Cover Analysis

1. What is it?

The purpose of this American Rescue Plan funded cooperative agreement is to advance enhanced monitoring of Particulate Matter 2.5 (PM2.5) or other National Ambient Air Quality Standards (NAAQS) pollutants in and near communities with environmental justice concerns that face disproportionate exposure to these pollutants and health risks which are also associated with increased vulnerability to COVID-19. As a recipient of the EPA grant, the City of Albuquerque will Review and compare EPA proposed equipment for purchase and determine if any adjustments need to be made on enhancements at various air monitoring sites based on current needs.

Complete automation of PM2.5 monitors will provide all communities with fine particulate data of the same quality and allow them to compare continuous data streams in nearby areas. Operation of PM2.5 or other NAAQS pollutants air monitoring following all EPA requirements leading to collection of quality assured ambient air quality data to help ensure that more Americans are living and working in areas that meet high air quality standards. These activities' Direct beneficiaries are community residents with a decreased risk of adverse health effects, including cancer and neurological effects.

2. What will this piece of legislation do?

Allow the Mayor to accept federal funding from the US EPA for the operation of Albuquerque's Ambient Air Monitoring Program and administer the appropriation for the American Rescue Plan Grant for Federal FY2023 to FY2024.

3. Why is the project needed?

These funds will primarily be used to replace existing filter-based monitors or otherwise enhance existing monitors in and near those communities to provide 24/7, real-time reporting of air quality concentrations. Complete automation of PM2.5 monitors will provide all communities with fine particulate data of the same quality and allow them to compare continuous data streams in nearby areas. The funds may address other considerations in and near communities with environmental justice concerns, including upgrading other NAAQS pollutant monitoring sites, upgrading specific NAAQS gas monitors and/or equipment not meeting performance or completeness goals, and other possible PM monitoring investments.

4. How much will it cost, and what is the funding source?

The award is \$115,000 from July 1, 2023, through June 30, 2024. There are no matching funds required for this grant. The US EPA is the Grantor.

5. What will happen if the project is not approved?

Funds would be returned to the Environmental Protection Agency, and no equipment upgrades would be completed.

General. Recipients of Federal financial assistance from the U.S. Environmental Protection Agency must comply with the following statutes and regulations.

Title VI of the Civil Rights Acts of 1964 provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. The Act goes on to explain that the statute shall not be construed to authorize action with respect to any employment practice of any employer, employment agency, or labor organization (except where the primary objective of the Federal financial assistance is to provide employment). Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act provides that no person in the United States shall on the ground of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under the Federal Water Pollution Control Act, as amended. Employment discrimination on the basis of sex is prohibited in all such programs or activities. Section 504 of the Rehabilitation Act of 1973 provides that no otherwise qualified individual with a disability in the United States shall solely by reason of disability be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Employment discrimination on the basis of disability is prohibited in all such programs or activities. The Age Discrimination Act of 1975 provides that no person on the basis of age shall be excluded from participation under any program or activity receiving Federal financial assistance. Employment discrimination is not covered. Age discrimination in employment is prohibited by the Age Discrimination in Employment Act administered by the Equal Employment Opportunity Commission. Title IX of the Education Amendments of 1972 provides that no person in the United States on the basis of sex shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. Employment discrimination on the basis of sex is prohibited in all such education programs or activities. Note: an education program or activity is not limited to only those conducted by a formal institution. 40 C.F.R. Part 5 implements Title IX of the Education Amendments of 1972. 40 C.F.R. Part 7 implements Title VI of the Civil Rights Act of 1964, Section 13 of the 1972 Amendments to the Federal Water Pollution Control Act, and Section 504 of The Rehabilitation Act of 1973.

Items "Applicant" means any entity that files an application or unsolicited proposal or otherwise requests EPA assistance. 40 C.F.R. §§ 5.105, 7.25. "Recipient" means any State or its political subdivision, any instrumentality of a State or its political subdivision, any public or private agency, institution, organizations, or other entity, or any person to which Federal financial assistance is extended directly or through another recipient, including any successor, assignee, or transferee of a recipient, but excluding the ultimate beneficiary of the assistance. 40 C.F.R. §§ 5.105, 7.25. "Civil rights lawsuits and administrative complaints" means any lawsuit or administrative complaint alleging discrimination on the basis of race, color, national origin, sex, age, or disability pending or decided against the applicant and/or entity which actually benefits from the grant, but excluding employment complaints not covered by 40 C.F.R. Parts 5 and 7. For example, if a city is the named applicant but the grant will actually benefit the Department of Sewage, civil rights lawsuits involving both the city and the Department of Sewage should be listed. "Civil rights compliance review" means: any federal agency-initiated investigation of a particular aspect of the applicant's and/or recipient's programs or activities to determine compliance with the federal non-discrimination laws. Submit this form with the original and required copies of applications, requests for extensions, requests for increase of funds, etc. Updates of information are all that are required after the initial application submission. If any item is not relevant to the project for which assistance is requested, write "NA" for "Not Applicable." In the event applicant is uncertain about how to answer any questions, EPA program officials should be contacted for clarification.

