor area shall be rounded down to the nearest whole number.
  - b. In the R-T or R-ML zone districts, for which minimum lot sizes are established for different residential uses, the calculation of the number of lots that would be allowed shall be based on the minimum lot size for the relevant low-density residential use (i.e. single-family or two-family detached if the cottage development will consist of single-family or two-family detached dwellings or townhouse if the cottage development will consist of townhouse dwellings).<sup>101</sup>
  - c. In the MX-T zone district, for which minimum lot sizes are not established in Table 5-1-2, the calculation of the number of lots that would be allowed shall be based on the minimum lot sizes established for the R-ML zone district in Table 5-1-1 for the relevant low-density residential use (i.e. single-family or two-family detached if

<sup>99</sup> Council Amendment F reduces the minimum lot size requirement for cottage development in and within ¼ mile of UC-MS-PT areas.

<sup>100</sup> Revised per EPC Condition #1 (Tech Edits) and EPC Condition #13. Editorial revisions to the order of this subsection for clarity made per EPC Condition #1 (Tech Edits).

<sup>101</sup> Added per EPC Condition #1 (Tech Edits) and EPC Condition #13.

the cottage development will consist of single-family or two-family detached dwellings or townhouse if the cottage development will consist of townhouse dwellings).<sup>102</sup>

2. Any combination of dwelling units of different sizes that total no more than the maximum total residential gross floor area would be allowed on the project site, with the following exceptions:
  - a. The maximum size of each dwelling unit is 1,200 square feet of gross floor area.
  - b. In the R-A and R-1 zone districts, the minimum size of each dwelling unit is 650 square feet of gross floor area.

*Example:*

On a 1 acre site in the R-A zone district, 4 lots would be allowed, given the minimum lot size of 10,890 square feet (1/4 acre) in the R-A zone district.

Multiply the 4 lots allowed by 2,000 square feet. The site would be allowed 8,000 square feet of residential gross floor area. For example, 8 dwelling units of 1,000 square feet each would be allowed.

- 4-3(B)(4)(c) Zone district lot and setback requirements, including contextual standards in Subsection 14-16-5-1(C)(2), shall apply to the project site as a whole, but not to individual dwellings.
- 4-3(B)(4)(d) The development may contain a shared indoor community space for all residents in the development to use for activities, cooking, and/or dining. If a such a space is provided, the building area is not included in the maximum total residential gross floor area.<sup>103</sup>
- 4-3(B)(4)(e) If individual cottage dwelling units do not have kitchens, a shared community space with a kitchen in a fully enclosed portion of a building accessible to all residents shall be provided.<sup>104</sup>
- 4-3(B)(4)(f) Homeowners association or other recorded documents shall require that any the sale of individual dwelling units also include an associated interest in shared or common lands, structures or facilities and shall require the buyer's continued responsibility for its share of those responsibilities.
- 4-3(B)(4)(g) Each project site shall maintain a landscape buffer at least 10 feet wide, meeting the requirements of Section 14-16-5-6 (Landscaping, Buffering, and Screening) along each side and rear lot line, and no portion of any primary or accessory structure may be located in that buffer area.

<sup>102</sup> Added per EPC Condition #1 (Tech Edits) and EPC Condition #13.

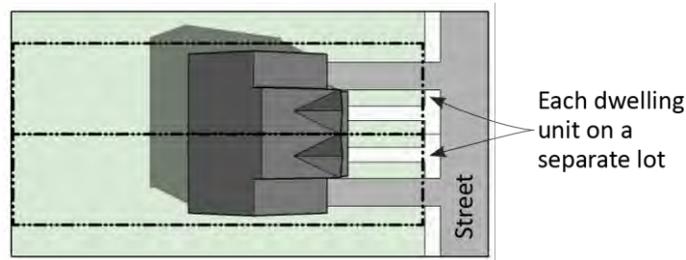

<sup>103</sup> Revised per EPC Condition #1 (Tech Edits) and EPC Condition #13.

<sup>104</sup> Added per EPC Condition #12.

- 4-3(B)(4)(h) In the R-A and R-1 zone districts, 30 percent of the gross area of the project site shall be usable open space. Open balconies and rooftop decks shall not count toward this requirement.
- 4-3(B)(4)(i) If the zone district allows two-family detached (duplex) or townhouse dwellings, a cottage development may include those dwelling types.

#### 4-3(B)(5) Dwelling, Two-family Detached (Duplex)

- 4-3(B)(5)(a) Where this use is allowed and the 2 dwelling units are on separate lots, interior side setbacks required by the zone district shall not apply to any lot line where the 2 units share a common wall.
- 4-3(B)(5)(b) This use is prohibited in the R-1 zone district, except in R-1A where 1 two-family detached dwelling is permissible on 2 lots where the building straddles the lot line and each dwelling unit is on a separate lot. (See figure below.)

#### 4-3(B)(6) Dwelling, Townhouse

- 4-3(B)(6)(a) For townhouse developments containing more than 6 dwelling units on a common lot, minimum usable open space shall be provided as follows:
1. Efficiency or 1 bedroom: 200 square feet per unit.
  2. 2 bedrooms: 250 square feet per unit.
  3. 3 or more bedrooms: 300 square feet per unit.
  4. In UC-MS-PT areas, the minimum usable open space required shall be 50 percent of the requirements in Subsections 1 through 3 above.
- 4-3(B)(6)(b) The required side setbacks required by Part 14-16-5 (Development Standards) shall apply to the end units of each townhouse dwelling, and shall not apply to interior side lot lines where townhouse dwelling units share a common interior wall.
- 4-3(B)(6)(c) For properties on which the rear **or side** lot line abuts an R-A or R-1 zone district **or on which the rear lot line is across an alley from an R-A or R-1 zone district**, no townhouse dwelling may contain more than 3 dwelling units.<sup>105</sup>
- 4-3(B)(6)(d) In any Mixed-use zone district west of the Rio Grande on properties abutting the public right-of-way of a Major Transit or Premium Transit Corridor, allowable uses in the Commercial

Evidence that demonstrates that collocation or public utility collocation cannot be used in lieu of new construction to reasonably accommodate the proposed WTF shall consist of an affidavit with supporting exhibits submitted by the applicant addressing all of the following:
  - a. That no existing tower, structure, or public utility structure within a ½ mile radius meets the minimum engineering requirements and/or lacks available space to support the proposed WTF.

That collocation or public utility collocation of the proposed WTF would cause unavoidable electromagnetic interference with the antenna(s) on the existing towers, structures or public utility structures, or the antenna(s) on the existing towers, structures, or public utility structures would cause interference with the applicant's proposed WTF.
  - c. That there are other limiting factors that render existing towers, structures, or public utility structures within the ½ mile radius unsuitable.

  - b. Located to avoid a dominant silhouette of the WTF on escarpments and mesas and to preserve views within VPO zones.
  - c. Located on existing vertical structures, including utility poles and public utility structures to the maximum extent practicable.

## Part 14-16-5 Development Standards

### 5-1 DIMENSIONAL STANDARDS

#### 5-1(A) PURPOSE

This Section 14-16-5-1 regulates the size, scale, and location of development throughout the city to ensure that residential development, particularly low-density residential development, reinforces the scale and character of residential areas in those portions of the city designated as Areas of Consistency in the Albuquerque/Bernalillo County Comprehensive Plan (ABC Comp Plan), as amended.

#### 5-1(B) APPLICABILITY

5-1(B)(1) The standards of this Section 14-16-5-1 apply in any zone districts except MX-FB, where development size, scale, location, and massing are regulated by Subsection 14-16-2-4(E) (Mixed-use – Form-based Zone District (MX-FB)).

5-1(B)(2) Part 14-16-3 (Overlay Zones) may contain maximum height, maximum or minimum setback, or other dimensional standards that differ from those in this Section 14-16-5-1. In the case of a conflict between the dimensional standards, Overlay zone standards shall prevail.

5-1(B)(3) Section 14-16-5-9 (Neighborhood Edges) may contain maximum height, maximum or minimum setback, or other dimensional standards that differ from those in this Section 14-16-5-1. In case of a conflict between the dimensional standards, Neighborhood Edge standards shall prevail.

5-1(B)(4) Notwithstanding any standard in this IDO, all development must meet relevant setback standards in Article 14-2 of ROA 1994 (Fire Code).

#### 5-1(C) RESIDENTIAL ZONE DISTRICTS

##### 5-1(C)(1) Residential Zone District Table

All development in any Residential zone district shall comply with the standards in Table 5-1-1, except under any of the following circumstances, in which case individual standards in the relevant sections prevail over conflicting standards in Table 5-1-1:

5-1(C)(1)(a) The project is a residential development of primary buildings in an Area of Consistency, in which case any relevant Contextual Residential Standards in Section 14-16-5-1(C)(2) prevail.

5-1(C)(1)(b) A different standard is stated in another section of this IDO, such as an Overlay zone standard in Part 14-16-3 (Overlay Zones) or a Use-specific Standard in Section 14-16-4-3, in which case that standard prevails.

[1] Residential development that qualifies for funding through Article 14-17 of ROA 1994 (Family Housing Developments) may be eligible for development incentives specified in that Article.  
 [2] In the R-MC zone district, setback standards apply to the entire project site, not to individual manufactured home spaces; **however, the minimum distance between dwellings is 10 ft. unless the applicant otherwise demonstrates that the buildings comply with Article 14-2 of ROA 1994 (Fire Code).**<sup>199</sup>  
 [3] Unless specified otherwise in this IDO, minimum lot size and width apply to the lot, not to individual dwelling units.  
 [4] For lots in the R-MH zone district that do not meet this minimum lot size requirement, development is allowed pursuant to Subsection 14-16-6-8(E)(3).  
 [5] Usable open space requirements for R-ML and R-MH are for multi-family residential development only. Use-specific standards for some development types require usable open space pursuant to Subsections 14-16-4-3(B)(4)(h) (Dwelling, Cottage Development) and 14-16-4-3(B)(6)(a) (Dwelling, Townhouse).  
 [6] At corners and junctions with driveways or alleys, additional requirements related to clear sight triangles in the DPM may apply.

**5-1(C)(2) Contextual Residential Development in Areas of Consistency<sup>203</sup>****5-1(C)(2)(a) Applicability**

1. For the following residential development types, the contextual lot size standards in Subsection (b) below do not apply, and the contextual setback standards in Subsection (c) below apply to the entire project site, not to individual lots or primary buildings:
  - a. Manufactured home communities in the R-MC zone district.
  - b. Cluster development.
  - c. Conservation development.<sup>204</sup>
  - d. Cottage development.
2. All other development in any Residential zone district on blocks where lots have been platted and at least 1 primary building is constructed shall comply with the standards in Subsections (b) and (c) below.

**5-1(C)(2)(b) Lot Size<sup>205</sup>**

In any Residential zone district in an Area of Consistency, the minimum and maximum lot sizes for construction of new low-density residential development shall be based on the size of the Bernalillo County Tax Assessor's lot, or a combination of adjacent Tax Assessor's lots, **on the portions of the blocks facing the same street as the lot** where the new low-density residential development is to be constructed, rather than on the size of the individual subdivision lots shown on the existing subdivision plat.

1. New low-density residential development shall not be constructed on a Tax Assessor's lot, or combination of abutting Tax Assessor's lots, that is smaller than 75 percent of the **average** of the size of the Tax Assessor's lots, or combinations of adjacent Tax Assessor's lots, that contain a primary building **on those blocks**.
2. New low-density residential development shall not be constructed on a Tax Assessor's lot, or combination of abutting Tax Assessor's lots, that is larger than 125 percent of the **average** of the size of the Tax Assessor's lots, or combinations of adjacent Tax Assessor's lots, that contain a primary building **on those blocks**.
3. In making these calculations, the size of any Tax Assessor's lot or combination of adjacent tax assessor's lots containing primary buildings on that block that are not low-density residential development shall be ignored.

<sup>203</sup> Council Amendment E recommends revisions to contextual standards to allow for more flexibility within ¼ mile of UC-MS-PT areas. EPC Condition #60 proposes a clarifying revision.

<sup>204</sup> Added per EPC Condition #9.d.

<sup>205</sup> Revisions throughout this subsection per EPC Condition #1 (Tech Edits). Clarification that average is calculated as an arithmetic mean moved to be a new definition to be applicable throughout the IDO.

4. In making the calculations in Subsections 1 through 3 above, any lots owned by the applicant with existing site features that are to be preserved, including but not limited to areas of open space or existing structures, shall not be considered in the contextual standards calculations for lot size.<sup>206</sup>

**5-1(C)(2)(c) Front Setbacks<sup>207</sup>**

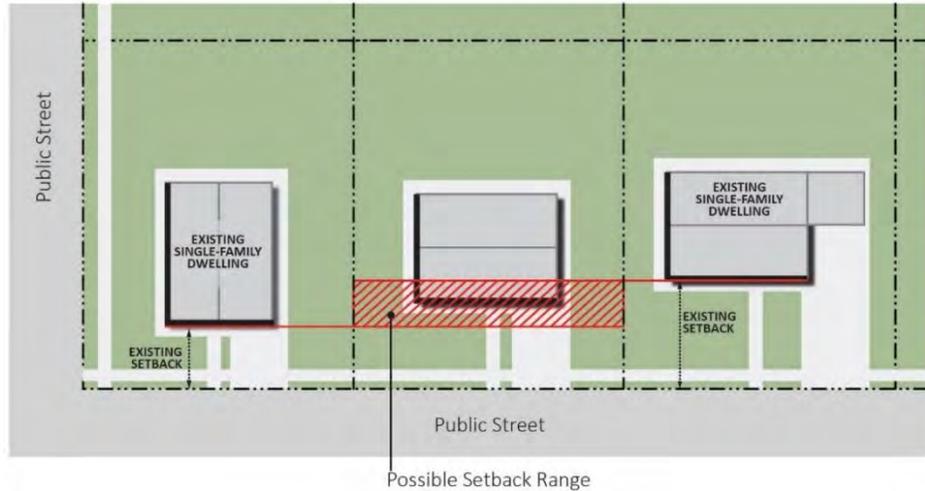

In any Residential zone district in an Area of Consistency, the front setback for construction of new low-density residential development shall be based on the existing front setbacks of primary buildings on adjacent lots:

1. If only 1 of the abutting lots facing the same street is a low-density residential development, the front setback of any new dwellings shall be within 3 feet of the front setback of the existing primary dwelling on the adjacent lot or within the front setback required by Table 5-1-1, whichever allows the new buildings to be closer to the street.
2. If both of the abutting lots facing the same street are low-density residential development, the front setback of any new dwellings shall be between the closer and farther front setbacks of the 2 primary dwellings on the abutting lots (see illustration below).
3. If both of the abutting lots are vacant, but at least 2 adjacent lots facing the same street are low-density residential development, the front setback of any new dwellings shall be between the closer and farther front setbacks of the 2 primary dwellings on adjacent lots or within the front setback required by Table 5-1-1, whichever allows the new buildings to be closer to the street.
4. If both of the abutting lots are vacant, but only 1 adjacent lot facing the same street is low-density residential development, the front setback of any new dwellings shall be constructed per the standards in Table 5-1-1.

