**(B) A substantial body of scientific research has shown that exposure to
excessive sound is a serious hazard to the public health, welfare, safety and
quality of life. It is the express intent of the City Council to control the level of
excessive sound as noise in a manner that promotes the use, value and

7 arts and entertainment focus area, industrial/manufacturing, or public) as
8 listed in Table 1 receiving noise emitted from the source premises after
9 crossing one (1) or more property lines.

1 **STRUCTURE.** For the purposes of the Noise Control Ordinance, structure
2 shall mean the outer shell of a building, typically consisting of exterior walls
3 covered by a roof.

4 **§ 9-9-3 DECIBEL MEASUREMENT CRITERIA**

5 Unless otherwise indicated, any decibel (dB) measurement made pursuant to
6 the provisions of this article shall be based on the reference sound pressure
7 and measured with an approved sound-level meter. Reference sound pressure
8 will be measured as LAeq for A-Weighted and LCEq for C-Weighted.

9 (A) Except as provided in subsection (C) below, Residential, Commercial,
10 Downtown Arts and Entertainment Focus Area, and Industrial/Manufacturing
11 properties are to be measured from inside the Structure located on the
12 Receptor Premises. Any indoor noise measurements for compliance purposes
13 should be taken in a location which could be reasonably assumed to affect
14 one or more persons. For Residential Receptor Premises, inside noise level
15 measurements are performed in sleeping or living areas with windows opened
16 to approximately twenty-five percent of their maximum in residences without
17 mechanical ventilation and with windows closed for residences with
18 mechanical ventilation.

19 (B) Public Premises are to be measured at a reasonable distance from walls or
20 similar large reflecting surfaces and with the Approved Sound-Level Meter
21 protected from the effects of wind and other extraneous sounds by the use of
22 screens when appropriate.

23 (C) In the case where the Receptor Premises is located in a Residential Zoning
24 District and the Source Premises is located in a Commercial or
25 Industrial/Manufacturing Zoning District, measurements shall be measured
26 outside within twenty-five (25) feet from any side of the residential structure
27 which is nearest to the Source Premises.

29 (A) Except as otherwise provided in this article, no person shall make or
30 continue, cause to be made or continued, or allow to be made or continued,
31 any sound that persistently or continuously results in an exceedance of the
32 following sound level limits using an Approved Sound-Level Meter measuring
33 decibels on the A-Weighted scale.

11 excavation, grading or demolition work on buildings, structures, streets, alleys
12 or appurtenances thereto:

13 (1) with sound-control devices less effective than those provided on the
14 original equipment; and without using noise mitigation measures

15 (2) on Sundays or holidays or between 10:00 p.m. and 6:00 a.m., without
16 first obtaining a Temporary Construction Noise Permit as described in § 9-9-5
17 of this ordinance.

18 **§ 9-9-5 TEMPORARY PERMITS FOR AMPLIFIED SOUND OR CONSTRUCTION**

20 (A) The Mayor may grant a temporary permit which allows non-compliance
21 with the limitations prescribed in this article for the purpose of amplified
22 sound or construction noise activities of short duration.

23 (B) Permits shall be granted upon application, at no cost to applicant,
24 provided an initial evaluation indicates that the permit will not result in a
25 condition injurious to health or safety.

26 (C) The following factors shall be considered in the initial evaluation to
27 determine whether granting the permit will result in a condition injurious to
28 health or safety:

29 (1) Temporary Permits for use of sound amplifying
30 equipment:

31 (a) Distance of proposed activities from noise-sensitive property;

32 (b) Number of amplification devices to be used in the proposed

33 activities;

- 2 (d) Anticipated length of proposed activities;
- 3 (e) Whether the activity will be held within or without a structure;
- 4 and

- 13 completed project; and
- 14 (f) Other circumstances or conditions that may be impacted or
- 15 aggravated by the proposed activities.

16 (D) Upon a determination that the granting of a permit will not result in a
17 condition injurious to health or safety, the permit shall be issued specifying
18 place, duration, and any requirements appropriate to the proposed activity
19 site, which may include maximum sound level limits.

20 (E) Unless other dates and times are explicitly addressed in the permit,
21 permitted noise shall not continue past 10:00pm on Sunday, Monday,
22 Tuesday, Wednesday, and Thursday. On Friday and Saturday, permitted noise
23 shall not continue past 12:00am.

24 (F) Issued permits become void and shall be surrendered to any city police
25 officer or any representative of the Mayor authorized to enforce this article
26 upon request when it is determined that any requirement contained in the
27 permit has been violated. Upon revocation of the permit, permitted activities
28 must either immediately cease or must be in compliance with the limitations
29 prescribed in this article.

30 (G) A subsequent permit application by the same applicant or another
31 applicant may be denied upon substantiated complaint(s) by resident(s) in the

1 (H) This section shall not apply to any person who has been granted a
2 variance as prescribed by § 9-9-6.

3 (I) Any person aggrieved by the disposition of an application for a temporary
4 permit may appeal such disposition by filing a written petition with the Mayor
5 within 30 days of the disposition.

6 § 9-9-6 VARIANCES.

7 (A) The Mayor may grant an individual variance from the limitations
8 prescribed in this article whenever it is found, after a public hearing before a
9 Hearing Officer and upon presentation of adequate proof, that compliance with
10 any part of this article will impose an undue economic burden upon any lawful
11 business, occupation or activity, and that the granting of the variance will not
12 result in a condition injurious to health or safety.

