Cover Analysis

1. What is it?

This Executive Communication is the Mayor's recommendation of Tetra Tech for Project No: 7640.00; City Wide On-Call Environmental Engineering Services.

2. What will this piece of legislation do?

This Project will enable the City departments to acquire professional environmental engineering consulting services on an as-needed basis in a quick turn-around time.

3. Why is this project needed?

The on-call contract will allow small and time sensitive projects to be designed in a timely manner.

4. How much will it cost and what is the funding source?

It is estimated that this project will not exceed \$300,000.00 in design and/or construction phase services. Funding will come from various sources as required.

5. Is there a revenue source associated with this contract? If so, what level of income is projected?

No, there is no revenue source associated with this contract.

6. What will happen if the project is not approved?

The lack of on-call environmental engineering service contracts will impact the ability of City departments to construct and implement small city wide engineering projects in a timely manner.

7. Is this service already provided by another entity?

Other on-call contracts are available; however the current demand for engineering services from various City departments will exceed the capacity of these contracts in the near future.