Contextual Residential **Front** Setbacks for Cluster and Cottage Development

**5-1(C)(2)(d) Side Setbacks<sup>208</sup>**

In any Residential zone district in an Area of Consistency, the side setback for construction of new low-density residential development may be based on the minimum side setback in Table 5-1-1 for the relevant zone district or the existing side setbacks of primary buildings on adjacent lots with low-density residential development facing the same street as the lot where the new low-density residential development is to be constructed.

## 5-2 SITE DESIGN AND SENSITIVE LANDS

### 5-2(A) PURPOSE

This Section 14-16-5-2 is intended to minimize the impacts of development **on natural and cultural resources, to protect public health and safety from potential hazards on sensitive lands**, and to create more distinctive neighborhoods by connecting them to surrounding natural features and amenities. Site design standards are intended to enhance the visual appearance of non-residential development, promote street and neighborhood character, and strengthen the pedestrian environment.<sup>216</sup>

### 5-2(B) APPLICABILITY

These standards apply to all site development and new subdivisions, unless explicitly exempted elsewhere in this IDO. The design standards in this section are minimum standards. The City may impose more restrictive standards if necessary to comply with applicable engineering or design standards or other standards in this IDO.

### 5-2(C) AVOIDANCE OF SENSITIVE LANDS

5-2(C)(1)(c) A Master Development Plan or Framework Plan.

5-2(C)(2) Both the subdivision and site design processes shall begin with an analysis of site constraints related to sensitive lands. To the maximum extent practicable, new subdivisions of land and site design shall avoid locating development, except for open spaces and areas that will not be disturbed during the development process, in the following types of sensitive lands:

**5-3(D)(3)(a) General**

1. For the purposes of this Subsection 14-16-5-3(D)(3), the building's overall footprint will be considered the area for calculation of sidewalk width. A collection of smaller buildings linked by common walls will be considered as 1 building.
2. Where primary pedestrian entrances are located adjacent to a public sidewalk, the width of the public sidewalk may be included in the calculation.
3. Shade trees along required pedestrian walkways are required pursuant to Subsection 14-16-5-6(C)(4)(h) (Required Plant Materials and Site Amenities).

The street network in new subdivisions shall be created through block standards in Subsection 14-16-5-4(E) (Block Design and Layout). The connectivity and classification of each street shall be consistent with the [Mid-region Council of Governments \(MRCOG\) Long Range Roadway System Map](#), the [Long Range Transportation System Guide of the Metropolitan Transportation Plan](#), and the DPM, intended to create a hierarchy of street classifications for arterials, collectors, and local streets spaced adequately for a complete network that provides circulation throughout the city to accommodate various travel modes.<sup>232</sup>

**5-3(E)(1)(b) Detailed Design**

1. Detailed intersection spacing, geometry, and horizontal alignment for streets shall meet all DPM standards.
2. Streets shall be designed to the standards of the DPM.
3. The character, extent, width, and location of all streets shall conform to the [MRCOG Long Range Roadway System Map](#), the [Long Range Transportation System Guide of the Metropolitan Transportation Plan](#), the DPM, and other policies, plans, and ordinances adopted by the City and shall be consistent in their relationship to existing and planned streets, topographic conditions, public convenience, safety, and the proposed uses of the land to be served by the streets.<sup>233</sup>

#### 5-3(E)(1)(d) Stub Streets and Cul-de-Sacs<sup>235</sup>

Stub streets and cul-de-sacs that terminate the road are prohibited, with the following exceptions:

1. Cul-de-sacs are allowed where necessary to avoid those types of sensitive lands listed in Section 14-16-5-2(C), or where vehicular safety factors make a connection impractical, including but not limited to size or shape of lots, topography, surrounding development patterns, and physical characteristics.
2. Permanent stub streets are allowed only where a connection to an existing street and a future road extension is not possible or feasible. Where allowed, stub streets are limited to 150 feet in length.
3. Mid-block “bubble” cul-de-sacs without throats are allowed.
4. Whenever cul-de-sacs are created, 1 20 foot wide pedestrian access/public utility easement shall be provided between the cul-de-sac head or street turnaround and the sidewalk system of the closest adjacent street or walkway, unless the City Engineer determines that public access in that location is not practicable due to site or topography constraints.

20 ft. wide pedestrian access/public utility easement to closest adjacent street or walkway.

#### 5-3(E)(1)(e) Street Signs and Lights

1. Street name signs and traffic control signs shall be required as specified in the DPM.

<sup>235</sup> Council Amendment S revises this Subsection to limit cul-de-sacs and stub streets to 100 ft. EPC Condition #73 does not recommend adopting Council Amendment S because the existing IDO and DPM requirements are sufficient.

2. Street lights on local streets **are** required to be installed at the applicant's expense **and provided as approved in the Infrastructure Improvements Agreement (IIA).**<sup>236</sup>

#### 5-3(E)(1)(f) Private Ways

Private ways to provide access to subdivision lots shall be created only where public right-of-way would not better serve public purposes and where private ways can adequately serve all identified transportation, utility, and stormwater handling requirements. Private ways shall be subject to the following conditions:

1. Private ways may be platted only where the Development Review Board (DRB) determines that such ways will clearly function as a local street.
2. Private ways providing access to a lot that does not abut a public right-of-way may be platted only when approved by the DRB.
3. The DRB may require private ways to include public or private utility easements, including easements for stormwater drainage.
4. **If a private way is approved, it shall clearly be identified as such on the final plat, which shall also state the beneficiaries and maintenance responsibilities of the private way. Any legal instrument intended to assure future maintenance of such private way, such as an instrument creating a homeowners association, shall be included in the subdivider's submittals to the DRB pursuant to Subsections 14-16-6-6(K) (Subdivision of Land – Minor) and 14-16-6-6(L)6-6(L) (Subdivision of Land – Major).**<sup>237</sup>
5. **All storm drain systems within private ways shall remain private unless they receive water from public facilities and the runoff is drained downstream to another public facility.**<sup>238</sup>

#### 5-3(E)(2) Connections to Adjacent Land

5-3(E)(2)(a) Where land adjacent to the new subdivision has been platted with stub streets, or with a street ending **at a street** between the new subdivision and the adjacent land, the new subdivision streets shall be designed to align with those streets to allow through circulation, **unless deemed impracticable by the DRB due to physical constraints, natural features, or traffic safety concerns.**<sup>239</sup>

5-3(E)(2)(b) **Where adjacent land has not been platted, subdivisions shall be designed with stub street(s) intended as future through connection(s) to adjacent land, provided according to the block lengths in Table 5-4-1, unless deemed impracticable by the DRB**

2. Multi-family residential development on sites greater than 5 acres shall include a minimum of 2 through-access drives, unless deemed impracticable by the DRB due to physical constraints or natural features.

#### 5-3(E)(3)(c) Mixed-use and Non-residential Development

1. Each property shall have no more than 2 access points on any one street unless deemed necessary by the DRB to increase traffic safety or avoid traffic congestion.
2. Driveways shall be located at least the minimum distance from street intersections required by the DPM.

### 5-3(E)(4) Bicycle Facilities along Streets

Each street designated in the Metropolitan Transportation Plan and/or the Bikeways and Trails Facility Plan as an existing or proposed route to accommodate bicycles shall be incorporated into the development to the maximum extent practicable and shall be designed to comply with the standards of the DPM. Public right-of-way and pavement widths for those streets may be increased up to 12 feet on adopted bike routes and lanes by the DRB based on considerations of bicycle, pedestrian, and motor vehicle safety.

<sup>240</sup> Revised per EPC Condition #1 (Tech Edits).

## 5-4 SUBDIVISION OF LAND

### 5-4(A) PURPOSE

This Section 14-16-5-4 is intended to promote the public health, safety, and general welfare of the current and future inhabitants of the City by ensuring that development sites:

- 5-4(A)(1) Are consistent with the land use planning objectives of the adopted ABC Comp Plan, as amended, and other plans, policies, and ordinances adopted by the City Council.
- 5-4(A)(2) Are appropriately sized and shaped to meet the intended use of land consistent with the zoning provisions and Development Standards in this IDO.
- 5-4(A)(3) Accurately document the boundaries of each **lot** in the subdivision.<sup>241</sup>
- 5-4(A)(4) Avoid development of sensitive lands.
- 5-4(A)(5) Are adequately served by a safe street and trail network that is consistent with the City's adopted transportation plans, with convenient access for motor vehicles, bicycles, and pedestrians.
- 5-4(A)(6) Require the timely installation and dedication of public improvements and utilities necessary to serve the development, while providing economy for governmental purposes and efficiency in governmental operations.

### 5-4(B) APPLICABILITY

- 5-4(B)(1) The standards in this Section 14-16-5-4 apply to all subdivisions of land into 2 or more **lots**, building sites, or tracts, or when 2 or more platted lots are consolidated into a larger lot for development or redevelopment, unless expressly exempted elsewhere in this IDO, in a development agreement, an approved Site Plan within the NR-SU or PD zone districts, an approved Framework Plan within the PC zone district, or an approved annexation plan.<sup>242</sup>
- 5-4(B)(2) The subdivision standards apply to all areas within the City unless specifically exempted.
- 5-4(B)(3) Land shall be subdivided only in accordance with the subdivision approval procedures in Subsections 14-16-6-6(K) (Subdivision of Land – Minor) and 14-16-6-6(L) (Subdivision of Land – Major).

### 5-4(C) COMPLIANCE WITH ZONING REQUIREMENTS

- 5-4(C)(2) No land shall be subdivided that is found to be unsuitable for subdividing by reason of flooding, ponding, poor drainage, adverse soil conditions, adverse geological formations, unsatisfactory topography, limitations of water quantity, and/or quality, lack of access or restrictions on accessibility, or other conditions likely to be harmful to the public health, safety, or general welfare, unless such unsuitable conditions are corrected or mitigated to the satisfaction of the city. The Development Review Board (DRB) is responsible for making determinations regarding unsuitability of land for subdivision.
- 5-4(C)(3) The availability of adequate access, fire protection, police protection, refuse service, public schools, public parks and recreation facilities, other elements of public infrastructure or private facilities, and privately provided utilities shall all be weighed in considering proposed subdivisions. In the PC zone district, an approved Framework Plan is required prior to any platting action. Subsequent platting must conform to the approved plans.
- 5-4(C)(7) In the NR-BP zone district, a Master Development Plan is required for lots 20 acres or more prior to platting action. For lots less than 20 acres zoned NR-BP, a Site Plan is required prior to development, but the property may be subdivided before or after a Site Plan is approved. Once a Master Development Plan or Site Plan is approved, subsequent platting must conform to the approved plan.<sup>245</sup>

#### 5-4(D) EXISTING AGREEMENTS AND COVENANTS

Subdivision regulations do not repeal, annul, or in any way interfere with existing private agreements or restrictive covenants applicable to a property. However, subdivision approvals are not required to be consistent with those private agreements or restrictive covenants. Where the standards in this Section 14-16-5-4 impose a different standard than those imposed by a private agreement or restrictive covenants, the standards in this Section 14-16-5-4 shall apply for purposes of City development approval and enforcement. Enforcement of any private agreements or restrictive covenants applicable to a property is the responsibility

<sup>244</sup> Revised for consistent use of the term “lot” per EPC Condition #1 (Tech Edits).

<sup>245</sup> Revised per EPC Condition #1 (Tech Edits).

5-4(K)(1)(a) Streets and other access pursuant to the Metropolitan Transportation Plan and DPM.

5-4(K)(1)(b) Drainage facilities pursuant to the IDO, the DPM, or AMAFCA standards.

5-4(K)(1)(c) Other public facilities required in accordance with the DPM.

**5-4(K)(2) Dedication of Public Areas Designated in Adopted Plans**

If a proposed public area shown on an adopted City or County plan is located in whole or in part in the area being subdivided, an appropriate tract shall be shown as reserved, deed restricted, or dedicated for public use on the plat unless, after a written request from the subdivider, the appropriate governmental body notifies the subdivider that it does not intend to either acquire or accept the lot within 3 years from the date of the inquiry.

**5-4(K)(3) Acceptance of Dedications**

The procedure for accepting dedications of public lands and improvements is specified in Section 14-16-6(K) (Subdivision of Land – Minor) or Section 14-16-6(L) (Subdivision of Land – Major).

**5-4(K)(4) Drainage, Flood Control, or Erosion Control Facilities**

5-4(K)(4)(a) Whenever no beneficial use can be derived by an owner from continued retention of land necessary for permanent drainage, flood control, or erosion control facilities or when the facilities involve a major arroyo, the land required for the operation and

<sup>250</sup> Revised to use defined term added per EPC Condition #1 (Tech Edits).

maintenance of the facilities must be dedicated to AMAFCA or the City.

- 5-4(K)(4)(b) Unless subject to Subsection (a) above, easements for drainage, flood control, and erosion control facilities are acceptable as long as a written agreement between the owner and the City exists that specifies uses allowed on the lands covered by the easement, and as long as no permanent facilities are constructed on those lands (including masonry fences and retaining walls but excluding pavement).
- 5-4(K)(4)(c) Rights-of-way and easements required for drainage, flood control, and erosion control shall conform to the standards in the DPM.

#### **5-4(K)(5) Limits on Dedication**

Easements or Rights-of-Way

- 5-4(K)(6) The DRB may require easements public rights-of-way for public infrastructure or private facilities.

- 5-4(K)(8)(a) **Pursuant to the DPM, public water and/or sanitary sewer easements can not be split by a lot line; such an easement must be contained entirely within a single lot.**
- 5-4(K)(8)(b) **Public water and/or sanitary sewer easements shall not be placed along any side lot line.**
- 5-4(K)(8)(c) **Public water and/or sanitary sewer easements shall be located to allow for proper maintenance and operation.**
- 5-4(K)(9) Development adjacent to electric utility easements and/or distribution facilities must comply with safety clearance requirements in Section 14-16-5-4(I)(4) (Safety Clearances from Buildings and Other Structures).

<sup>251</sup> Revised per EPC Condition #1 (Tech Edits).

5-4(K)(10) Easements may be jointly used for private facilities with approval from the DRB as specified in the DPM and in Subsection 14-16-6-6(K) (Subdivision of Land – Minor) or Subsection 14-16-6-6(L)6-6(L) (Subdivision of Land – Major).

5-4(K)(11) Public rights-of-way and easements shall conform to the standards in the DPM.

**5-4(L) MONUMENTATION**

All subdivisions shall provide monumentation of survey points as required by the DPM.

**5-4(M) IMPROVEMENTS REQUIRED**

5-4(M)(1) The subdivider shall install and construct all improvements required by this Subsection 14-16-5-4(M) and the DPM. Required improvements shall be installed and constructed as shown on the approved preliminary plat and as specified in an Infrastructure Improvements Agreement (IIA) between the subdivider and the City. The City may accept commitments to provide improvements or services by the County and/or by franchised and/or private utility systems where the DRB determines that acceptance of such commitments will result in timely provisions of required improvements or services needed to serve the subdivision imposing burdens on surrounding properties or the city as a whole and will adequately protect the public health, safety, and welfare.