13 (B) Any variance, or renewal thereof, shall be granted within the requirements
14 of division (A) of this section and for time periods and under conditions
15 consistent with the reasons therefore, and within the following limitations:

16 (1) If the variance is granted on the grounds that compliance with the
17 particular requirement or requirements will necessitate the taking of measures
18 which, because of their extent or cost, must be spread over a considerable
19 period of time, it shall be for a period not to exceed such reasonable time as,
20 in the view of the Mayor, is requisite for taking of the necessary measures. A
21 variance granted on the ground specified in this division shall contain a
22 timetable for taking of action in an expeditious manner and shall be
23 conditioned on adherence to the timetable; or

24 (2) If the variance is granted on the ground that it is justified to relieve or

26 division (B), it shall be for not more than one year.

27 (C) Any person seeking a variance shall file a petition for variance and a \$50
28 filing fee with the Mayor. The Mayor shall submit the petition to the Hearing
29 Officer to conduct a public hearing after notice has been provided in
30 accordance with this section and to make the final decision regarding the
31 granting of the variance. The Hearing Officer shall conduct the hearing and

6 of lots comprising the site of the variance and lots within 100 feet, excluding
7 public right-of-way, of the site of the variance;

8 (4) any neighborhood association or homeowner association that
9 has notified the City Office of Neighborhood Coordination of two persons'
10 addresses where it wishes notice to be sent if the site of the variance is within
11 the neighborhood or homeowner association's boundaries or within 100 feet
12 of the neighborhood or homeowner association's boundaries, excluding
13 public right-of-way.

14 (5) any other person or entity that has filed with the Mayor a
15 request to receive a notice of the variance proceeding.

16 (E) The notice of hearing shall set forth the name and address of the
17 petitioner, the location of the site of the variance, that the petitioner has
18 requested a variance from this ordinance, the nature of the requested
19 variance, and that part of the ordinance that would be waived if approved.

25 for review shall be limited to the record made at the public hearing described
26 herein.

27 **§ 9-9-7 MACHINERY, EQUIPMENT FANS, AND AIR CONDITIONERS**

28 (A) Except for emergency work as defined in this article, no person shall
29 operate or allow the operation of any stationary machinery, equipment, fan,
30 air-conditioning apparatus, or similar permanently installed mechanical device
31 in any manner so as to create noise which results in exceedance of the sound
32 level limits specified in § 9-9-4.

[Bracketed/Strikethrough Material] - Deletion

1 (B) No person shall operate or allow to be operated outdoors, any power
2 equipment, including, but not limited to, sweepers, power mowers, leaf
3 blowers, rototillers, power saws or other power equipment used to sweep
4 parking areas or other surfaces or perform gardening, property repair or other
5 functions, within 500 feet of any noise-sensitive property:

6 (1) during the nighttime; or

7 (2) between the hours of 7:00 a.m. and 9:00 a.m. on a Sunday or
8 holiday. Power mowers at golf courses are exempt from the requirements of
9 this subsection.

10 (C) No person shall install or allow the installation of any mechanical
11 equipment, such as, but not limited to, air conditioning or freezer
12 compressors, evaporative coolers, exhaust fans or other noise-producing
13 machines, on commercial property with such equipment on a side adjacent to
14 noise-sensitive property or a side separated from noise-sensitive property
15 only by an alley. Roof locations may be used when the mechanical equipment
16 is installed and maintained so as to not result in an exceedance of the sound-
17 level limits in § 9-9-4. Mechanical equipment legally installed or for which
18 official final approval for installation was received before the effective date of
19 this ordinance is specifically exempt from this location requirement.

20 (D) No person shall place or allow the placement of any garage door used for
21 entry or exit of vehicles from an automotive repair facility on a side of any
22 building adjacent to noise-sensitive property or a side separated from noise-
23 sensitive property only by an alley. Garage doors legally installed or for which
24 an official final approval for installation was received before the effective date
25 of this ordinance are specifically exempt from this location requirement.

26 (E) Public Utilities. Public utility generation, transmission or distribution
27 sites, facilities or substations shall be deemed compliant with this section if
28 operated so as not to exceed the noise limits of any applicable City of
29 Albuquerque/Bernalillo County Facility Plan: Electric Service Transmission
30 and Subtransmission Facilities. In the absence of applicable Facility Plan
31 noise limits, the sound level limits corresponding to the zoning district
32 designation of the receiving property at the time of the equipment installation

1 as set forth in §9-9-4 shall govern. If a subsequent zoning district designation
2 is less restrictive, the limits for that zoning district shall apply.

3 **§9-9-8 EXCEPTIONS AND EXCLUSIONS**

4 **Aircraft and airports.** The limits set forth in this Article do not apply to sounds
5 or vibrations generated by any aircraft or generated in connection with the
6 operation of any airport or approved helipad used in support of law

15 request an acoustical review of a proposed facility as part of the building
16 permit review process. Such acoustical review shall be performed by an
17 acoustical/sound professional and may require the submission and
18 acceptance of a noise mitigation plan to ensure that the facility's noise
19 activities fall within the dB limitations specified in this Article prior to building
20 permit approval. Failure to comply with a noise mitigation plan will result in
21 enforcement actions as provided in this Article.

22 **§ 9-9-11 MAKING VIOLATIONS OF THE NOISE ORDINANCE CIVIL
23 VIOLATIONS; PROVIDING A HEARING; ADDITIONAL REMEDIES;
24 INJUNCTIONS.**