NARRATIVE STATEMENT (WORKPLAN)

Section 103 Direct Award for Enhancing Continuous Monitoring of PM_{2.5} and Other NAAQS Air Pollutants Work Plan Template

August 16, 2023

Name of Grantee: City of Albuquerque

Project Budget Period: August 1, 2022 – July 31, 2023

Amount of Funding Requested: \$115,000

Project Objectives and Alignment with EPA Strategic Plan:

The primary objective of this project is to enhance monitoring of PM_{2.5} or other National Ambient Air Quality Standard (NAAQS) pollutants in and near communities with environmental justice concerns who face disproportionate exposure to these pollutants and health risks which are also associated with increased vulnerability to COVID-19.

These funds will primarily be used to replace existing filter-based monitors or otherwise enhance existing monitors in and near those communities to provide 24/7, real-time reporting of air quality concentrations. Full automation of PM_{2.5} monitors will provide all communities fine particulate data of the same quality and allow them to compare continuous data streams in nearby areas. The funds may be used to address other considerations in and near communities with environmental justice concerns including upgrading other NAAQS pollutant monitoring sites, upgrading certain NAAQS gas monitors and/or equipment not meeting performance or completeness goals, and other possible PM monitoring investments.

This project supports EPA's Strategic Plan Goal 4 Ensure Clean and Healthy Air for All Communities (Protect human health and the environment from the harmful effects of air pollution) and Objective 4.1 Improve Air Quality and Reduce Localized Pollution and Health Impacts (Reduce air pollution on local, regional, and national scales to achieve healthy air quality for people and the environment). By enhancing air monitoring, this will assist in achieving and maintaining health-based air pollution standards to reduce the direct emission of particulate matter and other criteria air pollution from stationary and mobile sources that are protective of human health. The environmental outcome will be reduced incidences of respiratory illnesses including asthma and lung cancer and improved visibility in and near these communities.

Activities to Be Conducted:

As a recipient of this EPA grant, City of Albuquerque will:

1. Review and compare EPA proposed equipment for purchase and determine if any adjustments need to be made on enhancements at various air monitoring sites based on current needs. Consult with EPA about proposed changes/updates.
2. Prepare and initiate procurement request(s) for equipment purchase(s).
3. Purchase equipment.

4. Take delivery of equipment upon verification of functionality of equipment and move forward with payment of vendor invoices

5. Plan for timely set-up and installation of equipment consistent with the goal of enhancing air monitoring activities in EJ and underserved communities.

- May 30, 2024 (February 2024 – April 2024)
- August 30, 2024 (May 2024 – July 2024)

7. Submit final progress report electronically to EPA Project Officer within 120 days of project end date.

Outputs/Milestones:

- Reporting of expenditures of ARP funds via completion of procurement or taking delivery of air monitoring equipment for enhancing ambient air monitoring activities of PM2.5 or other National Ambient Air Quality Standard (NAAQS) pollutants consistent with stated goals and objectives for the use of American Rescue Plan funding.
- Reporting of status of setting up and installing of equipment to begin use of actual equipment as part air monitoring network sites.
- Reporting of draw down of federal funds upon delivery and acceptance of ARP funded equipment.

Outcomes:

- Operation of PM2.5 or other NAAQS pollutants air monitoring in accordance with all EPA requirements leading to collection of quality assured ambient air quality data to help ensure that more Americans are living and working in areas that meet high air quality standards.

Re: City of Albuquerque – American Rescue Plan Grant – City of
Albuquerque CDFA Number 66.034 - DUNNS Number 94-9437065

Dear Mr. Salisbury,

On behalf of the Mid-Region Council of Governments (MRCOG), I would like to give the City of Albuquerque my strong support for its application for federal assistance for the Albuquerque/Bernalillo County American Rescue Plan (APR) Grant.

This funding will support the City of Albuquerque's Air Quality Program's important work of continuing to monitor fine particulate matter in Bernalillo County. This will specifically allow for the purchase of needed equipment to enhance monitoring which will benefit the residents of the MRCOG Region.

Please let me know if the MRCOG can provide additional support.

Sincerely,

Dewey V. Cave