5-4(M)(2) Construction of some or all infrastructure may be waived by the DRB for Bulk Land Subdivisions pursuant to Subsection 14-16-6-6(L)(2)(a) (Deviations and Waivers) where further subdivision or Site Plan approval is required or expected, and a commitment to provide the waived infrastructure can be included in that future subdivision or Site Plan approval.

**5-4(N) INFRASTRUCTURE IMPROVEMENTS AGREEMENT**

Upon approval of a plat and/or Site Plan and prior to recording, the subdivider shall execute an IIA to guarantee completion of required improvements. The format and required contents of the IIA shall comply with Subsections 14-16-6-6(K) (Subdivision of Land – Minor) and 14-16-6-6(L)6-6(L) (Subdivision of Land – Major), as applicable, and the DPM.

**5-4(O) ADDITIONAL DESIGN CRITERIA AND CONSTRUCTION STANDARDS**

In addition to the standards set forth in this Section 14-16-5-4, the City shall maintain technical standards for infrastructure improvements in the DPM. Such technical standards for infrastructure improvements shall contain the minimum acceptable design criteria and specifications for the construction of such improvements. Such technical standards may be updated periodically and may vary for improvements based on the classification of streets or other improvements and the extent and characteristics of the area to be served by the improvements. All subdivisions shall comply with additional design criteria and construction standards applicable to the proposed development.

## 5-5 PARKING AND LOADING

### 5-5(A) PURPOSE

This Section 14-16-5-5 is intended to ensure that development provides adequate off-street parking spaces for all modes of transport by establishing standards and requirements that minimize traffic congestion, avoid increased parking on neighborhood streets, allow flexibility in addressing parking demand, and improve the visual appeal of the city by regulating the placement, layout, and design of parking areas, parking structures, and garages.

### 5-5(B) APPLICABILITY

Unless modified elsewhere in this IDO, the requirements of this Section 14-16-5-5 shall apply to all uses and development in any zone district. No final development approval or building permit shall be issued unless the parking requirements of this section are met or modified in accordance with the applicable parking requirements of this IDO.

#### 5-5(B)(1) Activities that Trigger Parking Requirements

The following activities shall require compliance with the standards in this Section 14-16-5-5.

- 5-5(B)(1)(a) Construction of a new primary building.
- 5-5(B)(1)(b) Expansion of the gross floor area of an existing primary building by more than 25 percent or 2,500 square feet, whichever is less, from the square footage originally approved, in which case the provisions of Table 5-5-1 and Table 5-5-2 shall apply to the expanded gross floor area of the building. All relevant standards in this Section 14-16-5-5 shall apply to any new parking added to conform with this provision and to any portions of the site affected by the expansion.
- 5-5(B)(1)(c) A change in use of a primary building that complies with the requirements of Table 5-5-1 and Table 5-5-2 before the change in use, and that increases the minimum off-street parking requirements for the building by more than 25 percent. Changes in use that result in a smaller increase in off-street parking spaces shall not be required to provide additional parking.
- 5-5(B)(1)(d) A change in use associated with a tenant improvement or renovation of a primary building that does not comply with the requirements of Table 5-5-1 and Table 5-5-2 prior to the change in use, provided that any of the following conditions apply:
  1. The maximum number of parking spaces possible is provided in compliance with the standards of Subsection 14-16-5-5(F) (Parking Location and Design) without the removal or partial removal of a structure or required landscaping.
  2. Any area resulting from the voluntary removal or partial removal of a structure shall be used to provide additional parking toward fulfilling the required number of off-street parking spaces for the new use(s) required by Table 5-5-1 and Table 5-5-2 as adjusted by Section 14-16-5-5(C)(4) (Parking Adjustments and Credits).

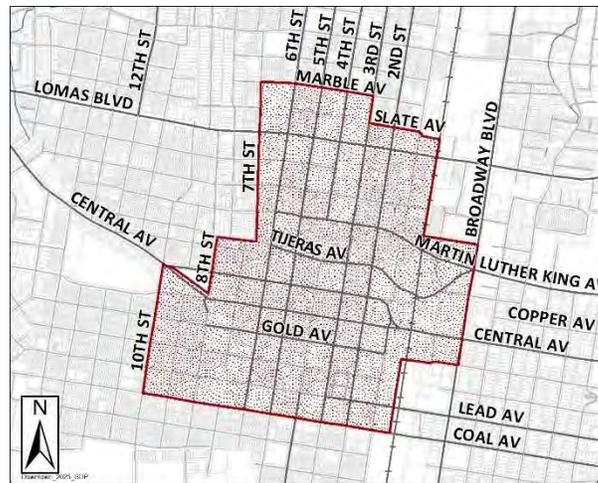

3. The amount of parking available for the new use is at least 80 percent of the off-street parking spaces for the new use(s) required by Table 5-5-1 and Table 5-5-2, as adjusted by Section 14-16-5-5(C)(4) (Parking Adjustments and Credits).

## 5-5(B)(2) Exemptions and Reductions

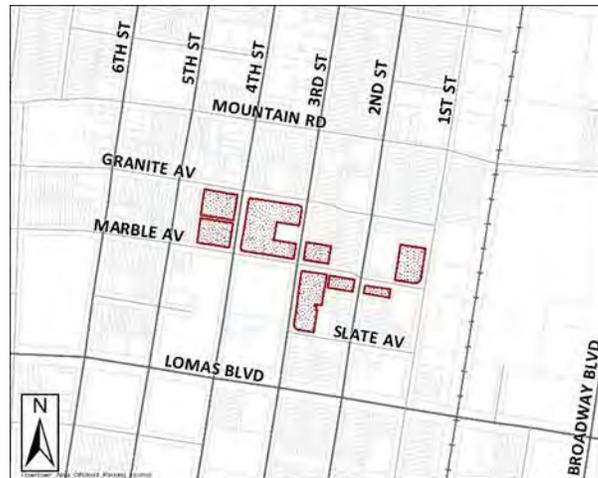

### 5-5(B)(2)(a) Off-Street Parking Exemption

The following areas are exempt from requirements in Subsections 14-16-2-4(E)(3)(g)1 (Minimum Parking Requirements in MX-FB), 14-16-5-5(C) (Off-street Parking), and 14-16-5-5(D) (Motorcycle Parking), except those required to satisfy the Americans with Disabilities Act. If parking is provided where it is otherwise exempt pursuant to this Subsection 14-16-5-5(B)(2), parking standards in the remainder of this Section 14-16-5-5 shall apply.

1. Downtown Area<sup>252</sup>

2. McClellan Park Area

3. Old Town – HPO-5

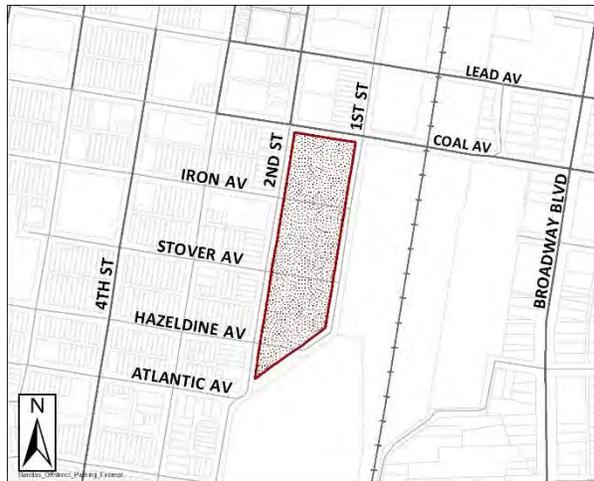

<sup>252</sup> EPC Condition #1 (Tech Edits) recommended changing this to Downtown Center for consistency with the Downtown Center, which was converted to MX-FB zones, and to remove certain areas in neighborhoods surrounding downtown from the parking exemption. EPC Condition #23 recommended striking that Tech Edit, so no change has been made in this draft.

**5-5(B)(2)(b) Pre-1965 Buildings**

Primary buildings constructed prior to 1965 do not have to meet minimum off-street parking requirements, except those required to satisfy the Americans with Disabilities Act, if the primary building is expanded by less than 200 square feet and the number of existing parking spaces on the lot is not reduced.<sup>253</sup>

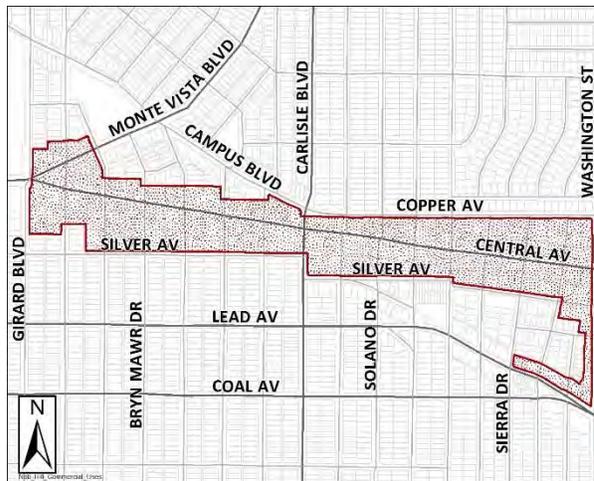

**5-5(B)(2)(c) Barelás Area**

The minimum off-street parking requirement in the following mapped area in Barelás is 50 percent of any requirement in Table 5-5-1. No additional parking adjustments or credits are allowed.

**5-5(B)(2)(d) Nob Hill Area**

Non-residential uses other than restaurants, bars, and nightclubs in establishments of less than 3,000 square feet in the following mapped area do not have to meet minimum off-street parking requirements, except those required to satisfy the Americans with Disabilities Act.

<sup>253</sup> Revised for consistent use of the term “lot” instead of “parcel” per EPC Condition #1 (Tech Edits).

**5-5(B)(3) Existing Parking**

Off-street parking or loading spaces provided prior to the effective date of this IDO shall not be reduced or reconfigured in any way that would bring the property or use out of compliance with this Section 14-16-5-5 or would increase the degree of any existing nonconformity with the provisions of this Section 14-16-5-5.

**5-5(C) OFF-STREET PARKING****5-5(C)(1) Calculation**

Off-street parking spaces used to comply with the requirements of this Section 14-16-5-5 shall be calculated as follows:

5-5(C)(1)(a) Parking requirements in Table 5-5-1 are calculated as ratios to be multiplied by the gross floor area or design capacity of the use.

5-5(C)(1)(b) The required minimum off-street parking may be adjusted pursuant to Subsection 14-16-5-5(C)(5) (Parking Reductions).<sup>254</sup>

5-5(C)(1)(c) When a calculation of required parking spaces results in a fraction of a space, the number of required parking spaces shall be rounded down to the nearest whole number.

5-5(C)(1)(d) No space used for a required loading or stacking space may be used to satisfy minimum off-street parking requirements.

5-5(C)(1)(e) No space used for shopping corrals or for other uses that make the space unavailable for vehicle parking may be used to satisfy minimum off-street parking requirements.

**5-5(C)(2) Minimum Off-street Parking Table**

Unless specified otherwise in this IDO or modified by Sections 14-16-5-5(C)(3) (Amenity, Recreation, and Entertainment Uses) and 14-16-5-5(C)(5) (Parking Reductions), off-street parking spaces shall be provided in accordance with Table 5-5-1. For unlisted uses, required parking is determined by Planning Director per Section 14-16-5-5(C)(4). If a conditional use is approved pursuant to Subsection 14-16-6-6(A) and the approval states a different parking requirement, then the parking requirement in the Conditional Use Approval shall apply. See also Subsection 14-16-5-5(C)(7) (Parking Maximums).

**5-5(C)(3) Amenity, Recreation, and Entertainment Uses**

Uses in Table 5-5-1 that reference Table 5-5-2 shall provide the minimum number of off-street parking spaces listed in Table 5-5-2 below. If a site includes more than one use listed in Table 5-5-1, the Planning Director may authorize a reduction in the combined parking requirements for the individual uses based on anticipated joint use of facilities as determined by the Planning Director.

Unlisted Uses	As determined by Planning Director per Section 14-16-5-5(C)(4)

**5-5(C)(4) Unlisted Uses**

For any use not expressly listed in Table 5-5-1 and Table 5-5-2, the Planning Director is authorized to do any of the following:

- 5-5(C)(4)(a) Apply the minimum off-street parking space requirement specified in Subsection 14-16-5-5(C) (Off-street Parking) for the listed use that the Planning Director determines is most similar to the proposed use.
- 5-5(C)(4)(b) Establish the minimum off-street parking space requirement by reference to standard parking resources published by the National Parking Association, the American Planning Association, or another recognized parking reference resource.
- 5-5(C)(4)(c) Establish the minimum off-street parking space requirement based on local or national best practices.
- 5-5(C)(4)(d) Establish the minimum off-street parking space requirement based on a parking demand study prepared by the applicant that estimates parking demand based on information provided by the of the National Parking Association, the American Planning Association, or another recognized parking reference resource,

and/or the Institute of Transportation Engineers or another recognized traffic reference resource.

### 5-5(C)(5) Parking Reductions<sup>256</sup>

The minimum amounts of off-street automobile parking required by Table 5-5-1 and Table 5-5-2 above shall be adjusted by the factors in this Subsection 14-16-5-5(C)(5). These factors may be applied individually or in combination, **with each reduction being calculated from the requirement in Table Table 5-5-1 and Table 5-5-2.**<sup>257</sup> The cumulative reduction shall not exceed 50 percent of the off-street parking spaces required by Table 5-5-1 and Table 5-5-2 unless the applicant satisfies the requirements of Subsections 14-16-5-5(C)(5)(d) (Public Parking Reduction) or 14-16-5-5(C)(5)(e) (Parking Study Reduction).

#### 5-5(C)(5)(a) General Reductions for Centers and Corridor Areas<sup>258</sup>

In UC-AC-EC-MS areas or in MT areas in Areas of Change, where Table 5-5-1 and Table 5-5-2 do not indicate a different parking requirement for the relevant Center or Corridor area, a 20 percent reduction in required off-street parking spaces shall apply to properties in those areas.

#### 5-5(C)(5)(b) Shared Parking Reduction

1. Two (2) or more uses listed in Table 4-2-1 may share one or more parking structures or parking lots located pursuant to Subsection 14-16-5-5(F)(1)(a)11. **The sharing of any required parking shall be guaranteed by a legally binding agreement between the owner of the parking area and the owner of the building or use that is located on a different lot and served by the parking area. Such agreement shall address the issue of how parking will be shared if the parties change their operating hours and peak business periods.**<sup>259</sup>
2. The total off-street parking requirement for those uses may be reduced by the factors shown in Table 5-5-3. Off-street parking required shall be the sum of the 2 parking requirements for the 2 uses divided by the factors for that combination of uses. If more than 2 uses share a parking lot or structure, the required parking shall be calculated by applying Table 5-5-3 to the 2 uses with the largest parking requirements and then adding the required parking for the additional uses.

*Example:*

Proposed project in a Main Street area includes 40 2-bedroom dwelling units, 15,000 square feet of gross floor area for retail, and 2,500 square feet of gross floor area for a child day care facility.

<sup>256</sup> Revisions throughout this subsection per EPC Condition #1 (Tech Edits) and associated Exhibit to clarify the difference between reductions and credits.

<sup>257</sup> Revised per EPC Condition #1 (Tech Edits) to clarify what to calculate parking reductions from.

<sup>258</sup> Revised per EPC Condition #1 (Tech Edits) and EPC Condition #24.a.

<sup>259</sup> Revised per EPC Condition #1 (Tech Edits) and associated Exhibit.

**Step 1:** Identify basic parking requirements from Table 5-5-1.

$(40 \text{ dwelling units}) * (1 \text{ spaces per DU}) = 40 \text{ spaces.}$

$(15,000 \text{ sq. ft.}) * (2.5 \text{ spaces per } 1,000 \text{ sq. ft.}) = 37.5 \text{ spaces;}$   
rounded to 37.

$(2,500 \text{ sq. ft.}) * (1 \text{ space per } 600 \text{ sq. ft.}) = 4.17 \text{ spaces;}$   
rounded to 4.

**Step 2:** Add the 2 largest parking requirements.

$40 \text{ (multi-family)} + 37 \text{ (retail)} = 77 \text{ spaces.}$

**Step 3:** Divide by the appropriate factor in Table 5-5-3.

For multi-family residential and retail the factor is 1.2.

$77 / 1.2 = 64.17 \text{ spaces; rounded to } 64.$

**Step 4:** Add other parking requirements without adjustment:

$64 + 4 = 68 \text{ spaces, final adjusted parking requirement.}$

Use	Multi-family Residential	Civic or Institutional	Food, Beverage, and Indoor Entertainment or Lodging	Retail	Other Non-residential
Multi-family Residential	1.0				
Civic or Institutional	1.1	1.0			
Food, Beverage, and Indoor Entertainment or Lodging	1.1	1.2	1.0		
Retail	1.2	1.3	1.3	1.0	
Other Non-residential	1.3	1.5	1.7	1.2	1.0

**5-5(C)(5)(c) Reduction for Proximity to Transit<sup>260</sup>**

1. The minimum number of off-street parking spaces required may be reduced by 30 percent if the proposed development is located within 1,320 feet **in any direction** of any transit stop or transit station with a peak service frequency of 15 minutes or better.<sup>261</sup>
2. **Where Table 5-5-1 and Table 5-5-2 do not indicate a different parking requirement for PT areas,** the minimum number of off-street parking spaces required may be reduced by 50 percent if the proposed development is located within a PT area.<sup>262</sup>
3. The minimum number of off-street parking spaces required for new development or redevelopment may be reduced by 5 percent for projects that include, at the applicant's expense,

<sup>260</sup> Council Amendment T recommends broadening general transit parking reductions. EPC Condition #74 does not recommend adopting Council Amendment T.

<sup>262</sup> Revised per EPC Condition #1 (Tech Edits).

transit rider shelters of a type and location acceptable to the City regardless of service frequency.

4. No development approved with any of these parking reductions shall be considered nonconforming if the transit line, station, or stop is later relocated or if peak service frequency decreases, resulting in a number of parking spaces that does not meet the minimum requirements that would apply without the Proximity to Transit reduction.

#### **5-5(C)(5)(d) Public Parking Reduction<sup>263</sup>**

The Planning Director may approve a reduction or elimination of parking requirements if any of the following conditions applies:

1. The development is within and participates in a public parking district in which individual property owners jointly provide shared parking for an area of the city exceeding 5 acres in size.
2. The applicant can demonstrate that adequate spaces are available in a nearby public parking lot or structure, and that the reduction or elimination of parking requirements will not result in traffic congestion or on-street parking in any nearby Residential zone district. For the purposes of this provision, on-street parking spaces shall be considered nearby public parking spaces.

#### **5-5(C)(5)(e) Parking Study Reduction<sup>264</sup>**

The Planning Director may approve a reduction of parking requirements if the applicant provides a parking needs study, prepared by a consultant with expertise in that area recognized by the City, and using parking generation assumptions acceptable to the City, demonstrates that off-street parking at a rate lower than that otherwise required by this Section 14-16-5-5, will adequately accommodate all anticipated demand for off-street parking and will not result in either traffic congestion or parking congestion in surrounding neighborhoods, and the Planning Director determines that the parking study provides a more accurate measure of parking needs for the site than application of the standards in this Section 14-16-5-5 that would otherwise apply.

### **5-5(C)(6) Parking Credits<sup>265</sup>**

#### **5-5(C)(6)(a) Electric Vehicle Charging Station Credit**

Each off-street electric vehicle charging station with a rating of 240 volts or higher shall count as 2 vehicle parking spaces toward satisfaction of minimum off-street parking requirements.

1. Any on-street parking space abutting the subject property may be counted as 1 required off-street parking space if the street does not have residential parking permit restrictions.
2. Each on-street parking space may only be counted once toward the parking requirements of the abutting lot, regardless of the number of individual buildings or tenants on the lot.
3. No development or use approved with an on-street parking credit shall be considered nonconforming if the on-street parking is later removed by City action and the remaining off-street parking does not meet the minimum off-street parking requirements of this Section 14-16-5-5.
4. On-street parking spaces credited for a specific use shall not be reserved for the exclusive use by customers, employees, or occupants of that use, but shall be available for general public use at all times. No signage or actions limiting general public use of on-street spaces shall be allowed.

**5-5(C)(6)(e) Off-site Parking Credit<sup>267</sup>**

1. The provision of required parking at an off-site parking area may be counted toward required off-street parking spaces on a 1-for-1 basis and is allowed for 100 percent of the required parking spaces, except that those required to satisfy the Americans with Disabilities Act shall be provided on the site of the building or use.<sup>268</sup>
2. Off-site parking must meet the location standards in Subsection 14-16-5-5(F)(1)(a)11 and shall be guaranteed by a legally binding agreement between the owner of the parking area and the owner of the building or use that is located on a different lot and served by the parking area.

## 5-6 LANDSCAPING, BUFFERING, AND SCREENING

### 5-6(A) PURPOSE

This Section 14-16-5-6 regulates landscaping to ensure visually attractive, sustainable desert landscapes that aid in the creation of a quality public realm. The City recognizes landscape as a visual component to quality environments that enhance Albuquerque's overall appearance and provide other public benefit through:

- 5-6(A)(1) Providing visual relief from urbanization.
- 5-6(A)(2) Establishing a consistent, attractive streetscape that generates a sense of continuity and a strong, positive City image.
- 5-6(A)(3) Improving the aesthetic appearance of commercial, industrial, and multi-family residential development to protect and enhance public and private investments and property values.
- 5-6(A)(4) Ensuring the use of native and/or adapted, low water-use, or xeric species and regionally appropriate, sustainable design and maintenance techniques to conserve water resources.
- 5-6(A)(5) Contributing to the processes of air purification, oxygen regeneration, groundwater recharge, and stormwater runoff retention. Landscape should be designed to retain soil moisture, prevent erosion, encourage the growth of abutting plantings, and mitigate urban heat-island effects, while aiding in the abatement of air and water pollution, dust, noise, heat, and glare.
- 5-6(A)(6) Providing screening of some types of facilities, structures, and equipment.
- 5-6(A)(7) Providing shade and comfort for pedestrians and visually narrowing streets, which has been shown to reduce vehicle speeding and accidents.

### 5-6(B) APPLICABILITY

The provisions of this Section 14-16-5-6 shall apply to all of the following, unless exempted by another portion of this IDO:

- 5-6(B)(1) Construction of a new building containing multi-family, mixed-use, or non-residential development or an accessory parking structure.
- 5-6(B)(2) Construction of a new parking lot containing 25 or more spaces, or expansion of an existing parking lot by 25 spaces or more.
- 5-6(B)(3) Expansion of the gross floor area of an existing building containing multi-family, mixed-use, or non-residential development by 2,500 square feet or more, or 25 percent or more, whichever is less.
- 5-6(B)(4) Renovation or redevelopment of an existing building containing multi-family, mixed-use, or non-residential development, including but not limited to reconstruction after fire, flood, or other damage, where the value of the renovation or redevelopment, indicated by building permits, is \$500,000 or more.
- 5-6(B)(5) In the case of walls provided for buffering or screening requirements with conflicting standards in this Section 14-16-5-6, Section 14-16-5-5 (Parking and

Loading), and Section 14-16-5-9 (Neighborhood Edges), the highest specified wall height allowance prevails.

- 5-6(B)(6) Requirements for walls provided to meet buffering and screening requirements prevail over maximum wall height regulations in this Section 14-16-5-7 (Walls and Fences), but shall be subject to any other applicable material and design requirements in Subsection 14-16-5-7(E).

**5-6(C) GENERAL LANDSCAPING STANDARDS**

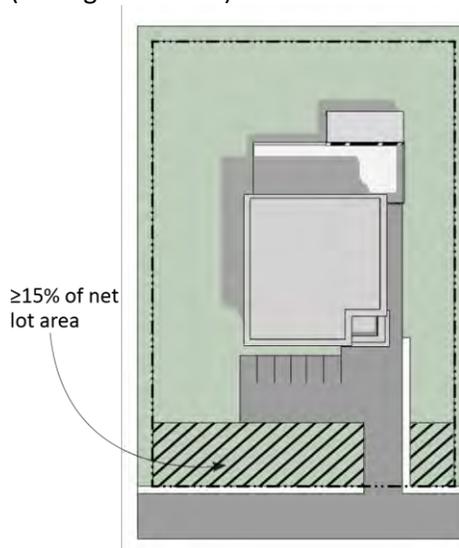

The following standards apply to all landscaping, screening, or buffering required by this Section 14-16-5-6.

**5-6(C)(1) Landscape Plan Required**

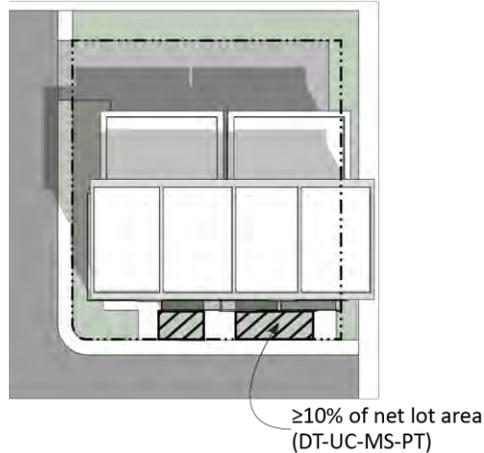

A landscape plan with designed landscaped areas shall be submitted as a part of all development applications where landscaping, buffering, or screening is required, unless the relevant decision-making body determines that compliance with the provisions of this Section 14-16-5-6 can be demonstrated without the use of a landscape plan. A landscape plan may be combined with other required application materials if compliance with this Section 14-16-5-6 can be demonstrated in the combined materials.

**5-6(C)(2) Minimum Landscape Area**

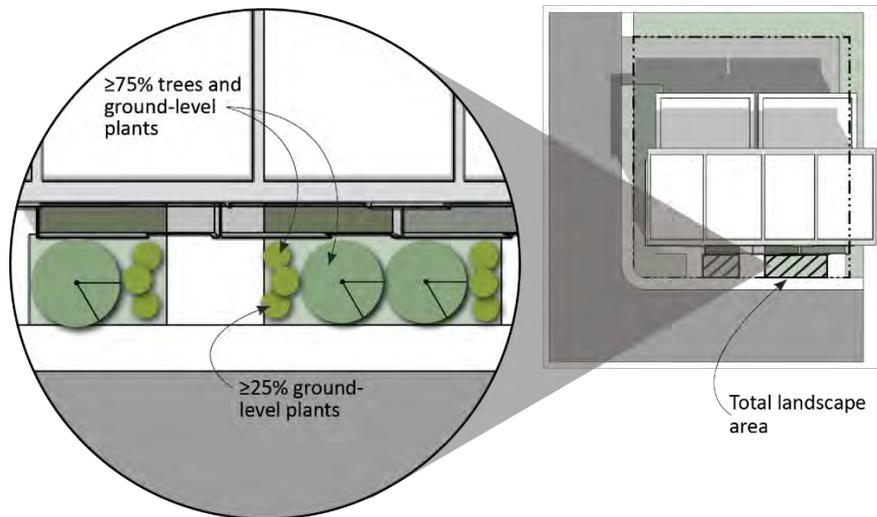

- 5-6(C)(2)(a) Except as noted in Subsection (b) below, a minimum of 15 percent of the net lot area of each development shall contain landscaping. (See figure below.)

- 5-6(C)(2)(b) In DT-UC-MS-PT areas, a minimum of 10 percent of the net lot area of each development shall contain landscaping. In these areas, landscaping required to meet this requirement need not be at ground level. (See figure below.)

- 5-6(C)(2)(c) The mature realistic spread of trees and shrubs will be used to calculate required vegetative coverage as follows:
1. Tree canopies and ground-level plants shall cover a minimum of 75 percent of the total landscape area as measured by canopy width or the area beneath the dripline of the mature size of the actual vegetation. (See figure below.)
  2. Of the required vegetative coverage, a minimum of 25 percent shall be provided as ground-level plants (shrubs, grasses, etc.) as measured of the mature size of the actual vegetation. (See figure below.)

- 5-6(C)(2)(d) See also Subsections 14-16-5-6(D) (Street Frontage Landscaping), 14-16-5-6(E) (Edge Buffer Landscaping), and 14-16-5-6(F) (Parking Lot Landscaping) for additional landscaping requirements.

### 5-6(C)(3) Overlapping Requirements

### 5-6(F)(2)(d) Location and Dimension of Landscaped Areas<sup>309</sup>

1. The minimum size of tree planters within off-street parking areas shall be 60 square feet per tree. This requirement may be reduced to 36 square feet if the surface of a parking or vehicle circulation area abutting the tree planter is of a permeable material and, combined with the tree planter area, meets the 60 square foot per tree requirement.

**5-7(E)(4) Walls Adjacent to Major Arroyos or Major Public Open Space**

All walls other than retaining walls adjacent to a major arroyo or any Major Public Open Space must comply with the following standards, in addition to all other applicable standards in this Section 14-16-5-7. If any of the following standards conflict with another wall standard in this IDO, the standard in this Subsection 14-16-5-7(E)(4) shall prevail.

5-7(E)(4)(a) In any zone district adjacent to Major Public Open Space and in any Mixed-use or Non-residential zone district adjacent to arroyos, only the following wall types are allowed on the sides of the lot facing the Major Public Open Space or arroyo:

1. View fencing of at most 50 percent opacity constructed of wood, painted or coated pipe, wrought iron, or smooth wire pasture fence material. Where allowed, chain-link fencing

shall be accompanied by a vegetative screen with a mature height at least as tall as the fence and with at most 75 percent opacity, planted on the public side of the fence but within the lot line containing the proposed development.

2. Opaque walls of 4 feet or less, combined with view fencing as described in Subsection 1 above, with a combined height not to exceed the maximum wall height in Table 5-7-1.
3. Where allowed, opaque walls shall be constructed of wood, stucco over CMU blocks, stained concrete block, stone, split-faced or fluted block, or adobe. Exposed CMU block walls are prohibited. This middle range of reflectance is intended to avoid very light and very dark colors.

5-7(E)(4)(b) Where walls are allowed to be higher than 4 feet pursuant to Table 5-7-1, the following standards apply:

1. Opaque walls over 4 feet in height are allowed adjacent to arroyos only in any Residential zone district.
2. Opaque walls may be no more than 4 feet tall, combined with 1 of the fencing types described in Subsection (a)1 above, with a combined height not to exceed the maximum wall height in Table 5-7-1.
3. Each wall over 4 feet tall shall include a horizontal offset of at least 16 inches every 100 feet.

5-7(E)(4)(c) On lots adjacent to the Petroglyph National Monument, perimeter walls abutting the Petroglyph National Monument shall be view fencing, such as post and wire, with a maximum of 10 percent opacity.

1. In any zone district, 1 screening wall with higher than 10 percent opacity may be constructed parallel to the lot line abutting the Petroglyph National Monument, subject to the following requirements:
  - a. The wall is not located within the minimum building setbacks required by the zone district.
  - b. The wall is no more than 20 feet long or up to 50 percent of the lot width, whichever is less.
  - c. Wall materials shall be the same as or complement the primary building and shall be constructed of earth tone materials with an LRV ranging from 20 percent to 50 percent. This middle range of reflectance is intended to avoid very light and very dark colors.
2. In any Residential zone district, on lots greater than 10,000 square feet, courtyard walls with higher than 10 percent opacity are allowed to be constructed parallel to the lot line

abutting the Petroglyph National Monument that meet the following requirements:

- a. Walls forming the courtyard are attached to the primary building.
  - b. Walls are not located within the minimum setbacks required by the zone district.
  - c. Wall materials shall be the same or complement the primary building and shall be constructed of earth-tone materials an LRV ranging from 20 percent to 50 percent. This middle range of reflectance is intended to avoid very light and very dark colors.

3. For single-family and two-family dwellings abutting a trail on the Petroglyph National Monument, an opaque perimeter wall is allowed but may only be constructed of stucco over CMU blocks, coyote fencing, or stone per height requirements in Subsection 14-16-5-7(D) (Maximum Wall Height).

## 5-7(F) RETAINING WALL STANDARDS

### 5-7(F)(1) Maximum Height

- 5-7(F)(1)(a) Retaining walls shall have a maximum height as specified in Section 14-16-5-7(D) (Maximum Wall Height) unless a higher wall is approved by the City Engineer as necessary on a particular lot.
- 5-7(F)(1)(b) Retaining walls higher than 6 feet tall shall be terraced to minimize visual impacts on residents, neighboring properties, and the public realm. Terracing shall be limited to 3 tiers.

### 5-7(F)(2) Terracing

- 5-7(F)(2)(a) A terrace at least 4 feet wide, with a maximum slope of 1:3 (rise:run), shall be provided between each tier to create pockets for landscaping. Reduced terrace depths may be administratively approved by the City Engineer where site constraints limit the amount of space available to accommodate the minimum required width.
- 5-7(F)(2)(b) Terraces between retaining wall tiers shall be vegetated with permanent landscaping to screen retaining walls and provide visual interest unless soil conditions are determined by a licensed engineer to be unsuitable due to geologic hazards.

### 5-7(F)(3) Setback

Retaining walls must be set back so that the underground footing does not encroach on any abutting public right-of-way.

5-8 OUTDOOR LIGHTING<sup>324</sup>

**5-8(A) PURPOSE**

This Section 14-16-5-8 is intended to enhance the attractiveness and livability of the city, protect the safety of its residents, reduce light pollution between private properties, and prevent unnecessary sky glow that reduces visibility of stars in the night sky.

26-30	23
31-35	25
36 or more	26

5-10(C)(2) The ZEO shall waive or adjust the provisions of Subsection (1) above if the ZEO finds that beneficial solar access can be protected for a lot to the north without compliance with the provisions of Subsection (1) because:

5-10(C)(2)(a) The lot(s) to the north are large enough or higher in elevation than the lot to the south, so that there are many good locations for passive or active solar collector that would not be blocked by proposed construction that does not comply with the height restrictions of Subsection (1) above.

5-10(C)(2)(b) The development on the lot(s) to the north is already served by as much solar collector area as is likely to ever be needed for that lot, and solar access to those collector surfaces will not be impaired by the proposed construction.

<sup>334</sup> Revised per EPC Condition #1 (Tech Edits).

<sup>335</sup> Added per EPC Condition #1 (Tech Edits).

<sup>336</sup> Revised per EPC Condition #1 (Tech Edits).

5-10(C)(2)(c) The owner or builder proposing the height limit waiver has demonstrated that there will clearly not be a primary building on the lot to the north within 35 feet north of the proposed building.

**5-10(D) PERMITS FOR SOLAR RIGHTS**

Permits to protect solar rights may be requested pursuant to Part 14-11-7 of ROA 1994 (Permits for Solar Rights) and any relevant standards in the DPM.

**1. Applicability**

The following additional regulations apply to:

- a. Signs on all lots that abut or have direct frontage to Central Avenue.
- b. Signs on all lots located within 300 feet of the edge of the public right-of-way of Central Avenue.

- b. Location  
The sign shall not obscure portions of a building that contribute to architectural character, including but not limited to doors and windows.
- c. Lighting Technology  
Signage that uses LED tubing or a similar alternative and has the appearance of neon is allowed if it produces a continuous lit appearance similar to neon lighting technology, and does not create darker and/or shadowy spaces between individual LEDs that make the linear, illuminated image appear non-continuous. Incandescent bulbs, another historic sign illumination type, or compact fluorescent bulbs that appear to be incandescent bulbs shall comprise no more than 50 percent of the sign face area.

1. If the appeal is not directly remanded, the LUHO shall forward the recommendation and findings and a transcription of the LUHO's public hearing to City Council within 15 calendar days after the close of the hearing.
2. The City Council shall place the matter on the agenda of the next regular City Council meeting at which land use, planning, and zoning matters are heard following its receipt of the LUHO's recommendation, provided that there is a period of at least 10 calendar days between the receipt of the recommendation and the City Council meeting. The parties may submit written comments to the City Council regarding the LUHO's recommendation and findings provided that such comments are received by the Clerk of the City Council and all other parties of record no later than 4 calendar days prior to the City Council meeting.
3. At that meeting, the City Council shall vote whether to accept or reject LUHO's recommendation and findings. A motion to

accept or reject the LUHO's recommendation and findings must be approved by a majority vote of the entire membership of the City Council.

4. The City Council may accept a portion of the LUHO's recommendation and findings and reject the remainder. If the LUHO's recommendation is rejected in whole or in part, or if the City Council fails to either accept or reject the recommendation, the City Council may take 1 of the following actions:
  - a. Remand the matter for reconsideration or further review by a lower decision-making body if necessary to clarify or supplement the record, or if remand would more expeditiously dispose of the matter.
  - b. Make a final determination on the appeal and adopt findings in support of its determination based only on the record without any additional hearings.
  - c. If the City Council determines that it cannot properly dispose of the appeal without additional hearings on the matter, schedule a full hearing on the matter no earlier than the next regular meeting at which land use matters are heard.
5. If the matter is scheduled for a hearing before the City Council, the Clerk of the City Council shall notify the parties to the appeal. The parties may present oral argument at the hearing pursuant to hearing procedures as established by rule of the City Council. However, the City Council shall not accept new evidence and shall make its final decision based solely on the evidence in the record at the close of the LUHO's hearing and the oral arguments of the parties. **A vote of the City Council to reverse a lower decision must be approved by a majority of the entire membership of the City Council.**<sup>449</sup>
6. If the City Council conducts a public hearing on the appeal, the City Council shall adopt written findings at the conclusion of that hearing or at the next scheduled meeting of the City Council; however, a Councilor who did not participate in the action taken on the appeal may not participate in the action to adopt the findings at a subsequent meeting.

#### **6-4(U)(4) Criteria for Decision**

The criteria for review of an appeal shall be whether the decision-making body or the prior appeal body made 1 of the following mistakes:

<sup>449</sup> Revised per EPC Condition #1 (Tech Edits).

- 6-4(U)(4)(b) The decision being appealed is not supported by substantial evidence.

**6-4(W)(3) Exceptions to Period of Validity**

6-4(W)(3)(a) If the type and amount of development on the project site meets the following thresholds, as applicable for the type of Site Plan or Master Development Plan approved, the approved plan will not expire.

1. Site Plan – Administrative  
If the Site Plan was approved for land on which on-site infrastructure did not exist at the time of approval, then at least 50 percent of the site area or 50 percent of the approved gross floor area has been developed.
2. Site Plan – DRB, Site Plan – EPC, or Master Development Plan
  - a. If the Site Plan or Master Development Plan was approved for land on which on-site infrastructure did not exist at the time of approval, then at least 75 percent of the required on-site drainage infrastructure for the property, or if the Plan defines more than one phase of development, then for the first defined phase, has been installed.
  - b. If the Site Plan or Master Development Plan was approved for land on which at least 75 percent of required on-site drainage infrastructure was in place at the time of approval, then at least 25 percent of the approved gross floor area for primary buildings on the property, or if the Plan defines more than one phase of development, then for the first defined phase, has been constructed.

6-4(W)(3)(b) Any permit or approval of a type listed in Table 6-4-3 that was approved by the City before the effective date of this IDO, shall expire on one of the following dates, whichever occurs sooner:

1. The date listed in that permit or approval or in any regulation of the City establishing an expiration of the permit or approval that was applicable before the effective date of this IDO.

<sup>458</sup> New application type per EPC Condition #1 (Tech Edits). Used distances associated with ZMA as the most similar approval type.

2. The date on which that type of permit or approval would expire if it were approved by the City on the effective date of this IDO.

#### **6-4(W)(4) Extensions of Period of Validity**

##### **6-4(W)(4)(a) General Provisions**

1. For each permit or approval for which Table 6-4-3 shows an expiration period, except an impact fee assessment or a Site Plan, the original decision-making body may approve 1 extension of validity for good cause shown for a time not to exceed the original period of validity for that permit or approval, provided that all of the following requirements are met:
  - a. The applicant or property owner submits a written request for the time extension before the expiration of the original permit or approval with the Planning Director.
  - b. The extension is considered and a decision made **by the same decision-making body as the initial approval**, except that no public meeting or hearing shall be required, **if one would have been required for the initial approval.**<sup>459</sup>
2. If an application to extend the validity of a permit or approval listed in Table 6-4-3 is received before the permit or approval expires, but the decision-making body authorized to grant an extension does not meet between the date of the application and the date on which the permit or approval expires, the period of validity shall automatically be extended until the next meeting date of the body authorized to grant an extension.
3. Impact fee assessments and any Permit – Sign for an electronic sign may not be extended.

##### **6-4(W)(4)(b) Additional Provisions for Extensions of Approved Site Plans**

1. The decision-making body that originally approved the Site Plan may grant 1 extension of validity for a time not to exceed the original period of validity if it determines that at least 1 of the following provisions applies:
  - a. The Site Plan is still consistent with current or desired conditions on the property and surrounding areas and the owner intends to fully develop the site according to the Site Plan.
  - b. There is little flexibility in how the site can be developed.
  - c. There is a strong architectural or landscaping character on the site that should be preserved and that development according to the Site Plan will preserve that architectural or landscaping character.

<sup>459</sup> Revised per EPC Condition #1 (Tech Edits) and EPC Condition #41.

2. An extension of an approved Site Plan – DRB or Site Plan – EPC for phased development of the site may be approved if the decision-making body determines that all of the following provisions apply:
  - a. At least 50 percent of the first phase has been developed.
  - b. The extension of the Site Plan is for later phases of the Site Plan.
  - c. The Site Plan as previously approved is likely to be built in the future.
3. Any extension of a Site Plan – DRB or Site Plan – EPC shall require a new meeting with the DRB or EPC, as applicable, and may require an update of any Traffic Impact Study (TIS) prepared for that Site Plan if the prior TIS is more than 5 years old and the City Engineer determines that background or anticipated traffic volumes or patterns in the surrounding area have changed since the TIS was prepared.

**6-4(W)(4)(c) Additional Provisions for Extensions of Preliminary Plats<sup>460</sup>**

In addition to the general provisions in Subsection (a) above, additional extensions for Preliminary Plats may be granted by the DRB for good cause, but the Preliminary Plat may be required to come into compliance with any applicable standards adopted since the application was submitted.

**6-4(X) AMENDMENTS OF APPROVALS**

After the City issues an approval under this IDO, the approval may be amended as described in this Subsection 14-16-6-4(X).

**6-4(X)(1) Applicability**

- 6-4(X)(1)(a) This Subsection 14-16-6-4(X) addresses applications for amendments to permits, approvals, or plans that comply with all Use-specific Standards in Section 14-16-4-3, all Development Standards in Part 14-16-5 (Development Standards), and all DPM standards applicable to the development. If the applicant is requesting an amendment that would require a [Waiver or Variance](#) from any of these standards, a separate request must be submitted pursuant to the relevant procedure, as follows:<sup>461</sup>
1. [Subsection 14-16-6-6\(P\) \(Waiver – DRB\)](#) for exceptions to any standards in [Section 14-16-5-4 \(Subdivision of Land\)](#), [Section 14-16-5-3 \(Access and Connectivity\)](#), [Section 14-16-5-5 \(Parking and Loading\)](#), except the following:
    - a. Standards in [Subsection 14-16-5-5\(F\)\(2\)\(a\)3](#), which require a Permit – Carport for carports in any front or side setback pursuant to [Subsection 14-16-6-6\(G\)](#).

<sup>460</sup> Added per EPC Condition #1 (Tech Edits).

<sup>461</sup> Revised per EPC Condition #1 (Tech Edits) and R-19-150.

- b. Standards related to front yard parking in Subsection 14-16-5-5(F)(1)(a)6, Subsection 14-16-5-5(F)(2)(a)2, or Table 5-5-6, which require a Variance – ZHE pursuant to Subsection 14-16-6-6(O).
  - 2. Subsection 14-16-6-6(Q) (Waiver – Wireless Telecommunications Facility) for deviations from IDO standards applicable to the erection or installation of a WTF.
  - 3. Subsection 14-16-6-6(N) (Variance – EPC) for exceptions to any IDO standard other than those listed in Subsections 1 and 2 above for approvals associated with a Site Plan – EPC.
  - 4. Subsection 14-16-6-6(O) (Variance – ZHE) for exceptions to any IDO standard other than those listed in Subsection 1 and 2 above for any approval other than a Site Plan – EPC.
- 6-4(X)(1)(b) Amendments to Policy Decisions (as listed in Table 6-1-1) shall be reviewed pursuant to the relevant requirements in Section 14-16-6-7.
- 6-4(X)(1)(c) Approvals granted prior to this IDO may be amended by the procedures in Subsection 14-16-6-4(Y).

#### **6-4(X)(2) Minor Amendments**

- 6-4(X)(2)(a) A minor amendment must meet all of the following criteria:
  1. The amendment is necessary because of site conditions or user requirements that were not known, and could not reasonably have been known, at the time the City approved the approval that is proposed to be amended, and that were not created by the actions of the owner of the property.
  2. The amendment does not increase or decrease the dimension of any standard beyond the thresholds allowed as minor amendments pursuant to Table 6-4-4 (cumulative of any earlier deviations or amendments).
  3. The amendment does not decrease the total amount of open space in the development and does not reduce the size of any open space abutting a lot containing a residential use.
  4. The amendment does not reduce any building setback adjacent to development containing residential uses by any amount.
  5. The amendment does not increase the maximum number of residential dwelling units in the development from that shown in the existing permit, approval, or plan. If the property is located in a DT-UC-MS-PT area, the amendment does not decrease the required number of residential dwelling units in the development from that shown in the existing permit, approval, or plan.
  6. The amendment does not adjust a building design standard unless doing so improves the perception of building quality,

- variety, durability, and articulation when viewed from adjacent streets and abutting properties.
7. The amendment does not reduce the amount of total landscaping installed on the subject property or the amount of screening or buffering required on portions of the site abutting any property containing residential dwelling units and does not waive or weaken any other landscaping or buffering requirement unless the ZEO determines that alternative building design elements included in the amendment improve the visual quality and screening and buffering effect of landscaping as viewed from adjacent streets and public areas.
  8. The amendment does not increase the traffic accessing the subject property from local streets and does not increase or decrease the number of through streets, sidewalks, trails, or trail connections passing through the property or connecting to or designed to connect to abutting properties.
  9. The amendment does not require major public infrastructure or significant changes to access or circulation patterns on the subject property.<sup>462</sup>
  10. Other than those allowed within the threshold of a minor amendment pursuant to Table 6-4-4, the amendment does not affect a standard in Section 14-16-5-3 (Access and Connectivity), Section 14-16-5-4 (Subdivision of Land), Section 14-16-5-5 (Parking and Loading), or the DPM, in which case DRB review is required through a Site Plan – DRB pursuant to Subsection 14-16-6-6(I).
  11. The amendment does not change a specific condition attached by a decision-making body listed in Table 6-1-1 to a prior development permit, approval, or plan for or including the subject property. For example, a specific condition attached to a prior approval requiring additional buffering to mitigate development impacts shall not be removed through a minor amendment process.
  12. The amendment does not affect a property in an Overlay zone as regulated per 0, in which case amendments may be granted per the original approval process for the Site Plan governing the site.
  13. The amendment does not approve any land use that was not authorized by the permit or approval or that is not allowed by right on the subject property.
  14. The amendment does not expand a nonconformity as regulated per Section 14-16-6-8 (Nonconformities).

<sup>462</sup> Added per EPC Condition #1 (Tech Edits).

6-4(X)(2)(b) If the Planning Director determines that an amendment warrants review by the decision-making body that issued the permit or approval being amended, the amendment shall be reviewed and approved pursuant to Subsection 14-16-6-4(X)(3) (Major Amendments).<sup>463</sup>

6-4(X)(2)(c) Requests to amend approvals shall be reviewed according to 1 of the following procedures:

1. Applications to amend an Administrative Decision (as listed in Table 6-1-1) may be approved by the same administrative body that made the decision being modified, provided that the administrative body determines that all of the criteria in Subsection 14-16-6-4(X)(2)(a) have been met.
2. Applications to amend a Decision Requiring a Public Meeting or Hearing (as listed in Table 6-1-1) may be approved by the ZEO provided that the ZEO determines that all of the criteria in Subsection 14-16-6-4(X)(2)(a) have been met.

6-5 ADMINISTRATIVE DECISIONS

**6-5(A) ARCHAEOLOGICAL CERTIFICATE**

All applicable provisions of Section 14-16-6-4 (General Procedures) apply unless specifically modified by the provisions of this Subsection 14-16-6-5(A).

**6-5(A)(1) Applicability**

This Subsection 14-16-6-5(A) requires an Archaeological Certificate of No Effect or Certificate of Approval to be duly approved prior to approval of any preliminary plat, Site Plan, or Master Development Plan for projects over 5 acres.

**6-5(A)(2) Procedure**

- 6-5(A)(2)(a) An application for an Archaeological Certificate shall be reviewed by the City Archaeologist to determine whether the proposed development will have an adverse impact on any significant archaeological site.
- 6-5(A)(2)(b) The City Archaeologist shall issue a Certificate of No Effect if there is no adverse impact.
- 6-5(A)(2)(c) If the application does not qualify for a Certificate of No Effect, an application for a Certificate of Approval shall be required. The applicant must submit a treatment plan prepared by a qualified archaeologist that adequately mitigates any archaeological impacts of the development.
- 6-5(A)(2)(d) The City Archaeologist shall review the treatment plan and shall approve or deny the proposed plan within 15 calendar days of its submission. If the plan is approved, a Certificate of Approval shall be issued by the City Archaeologist. If the plan is not approved as submitted, the City Archaeologist shall advise the applicant of the changes needed in the plan for its approval.

**6-5(A)(3) Review and Decision Criteria**

**6-5(A)(3)(a) Certificate of No Effect**

An application for a Certificate of No Effect shall be approved if it meets any of the following criteria:

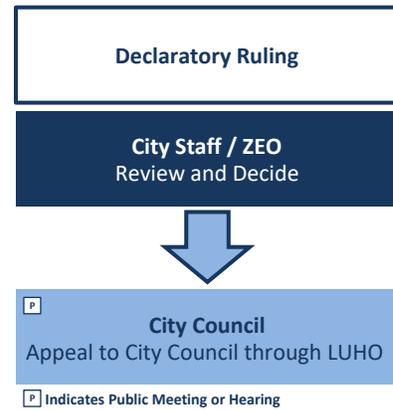

1. An archaeological investigation has been conducted on the property, and based on a report prepared by a qualified archaeologist, it has been determined that no significant archaeological site exists on the property. The factual basis necessary to support this determination shall be met through the presentation of an archaeological investigation report prepared in compliance with federal or New Mexico state historic preservation laws and regulations that used a comparable definition for a significant archaeological site. Documentation indicating that the report was accepted by the relevant agency shall accompany the report.
2. The property has been disturbed through previous land use or development to such an extent that there is a substantial reduction in the probability of the continuing existence of any significant archaeological site. It shall be adequate evidence that the property was previously disturbed to such an extent so as to meet this requirement if the property has been graded, demolition has occurred on the property, or the project involves redevelopment or rehabilitation of existing improvements.
3. The informational value of any significant archaeological sites located on the property has been satisfactorily documented through previous archaeological investigation.

**6-5(A)(3)(b) Certificate of Approval**

1. A Certificate of Approval shall be issued if the proposed site-specific treatment plan accomplishes all of the following:
  - a. Details strategies for the management of the affected archaeological sites.
  - b. Includes standards for further testing, sampling, documentation, data recovery, preservation and protection, analysis, and report preparation.
  - c. Outlines an effective preservation plan or data recovery and documentation plan for those resources that the City Archaeologist has determined to have significant research or other value.
  - d. Provides a schedule for the implementation of the treatment plan.
  - e. Provides a cost estimate for mitigation strategies, including testing, data recovery, curation, and report preparation.
2. In making a decision on the plan, the City Archaeologist shall consider methods to avoid, reduce, or mitigate effects on archaeological resources, including the use of conservation easements, while taking into consideration the needs of the property owner.

**6-5(B) DECLARATORY RULING**

Upon request, the ZEO shall issue a written Declaratory Ruling as to the applicability of the IDO to a proposed development or activity. In determining whether a use not specifically allowed by this IDO can be considered as allowable in a particular zone, the similarity to and compatibility with other allowable uses in that zone shall be determining factors. **If the ZEO determines that the request for a Declaratory Ruling is not applicable to a proposed development or activity, the ZEO is not required to issue a Declaratory Ruling.**<sup>470</sup>

**6-5(C) HISTORIC CERTIFICATE OF APPROPRIATENESS – MINOR**

6-5(D)(2)(c) If the assessment and report indicate that there is no landfill gas at the property and there is no future risk from the migration of landfill gases, the assessment and report shall state how such a determination was made and the applicant shall do all of the following:

1. Submit copies of the assessment and report approved by the Environmental Health Department with any application(s) listed in Subsection 14-16-6-5(D)(1) related to the property.

2. A "Determination of No Feasible Alternative" may be issued during the public hearing if the LC finds that, for a structure that otherwise meets the requirements for the 120-day demolition review period, there is no feasible alternative to demolition.
3. If the LC determines that the 120-day review period is not to be invoked, the LC shall so notify the Chief Building Official and applicant in writing. The Chief Building Official may then issue the demolition permit.

6-6(B)(2)(f) The Chief Building Official may issue a demolition permit or a building permit upon expiration of the 120-day review period if a City landmark designation has not been initiated or some other means of preserving the structure intact has not been agreed to in writing by the LC and the applicant; however, no permit for demolition of a structure subject to the 120-day review period shall be granted, even after expiration of the review period, until all plans for future use and development of the site have been submitted to the Chief Building Official and have been found to comply with all laws pertaining to the issuance of a building permit, or, if for a parking lot, a certificate of occupancy for that site. All approvals necessary for the issuance of such building permit or certificate of occupancy, including but not limited to any necessary Variances, Waivers, or permits, must be granted, and all appeals from the granting of such approvals must be concluded prior to the issuance of a demolition permit under this Subsection 14-16-6-6(B).

6-6(B)(2)(g) During the demolition review period, the City may take any action that it deems necessary and consistent with this Subsection to preserve the structure. During the review period, the LC shall provide for the documentation of the structure.

6-6(B)(2)(h) If after an inspection, the Chief Building Official finds that a structure subject to the 120-day review period poses an immediate threat to public health or safety due to its deteriorated condition and that there is no reasonable alternative to the immediate demolition of the structure, then the Chief Building Official may issue an emergency demolition permit to the owner of the structure. The Chief Building Official shall then prepare a report explaining the condition of the structure and the basis for his decision, which shall be forwarded to the LC.

### **6-6(B)(3) Review and Decision Criteria**

6-6(B)(3)(a) The Historic Preservation Planner shall review the demolition permit application based on the following criteria:

  3. The structure's potential to enhance the city's heritage and historical identity.
  4. Whether the structure is unique or one of the last remaining examples of its kind in the neighborhood, the city, or the region.
  5. The structure's condition.
- 6-6(B)(3)(b) To invoke the 120-day review period, the LC must find that, in considering the public interest, it is preferable that the structure be preserved or rehabilitated rather than demolished and use the criteria in Subsection (a) above and Subsection 14-16-6-7(C) (Adoption or Amendment of Historic Designation) in its evaluation.
- 6-6(B)(3)(c) In determining whether the structure should be designated as a landmark, the LC shall apply the criteria Subsection 14-16-6-7(C) (Adoption or Amendment of Historic Designation).

sufficient mitigation or civic or environmental benefits that outweigh the expected impacts.

- 6-6(C)(3)(b) The expansion will not increase non-residential activity within 300 feet **in any direction** of a lot in any Residential zone district between the hours of 8:00 P.M. and 6:00 A.M.<sup>488</sup>
- 6-6(C)(3)(c) The expansion will not negatively impact pedestrian or transit connectivity without appropriate mitigation.
- 6-6(C)(3)(d) The expansion will not exceed 25 percent of the gross floor area of the structure occupied by the nonconforming use, or 25 percent of the area occupied by the nonconforming use at the time it became nonconforming.

- 6-6(C)(3)(f) The expansion will not increase an existing nonconformity or create a new nonconformity.

By the end of the 1-year moratorium, if the City Council determines that the subject property is incapable of producing a reasonable economic return as presently controlled and that no means of preserving the structure has been found, pursuant to the criteria in Subsection 14-16-6-6(D)(3)(g), the City Council shall issue a demolition permit.

For the purposes of Section 14-16-3-5 (Historic Protection Overlay Zones) and this Subsection 14-16-6-6(D), "original" shall mean as it was at the time of initial construction or as it has developed over the course of the history of the structure.
- 6-6(D)(3)(e) Deteriorated architectural features shall be repaired rather than replaced, if possible. If replacement is necessary, the new material shall match the original as closely as possible in material and design.
- 6-6(D)(3)(f) Additions to existing structures and new construction may be of contemporary design if such design is compatible with its landmark status (if any) or the HPO zone in which it is to be located.

In making a determination regarding reasonable economic return, the LC or City Council may consider the estimated market value of the building, land, and any proposed replacement structures; financial details of the property,

including but not limited to income and expense statements, current mortgage balances, and appraisals; the length of time that the property has been on the market for sale or lease; potential return based on projected future market conditions; the building's structural condition; and other items determined to be relevant to the application.

6-6(L)(1)(b) The following applications for a subdivision of land require a prior approval and can then be processed as a Subdivision of Land – Minor pursuant to Subsection 14-16-6-6(K); an application for Subdivision of Land – Major is not a substitute for the required prior approval.<sup>504</sup>

1. Subdivision of land 5 acres or greater adjacent to Major Public Open Space that does not have a Site Plan – EPC.
2. Subdivision of land that is zoned NR-SU or PD that does not have a Site Plan – EPC.
3. Subdivision of land that is zoned NR-BP that does not have a Master Development Plan.
4. Subdivision of land that is zoned PC that does not have a Framework Plan.

1. The applicant shall submit a sketch plat that indicates the basic layout of the proposed subdivision, including general layouts of streets, drainage areas, open spaces, and buildable lots within the subdivision, and other technical standards specified in the DPM.
2. The DRB shall review the sketch plat, conduct a public meeting, and provide a letter of advice outlining the requirements and recommendations of the meeting, which will address the suitability of the proposal for development and for infrastructure improvements based on the intent of this IDO and the DPM.
3. The approved sketch plat shall not be recorded but shall be retained by the City Planning Department, and the Preliminary and Final Plat are required to be generally consistent with the sketch plat letter of advice.

2. The plat shall reflect the applicant's agreement that building permits shall not be issued for any area within the Bulk Land Subdivision before a Preliminary Plat and Final Plat have been approved and the Final Plat for the subject area has been recorded.

**6-6(L)(2)(d) Preliminary Plat<sup>508</sup>**

1. The sketch plat letter of advice expires after 1 year. If a Preliminary Plat that meets all standards and requirements of this IDO and the DPM is not filed within 1 year of the letter of advice, the applicant must re-submit an application for sketch plat.

6-6(N)(1)(c) This Subsection 14-16-6-6(N) applies to requests for Variances to standards in Subsection 14-16-3-6(E)(3) (Structure Height) of the Northwest Mesa Escarpment – VPO-2 for one of the following exceptions to structure height:

1. A Variance to allow up to 4 feet of additional height for non-residential structures to screen rooftop equipment.

#### 6-6(N)(2) Procedure

- 6-6(N)(2)(a) The City Planning Department staff shall review the application and forward a recommendation to the EPC.
- 6-6(N)(2)(b) The EPC shall conduct a public hearing and make a decision on the application as part of the associated Site Plan – EPC review and decision.

3. Analysis and demonstration of at least 1 of the techniques required by Subsection 14-16-3-6(E)(3) (i.e. height/slope, view corridors, or height/slope/setback) to minimize the impact of additional structure height on views to and from the escarpment.
4. A Grading and Drainage Plan that has been approved by the City Engineer.

### 6-6(N)(3) Review and Decision Criteria

#### 6-6(N)(3)(a) General

An application for a Variance – EPC shall be approved if it meets all of the following criteria:<sup>522</sup>

1. There are special circumstances applicable to a single lot that are not self-imposed and that do not apply generally to other property in the same zone district and vicinity, including but not limited to size, shape, topography, location, surroundings, physical characteristics, natural forces, or by government eminent domain actions for which no compensation was paid. Such special circumstances of the lot either create an extraordinary hardship in the form of a substantial and unjustified limitation on the reasonable use or economic return on the property, or practical difficulties result from strict compliance with the minimum standards.<sup>523</sup>
2. The Variance will not be materially contrary to the public safety, health, or welfare.
3. The Variance does not cause significant material adverse impacts on surrounding properties or infrastructure improvements in the vicinity.
4. The Variance will not materially undermine the intent and purpose of this IDO or the applicable zone district.
5. The Variance approved is the minimum necessary to avoid extraordinary hardship or practical difficulties.

#### 6-6(N)(3)(b) Coors Boulevard – VPO-1

An application for a Variance from the standards for setback, structure height, or structure bulk and massing in Subsection 14-16-3-6(D) (Coors Boulevard – VPO-1) shall be approved if it meets

the criteria in Subsection (a) above and all of the following criteria:<sup>524</sup>

1. The Variance will not materially undermine the protected views described in Subsection 14-16-3-6(D)(2).
2. The intent of the view regulations in Subsection 14-16-3-6(D)(5) is met.

**6-6(N)(3)(c) Northwest Mesa Escarpment – VPO-2**

An application for a Variance from the 15-foot structure height limit in the Height Restriction Sub-area in Subsection 14-16-3-6(E)(3) (Northwest Mesa Escarpment – VPO-2) shall be approved if it meets the criteria in Subsection (a) above and all of the following criteria:<sup>525</sup>

1. **Hardship**  
The intent of the view regulations in Section 14-16-3-6(E) (Northwest Mesa Escarpment – VPO-2) must be met. The burden is on the applicant to demonstrate that strict adherence to VPO-2 building height regulations would render the lot undevelopable because of physical and/or engineering constraints (e.g. rock outcroppings, street grades, ADA compliance, utility design, etc.).
2. **Visual Impact**  
The impact of the proposed development on views to and from the escarpment will be the same as, or less than, the impact if the 15-foot height limit were met.

- a. The request meets the requirements of this Subsection 14-16-6-6(O).

### **6-7(E)(3) Review and Decision Criteria**

An application for an Amendment to IDO Text – Small Area shall be approved if it meets all of the following criteria:

- 6-7(E)(3)(a) The proposed small area amendment is consistent with the health, safety, and general welfare of the City as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.
- 6-7(E)(3)(b) If the proposed small area amendment is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant has demonstrated that the proposed amendment would clearly reinforce or strengthen the established character of the surrounding Area of Consistency and would not allow development that is significantly different from that character. The applicant must also demonstrate that the existing zoning regulations are inappropriate because they meet any of the following criteria:
1. There has been a significant change in neighborhood or community conditions affecting the small area.
  2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

- 6-7(E)(3)(c) If the proposed small area amendment is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant has demonstrated that the existing zoning regulations are inappropriate because they meet at least one of the following criteria:
  1. There has been a significant change in neighborhood or community conditions affecting the small area that justifies this request.
  2. The proposed zoning regulations are more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).
- 6-7(E)(3)(d) If the proposed amendment changes allowable uses, the proposed amendment does not allow permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.
- 6-7(E)(3)(e) The applicant’s justification is not based completely or predominantly on the cost of land or economic considerations.

**6-7(F) ANNEXATION OF LAND**

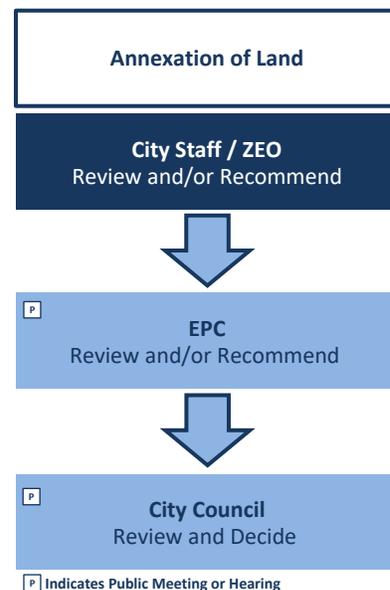

All applicable provisions of Section 14-16-6-4 (General Procedures) apply unless specifically modified by the provisions of this Subsection 14-16-6-7(F).

**6-7(F)(1) Applicability**  
This Subsection 14-16-6-7(F) applies to all petitions to annex land into the municipal limits of the City that have received approval from Bernalillo County.

**6-7(F)(2) Procedure**  
**6-7(F)(2)(a) Review and Decision**

1. The City Planning Department staff shall review the application, including any specific regulations applicable to a proposed annexation, and forward a recommendation to the EPC.

2. The EPC shall conduct a public hearing on the application and shall make a recommendation to the City Council.
3. The City Council Section 14-16-6-4 (General Procedures) shall conduct a public hearing and shall make a decision on the application.

**6-7(F)(2)(b) Withdrawal of Petition**

1. Persons who petition the City for annexation may withdraw their names and their land from petitioner status at any time before the full City Council votes on the annexation and simultaneous establishment of zoning, but they may not withdraw after that time.
2. Withdrawal of persons or land from annexation petitions does not prevent any person from again petitioning the City for annexation at any time and also does not prevent the City from seeking to annex such land by any legal method in subsequent proceedings.

**6-7(F)(3) Review and Decision Criteria**

The City Council shall consider the following criteria and may approve an application to annex land into the City at its legislative discretion.

6-7(F)(3)(a) Annexation of areas designated in the ABC Comp Plan, as amended, as Established Urban and/or Developing Urban will be approved when the following criteria are met:

1. Compliance with City policy regarding land dedication for public facilities is assured.
2. The applicant agrees in writing to at least one of the following criteria for timing of capital expenditures for necessary major streets, water, sanitary sewer, and stormwater-handling facilities:
  - a. The timing to be per a written City statement of intent as to when it or another public body will be able to provide such capital facilities, such City statement to be issued prior to annexation.
  - b. The timing to remain indefinite but a substantial number of years in the future, based on a written City statement, made prior to annexation, that it will provide the facilities but no timing can be assured.
  - c. A commitment by the property owner that he/she or his/her successors in interest will, in a manner that satisfies City standards, install and pay for such facilities or cause them to be installed and paid.
3. The anticipated delay in provision of City services is not so far into the future as to be speculative and therefore an unreasonable basis to provide for annexation.
4. The land annexed shall be to some extent contiguous to the City limits, except land owned by the City may be annexed when it is not contiguous where this is allowed by state statutes.
5. The land to be annexed shall have provision for convenient street access to the City.

6. The land to be annexed shall have reasonable boundaries so that providers of public services can easily determine where the City boundary is located and so that public services can be delivered under appropriate service extension policies at reasonable operating and capital cost to the City.
  7. City boundaries shall be established along platted lines that clearly define the City limits; annexation plats need not meet all requirements of a subdivision plat as specified in the DPM.
- 6-7(F)(3)(b) Areas that are designated in the ABC Comp Plan, as amended, as Reserve Development Areas are appropriate for annexation if they create high-quality, mixed-use, largely self-sufficient planned communities. Annexation of such areas will be approved when the following criteria are met:
1. The criteria in Subsection (a) above.
  2. Applications are accompanied or preceded by satisfactory plans for each proposed community.
- 6-7(F)(3)(c) Areas that are designated in the ABC Comp Plan, as amended, as Semi-Urban and as Rural Development Areas are appropriate for annexation where the Semi-urban and Rural Development Area policies in the ABC Comp Plan are furthered or where the general public welfare clearly is better served by annexation. Zoning appropriate for low-intensity uses shall be assigned. Annexation of such areas will be approved when the following criteria are met:
1. The criteria in Subsection (a) above.
  2. Since the eventual annexation of all these areas is unlikely, special care shall be taken to maintain reasonable, compact boundaries in these areas. To this end, the City will not annex such land unless it meets one of the following criteria:
    - a. Has at least 10 percent of its boundary contiguous to the City boundary.
    - b. Does not create an arm of the City's incorporated area that is at any point less than 1,000 feet wide.
  3. Barring exceptional conditions, the City will not annex land on one side of a public street without also annexing the land on the other side of the street.
  4. The City will not annex land unless appropriate City zone districts are available for regulation of development consistent with planned and appropriate land development patterns.
- 6-7(F)(3)(d) The City may annex land even though some or all of the above policies are not met where the EPC and City Council find that at least one of the following applies:
1. There is a particular hazard to the health of persons that would be removed or materially alleviated by the City upon annexation, and that no other adequate and timely remedy

for the removal or material alleviation of such hazard is available.

2. City-owned land used for a public purpose is being annexed to better facilitate that use.

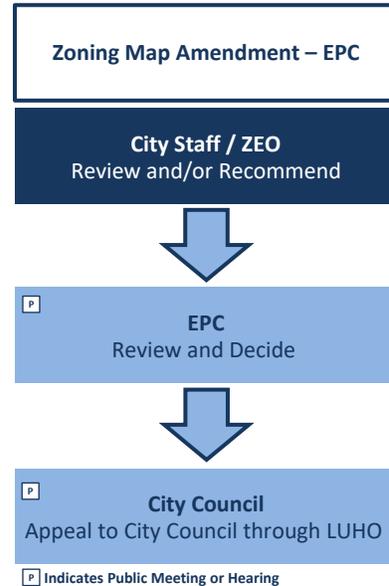

**6-7(G) ZONING MAP AMENDMENT – EPC**

All applicable provisions of Section 14-16-6-4 (General Procedures) apply unless specifically modified by the provisions of this Subsection 14-16-6-7(G).

**6-7(G)(1) Applicability**

6-7(G)(1)(a) This Subsection 14-16-6-7(G) applies to any application:

1. That would amend the Official Zoning Map to change less than 10 gross acres of land located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended) or less than 20 gross acres of land in any zone district located entirely in an Area of Change (as shown in the ABC Comp Plan, as amended) to a different zone district.

2. That does not create or amend any text or map of any Overlay zone.

6-7(G)(1)(b) An application to amend the Official Zoning Map by any entity other than the City may not be submitted within 1 year after the date of final action by the City denying or approving (with or without conditions) a prior application to amend the Official Zoning Map with the same requested change.

**6-7(G)(2) Procedure**

6-7(G)(2)(a) The City Planning Department staff shall review the application and forward a recommendation to the EPC.

6-7(G)(2)(b) If the application is for a zone change to an MX-FB, NR-SU, or PD zone district, the associated Site Plan – EPC shall be reviewed and decided simultaneously pursuant to all applicable provisions of Subsection 14-16-6-6(J) (Site Plan – EPC). A denial of either requested action shall result in the denial of all associated requests.

6-7(G)(2)(c) The EPC shall conduct a public hearing on the application and shall make a decision on the application.

6-7(G)(2)(d) **If the application is for a zone change from an NR-BP zone district to another zone district, and the subject property is within an area**

with an approved Master Development Plan, the applicant may amend the Master Development Plan pursuant to Subsection 14-16-6-4(X)(3) (Major Amendments) concurrently to remove the subject property from the Master Development Plan boundary or to add standards to the Master Development Plan relating to the subject property.<sup>542</sup>

1. The City may impose a condition for the applicant to amend the Master Development Plan.
2. If no amendment to the Master Development Plan is made, the property will continue to be subject to relevant standards in the Master Development Plan in addition to any standards applicable to the new zone district.

6-7(G)(2)(e) The City shall provide a zoning certificate to the applicant that documents the new zone district designation after any City-level appeal possibilities have been concluded and all conditions of approval have been met.<sup>543</sup>

6-7(G)(2)(f) If the Zoning Map Amendment will result in a zone boundary that does not coincide with a lot line, the applicant shall obtain a Subdivision of Land – Minor or a Subdivision of Land – Major, as applicable, to establish lot lines that coincide with the zone boundary before a zoning certificate will be issued.<sup>544</sup>

6-7(G)(2)(g) A final decision by EPC can be protested pursuant to Subsection 14-16-6-7(H)(1)(c), in which case, the application shall proceed through the process set forth in Subsection 14-16-6-7(H)(2)(j).

6-7(G)(2)(h) If the Zoning Map Amendment is approved, the applicant may develop with an approved Site Plan, pursuant to the applicability, procedures, and criteria in Subsections 14-16-6-5(H) (Site Plan – Administrative), 14-16-6-6(F) (Site Plan – DRB), or 14-16-6-6(J) (Site Plan – EPC) and the requirements for that zone district.<sup>545</sup>

### 6-7(G)(3) Review and Decision Criteria

An application for a Zoning Map Amendment shall be approved if it meets all of the following criteria:

6-7(G)(3)(a) The proposed zone change is consistent with the health, safety, and general welfare of the City as shown by furthering (and not being in conflict with) a preponderance of applicable Goals and Policies in the ABC Comp Plan, as amended, and other applicable plans adopted by the City.

6-7(G)(3)(b) If the subject property is located partially or completely in an Area of Consistency (as shown in the ABC Comp Plan, as amended), the applicant has demonstrated that the new zone would clearly reinforce or strengthen the established character of the

surrounding Area of Consistency and would not permit development that is significantly different from that character. The applicant must also demonstrate that the existing zoning is inappropriate because it meets any of the following criteria:

1. There was typographical or clerical error when the existing zone district was applied to the property.
2. There has been a significant change in neighborhood or community conditions affecting the site.
3. A different zone district is more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

6-7(G)(3)(c) If the subject property is located wholly in an Area of Change (as shown in the ABC Comp Plan, as amended) and the applicant has demonstrated that the existing zoning is inappropriate because it meets any of the following criteria:

1. There was typographical or clerical error when the existing zone district was applied to the property.
2. There has been a significant change in neighborhood or community conditions affecting the site that justifies this request.
3. A different zone district is more advantageous to the community as articulated by the ABC Comp Plan, as amended (including implementation of patterns of land use, development density and intensity, and connectivity), and other applicable adopted City plan(s).

6-7(G)(3)(d) The requested zoning does not include permissive uses that would be harmful to adjacent property, the neighborhood, or the community, unless the Use-specific Standards in Section 16-16-4-3 associated with that use will adequately mitigate those harmful impacts.

6-7(G)(3)(e) The City's existing infrastructure and public improvements, including but not limited to its street, trail, and sidewalk systems, meet any of the following criteria:

1. Have adequate capacity to serve the development made possible by the change of zone.
2. Will have adequate capacity based on improvements for which the City has already approved and budgeted capital funds during the next calendar year.
3. Will have adequate capacity when the applicant fulfills its obligations under the IDO, the DPM, and/or an Infrastructure Improvements Agreement (IIA).
4. Will have adequate capacity when the City and the applicant have fulfilled their respective obligations under a City-

approved Development Agreement between the City and the applicant.

- 6-7(G)(3)(f) The applicant’s justification for the Zoning Map Amendment is not completely based on the property’s location on a major street.
- 6-7(G)(3)(g) The applicant’s justification is not based completely or predominantly on the cost of land or economic considerations.
- 6-7(G)(3)(h) The Zoning Map Amendment does not apply a zone district different from surrounding zone districts to one small area or one premises (i.e. create a “spot zone”) or to a strip of land along a street (i.e. create a “strip zone”) unless the requested zoning will clearly facilitate implementation of the ABC Comp Plan, as amended, and at least one of the following applies:
  1. The subject property is different from surrounding land because it can function as a transition between adjacent zone districts.
  2. The subject property is not suitable for the uses allowed in any adjacent zone district due to topography, traffic, or special adverse land uses nearby.
  3. The nature of structures already on the subject property makes it unsuitable for the uses allowed in any adjacent zone district.

**6-7(H) ZONING MAP AMENDMENT – COUNCIL**

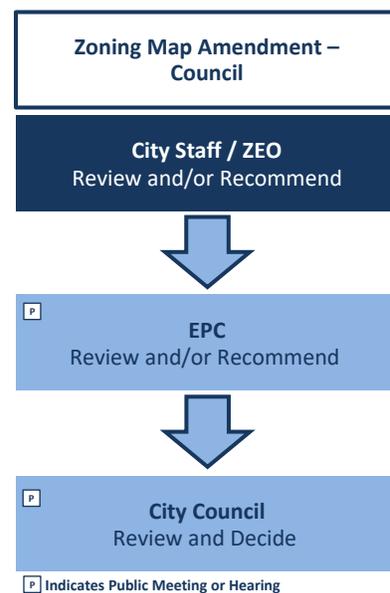

All applicable provisions of Section 14-16-6-4 (General Procedures) apply unless specifically modified by the provisions of this Subsection 14-16-6-7(H).

- 6-7(H)(1)(b) An application that would create or amend the text and/or boundaries of any Overlay zone other than an HPO zone.

- 6-7(H)(1)(c) An application for a Zoning Map Amendment – EPC for which a protest of the final action has been received that meets all of the following criteria:
1. All of the equitable owners of land that comprises at least 20 percent of the area proposed for change or 20 percent of the area within 100 feet **in any direction** (excluding public right-of-way) of the area proposed for change have protested in writing the proposed Zoning Map Amendment.<sup>546</sup>
  2. The persons filing the protest have shown that this Subsection 14-16-6-7(H)(1)(c) applies through clear and convincing evidence.
- 6-7(H)(1)(d) An application to amend the Official Zoning Map by any entity other than the City may not be submitted within 1 year after the date of final action by the City denying or approving (with or without conditions) a prior application to amend the Official Zoning Map with the same requested change.

### **6-7(H)(2) Procedure**

- 6-7(H)(2)(a) City Planning Department staff shall review the application, including any specific regulations applicable to a proposed Overlay zone, and forward a recommendation to the EPC.

- 6-7(H)(2)(c) The City Council shall conduct a public hearing and make a decision on the application.
- 6-7(H)(2)(d) If the application is for a zone change to an MX-FB, NR-SU, or PD zone district, the associated Site Plan – EPC shall be reviewed and decided simultaneously pursuant to all applicable provisions of Section 14-16-6-6(J) (Site Plan – EPC). A denial of either requested action shall result in the denial of all associated requests.
- 6-7(H)(2)(e) If the application is for a zone change to the NR-BP zone district, an associated Master Development Plan shall be reviewed and decided simultaneously, pursuant to all applicable provisions of Subsection 14-16-6-6(F) (Master Development Plan). A denial of either requested action shall result in denial of all associated requests.
- 6-7(H)(2)(f) If the application is for a zone change to the PC zone district, a Framework Plan shall be reviewed and decided simultaneously and the approved Framework Plan shall be binding on future development on all property within the PC zone district.
- 6-7(H)(2)(g) If the application is for a zone change from an NR-BP zone district to another zone district, and the subject property is within an area with an approved Master Development Plan, the applicant may amend the Master Development Plan pursuant to Subsection 14-**

<sup>546</sup> Revised per EPC Condition #1 (Tech Edits) for consistent language about measuring distances.

16-6-4(X)(3) (Major Amendments) concurrently to remove the subject property from the Master Development Plan boundary or to add standards to the Master Development Plan relating to the subject property.<sup>547</sup>

1. The City may impose a condition for the applicant to amend the Master Development Plan.
2. If no amendment to the Master Development Plan is made, the property will continue to be subject to relevant standards in the Master Development Plan in addition to any standards applicable to the new zone district.

6-7(H)(2)(h) The City shall provide a zoning certificate to the applicant that documents the new zone district designation **after any conditions of approval have been met.**<sup>548</sup>

6-7(H)(2)(i) If the Zoning Map Amendment will result in a zone boundary that does not coincide with a lot line, the applicant shall obtain a Subdivision of Land – Minor or a Subdivision of Land – Major, as applicable, to establish lot lines that coincide with the zone boundary before a zoning certificate will be issued.<sup>549</sup>

6-7(H)(2)(j) If a protest has been received pursuant to Subsection 14-16-6-7(H)(1)(c), the application shall be processed as a Zoning Map Amendment – Council.

1. The final action of the EPC becomes the recommendation to Council.
2. The application may only be approved if a majority of the membership of the City Council vote to approve the request.

6-7(H)(2)(k) If the Zoning Map Amendment is approved, the applicant may develop with an approved Site Plan, pursuant to the applicability, procedures, and criteria in Subsections 14-16-6-5(H) (Site Plan – Administrative), 14-16-6-6(F) (Site Plan – DRB), or 14-16-6-6(J) (Site Plan – EPC) and the requirements for that zone district.<sup>550</sup>

6-7(H)(3)(b) If the application is for the creation or amendment of an NR-BP zone district, all of the following criteria apply:

1. The NR-BP zone district and Master Development Plan will result in an internally coordinated system of land uses, development intensities, and open spaces that is more

<sup>548</sup> Revised per EPC Condition #1 (Tech Edits). Tech Edit added similar language to ZMA – EPC but not in this section. Copied the appropriate portions here, but left out language about City-level appeal processes because appeals of a ZMA – Council go to district court.

consistent with the adopted ABC Comp Plan, as amended, that is visually more attractive to surrounding areas, and that promotes economic development of the City better, than could be achieved without the NR-BP zone district.

2. The NR-BP zone district and Master Development Plan will result in street, circulation, open space, and storm drainage systems that connect and integrate with the City's existing systems.
3. The City and other service providers have adequate infrastructure and public service capacity to serve the proposed development without decreasing service quality to existing City residents or increasing financial burdens on existing City residents, or the applicant has made adequate financial commitments to ensure this result.

6-7(H)(3)(c) If the application is for the creation or amendment of a PC zone district, all of the following requirements must be met:

1. The proposed amendment and related Framework Plan meet any criteria for approval for a Planned Community adopted by City Council.
2. The Framework Plan for the property will result in street, circulation, open space, and storm drainage systems that connect and integrate with the City's existing system.
3. The Framework Plan for the property accommodates reasonably anticipated growth of the City in a manner that is more consistent with the ABC Comp Plan, as amended, than the accommodation of such growth that could be achieved without the PC zone district.
4. The City and other service providers have adequate infrastructure and public service capacity to serve the proposed development without decreasing service quality to existing City residents or increasing financial burdens on existing City resident, or the applicant has made adequate financial commitments to ensure this result.

## 6-8 NONCONFORMITIES

### 6-8(A) PURPOSE

The purpose of this Section 14-16-6-8 is to regulate land uses, buildings, lots, signs, and site features that were legally established, but that do not conform to the requirements of this IDO due to some action of the government (collectively “nonconformities”). These regulations are intended to reduce or eliminate over time any nonconformity that does not meet the regulatory standards of the IDO and/or the goals of the ABC Comp Plan, as amended, and that creates adverse impacts on the surrounding area or the city.

### 6-8(B) APPLICABILITY

#### 6-8(B)(1) General Applicability

The regulations in this Section 14-16-6-8 apply to land uses, buildings, lots, signs, and site features, including:

- 6-8(B)(1)(a) Those that were legally established prior to the effective date of this IDO but that become nonconforming due to the adoption of this IDO.
- 6-8(B)(1)(b) Those that were legally established after the effective date of this IDO but that become nonconforming due to the adoption of a future amendment to this IDO.

#### 6-8(B)(2) Authority to Continue

##### 6-8(B)(2)(a) General Nonconformities

Nonconformities that in general do no harm to the surrounding area may be allowed to continue or expand based on the regulations and criteria of this Section 14-16-6-8 in order to preserve the integrity of a neighborhood and prevent adverse impacts resulting from unused buildings or vacant lots.

##### 6-8(B)(2)(b) Timeframes for Compliance

Where the IDO establishes timeframes for compliance, the effective date of this IDO shall mark the beginning of the timeframe, unless specified otherwise in this IDO or another adopted City Ordinance in ROA 1994.

##### 6-8(B)(2)(c) Nonconforming Use of Land or a Structure in the APO Zone

Notwithstanding Subsections (a) and (b) above, the City shall not grant any permit or approval under this IDO that would allow a nonconforming use of a lot or structure to become a greater hazard or obstruction to air navigation than it was on the effective date of this IDO or any relevant amendments to this IDO.<sup>551</sup>

### 6-8(C) NONCONFORMING USES

#### 6-8(C)(1) Authority to Continue

Unless specified otherwise in this Section 14-16-6-8 or elsewhere in this IDO, the nonconforming use of land or a structure shall be allowed to continue regardless of any change in ownership or occupancy of the use, until that use is

<sup>551</sup> Revised for consistent use of the term “lot” instead of “parcel” per EPC Condition #1 (Tech Edits).

discontinued or another provision of this Section 14-16-6-8 requires the termination of the use.

**6-8(C)(2) Repair and Maintenance<sup>552</sup>**

A structure containing a nonconforming use may be maintained, repaired, or altered, with limits on expansion pursuant to Subsection 14-16-6-8(C)(4) (Expansion of Nonconforming Use).

**6-8(C)(3) Discontinuance of Nonconforming Use**

6-8(C)(3)(a) Except as noted in Subsection (b) below, when a nonconforming use of land or a structure is discontinued for a period of 2 years, any later use shall only be an allowable use as indicated in Table 4-2-1 for the zone district in which the property is located.

6-8(C)(3)(b) When a nonconforming residential use of a single-family detached dwelling located in any **Mixed-use or** Non-residential zone district is discontinued for 5 years, any later use shall only be an allowable use as indicated in Table 4-2-1 for the zone district in which the property is located.<sup>553</sup>

6-8(C)(3)(c) Neither the intention of the owner nor that of anybody else to use a lot or part of a lot for any nonconforming use, nor the fact that the lot or part of a lot may have been used by a makeshift nonconforming use shall prevent the ZEO from determining that the use has been discontinued for purposes of this Subsection 14-16-6-8(C)(3).

**6-8(C)(4) Expansion of Nonconforming Use**

A nonconforming use of land or a structure shall not be expanded, except that the portion of a structure or land containing a nonconforming use may be expanded in size if approved by the ZHE pursuant to Subsection 14-16-6-6(C).

6-8(C)(7)(b) A nonconforming use of land and incidental structures consisting of a mobile home development may remain for the life of the structures, which shall never be more than 30 years, but only if all of the following provisions apply:

<sup>552</sup> Added per EPC Condition #1 (Tech Edits).

<sup>553</sup> Revised per EPC Condition #1 (Tech Edits).

1. This use does not cease operation for a period of 1 year.
2. Any private street system servicing the mobile home dwellings is paved at least to a standard approved by the City Engineer according to the applicable standards of this IDO and related DPM standards and criteria, even though there may be no new subdivision.
3. Mobile home dwellings are skirted with materials similar in appearance and durability to the siding of the mobile home, or the unit is situated at ground level, within 2 years of the use becoming nonconforming.

6-8(C)(7)(c) Any additional development on a lot that includes 1 or more mobile home dwellings shall conform to the regulations in this IDO.

6-8(C)(7)(d) For changes of use or rezoning of developments that include mobile homes that will result in expiration or termination of resident occupancy, the standards in Subsection 14-16-2-3(C)(3)(g) (R-MC Zone District Standards) apply, regardless of the zone district the development is in.<sup>554</sup>

<sup>554</sup> Revised per EPC Condition #1 (Tech Edits).

**6-8(D)(5) Expansion of Nonconforming Structure**

**6-8(D)(6) Relocation of Nonconforming Structure**

A nonconforming structure may be moved in whole or in part to another location on the lot, provided that the moving will make it nonconforming to a lesser extent.

**6-8(D)(7) Damage**

A nonconforming structure that is damaged through natural or other causes may be restored, provided that the restoration is started within 6 months of the damage and is continued diligently to completion, unless the ZEO determines that the continued use of the structure creates a significant threat to public health or safety, even after repairs that meet the requirements in Articles 14-1, 14-2, and 14-3 of ROA 1994 (Uniform Administrative Code and Technical Codes, Fire Code, and Uniform Housing Code) are made.

**6-8(D)(8) Walls and Fences**

6-8(D)(8)(a) A nonconforming wall or fence may remain for the life of the structure, except that a wall or fence nonconforming because it is in a clear sight triangle may remain only if the City Engineer gives and does not withdraw a written opinion that the wall or fence is not a traffic hazard.

6-8(D)(8)(b) Walls or fences partially or completely constructed of barbed tape, barbed wire, razor wire, or similar materials where these materials are not allowed pursuant to Subsection 14-16-5-7(E)(1)(c) are considered illegal and must be removed within the timeframe specified by the Code Enforcement Division of the City Planning Department in notice provided to the property owner.

## 6-8(F) NONCONFORMING SIGNS

### 6-8(F)(1) Authority to Continue

- 6-8(F)(1)(a) A nonconforming sign shall be allowed to continue in use, regardless of any change in ownership or occupancy of the structure, for the life of the physical sign structure in the size, height, lighting/illumination type, and configuration that existed at the time it became nonconforming, unless Subsection (b) below applies.
- 6-8(F)(1)(b) If 1 or more of the signatories to a Joint Sign Premises agreement withdraws from the agreement, the sign automatically becomes illegal and is subject to the provisions of Subsection 14-16-6-9(C) (Enforcement).
