NOTICE OF APPEAL

August 19, 2019

TO WHOM IT MAY CONCERN:

The Planning Department received an appeal on August 15, 2019. You will receive a Notice of Hearing as to when the appeal will be heard by the **Land Use Hearing Officer**. If you have any questions regarding the appeal please contact Alfredo Salas, Planning Administrative Assistant at (505) 924-3370.

Please refer to the enclosed excerpt from the City Council Rules of Procedure for Land Use Hearing Officer Rules of Procedure and Qualifications for any questions you may have regarding the Land Use Hearing Officer rules of procedure.

Any questions you might have regarding Land Use Hearing Officer policy or procedures that are not answered in the enclosed rules can be answered by Crystal Ortega, Clerk to the Council, (505) 768-3100.

Albuquerque City Council
P.O. Box 1293
Albuquerque, N.M. 87102**Re: Appeal of EPC Decision**
OC-19-31 / AC-17-7 / Project #1011232 / 17EPC-40011

Dear Councilors,

This is an appeal of the Environmental Planning Commission's (EPC) August 8, 2019, "Official Notification of Decision" in this matter.

As set forth herein, the EPC's decision: (1) is invalid because it did not comply with procedural due process protections of written notice to affected parties; (2) is not supported by substantial evidence with respect to Finding No. 7(g) regarding the North Valley Area Plan; and (3) is not supported by substantial evidence with respect to Finding No. 9(E) regarding harm to the community.

I. Standing

This office is litigation counsel for Darlene M. Anaya. Ms. Anaya is the owner of residential property located at 2000 Lilac Drive, NW, in Albuquerque, which is immediately adjacent to the above-referenced zone map amendment. Ms. Anaya also has an ownership interest in residential property in Tract 223D, which is a parcel of residential property directly adjacent to the proposed zone change. Attached to this letter is a Letter of Authorization signed by Ms. Anaya. (Exhibit A)

II. Procedural History

This office successfully challenged, in District Court, the EPC's previous attempted rezoning of this property. In an Order dated January 7, 2019, Judge C. Shannon Bacon remanded this matter back to the City of Albuquerque regarding: "(1) whether the proposed C-2 zone is in significant conflict with purported NVAP limitations on commercial development; and (2) whether some of the permissive uses of the proposed C-2 zone would be harmful to adjacent property, the neighborhood or the community." (Order, pg. 15).

III. Legal Argument

A. The EPC's decision is invalid for lack of notice.

No parties were notified of the EPC's August 8, 2019, hearing. Neither this office; nor the Near North Valley Neighborhood Association; nor the North Valley Coalition; nor any nearby residents. Notably, the Coalition, in particular, is tasked under the North Valley Area Plan to "facilitate implementation" of the Plan. (Pg. 178). Both the Near North Valley Neighborhood Association and the Coalition requested deferral of this matter, which was not granted. It begs the question of how the EPC could have complied with the Order of "additional consideration and reasoned decision making" if the interested stakeholders on the remanded issues were not notified of the EPC's hearing. **Notice was all the more necessary because the Applicant is now asserting that the zone change will have an automatic conversion under the new IDO; this begs the question of what additional uses may be allowed under any automatic conversion.**

The case of *Miles v. Board of County Com'rs of Sandoval*, 1998-NMCA-118, 125 NM 608 (1998) analyzed what notice is required in zoning actions:

[W]hen government action is concentrated on a relatively small number of persons, based on individual grounds, then the dictates of constitutional due process require individualized notice and an opportunity to be heard. However, when the matter concerns general statutes or other enactments in which all are equally concerned, notice and an opportunity to be heard may not be constitutionally required... Ultimately, the character of the action, rather than its label, determines whether those affected by it are entitled to constitutional due process.

(Miles, supra, at ¶ 9, citations and quotations omitted, emphasis added.)

The City will likely argue that no notice was required here, because notice was initially provided in 2017 when the applicant initially filed its request for a zone change application. However, here, the applicable notice statute very broadly requires notice: "No zoning regulation, restriction or boundary shall become effective, amended, supplemented or repealed until after a public hearing at which all parties in interest and citizens shall have an opportunity to be heard." NMSA § 3-21-6 (emphasis added). Here, the plain language and intent of this notice statute is to provide written notice when a zone change "becomes effective." This did not happen.

Moreover, this is a quasi-judicial proceeding. "In New Mexico, decisions that determine how a particular piece of property can be used have been held to be quasi-judicial." *Dugger v. City of Santa Fe*, 114 N.M. App. 47, 834 P.2d 424, 428 (Ct. App. 1992). Quasi-judicial proceedings "must adhere to fundamental principles of justice and procedural due process." *West Bluff v. City of Albuquerque*, 2002-NMCA-075, 46, 132 N.M. 433.

If the City or its attorneys have any case law or statutory law supporting its position that no written notice of the August 8, 2019, EPC hearing was necessary, please immediately forward it onto this office.

B. The EPC's decision is not supported by substantial evidence with respect to Finding No. 7(g) regarding the North Valley Area Plan.

EPC Finding 7(g) states that the instant zoning action is not in significant conflict with the North Valley Area Plan because “the most applicable Goal/Policy language (Goals 6 and 11, page 6) does not limit commercial development on the subject site.” Goal 6, on page 6 of the North Valley Area Plan, reads as follows:

6. To encourage quality commercial/industrial development and redevelopment in response to area needs in already developed/ established commercial industrial zones and areas. To discourage future commercial/industrial development on lots not already zoned commercial/industrial.

While Goal 6 may support the rezoning of the existing 5.26 acres of M-1 light industrial, it does not support the rezoning of the residential property into commercial/industrial property. The second sentence of Goal 6 clearly states that future commercial/industrial development on lots not already zoned commercial/industrial is “discourage[d].”

Goal 11, page 6, of the North Valley Area Plan reads as follows:

11. To locate commercial and industrial development within the I-25 corridor, and selected areas along the I-40 corridor, especially as an alternative to extensive lower valley commercial/industrial development.

The EPC misconstrues the phrase “selected areas along the I-40 corridor” as support for its position that the 11.61 acres of C-2 commercial zoning approved here is permissible. However, the visual depiction of future permissible development on Page 37 of the North Valley Area Plan does not support this position. On Page 37 of the Plan, “Large Scale Community” development is clearly not supported in this area. Instead, such “Large Scale Community” is restricted to I-40 near the I-25 juncture.

Furthermore, the Plan at page 35, specifies that “most commercial development in the valley would be oriented to the local service needs of residents and located at major intersections in Village Centers.” Likewise, the Plan at page 36 states, that “new commercial uses ... would be smaller scale and incorporate Village Center Principles.” The Plan further defines “village centers” as having “greater importance to the community than standard commercial centers or strip commercial development...” Here, the approved 11.61 acres of blanket C-2 commercial zoning conflicts with these village center policies.

Furthermore, the approval of the proposed zoning conflicts with Goal/Policy No. 1 of the North Valley Area Plan to “recognize the North Valley area as a unique and fragile resource and as an inestimable and irreplaceable part of the metropolitan area.” (Pg. 5). Likewise, it also conflicts with Goal/Policy No. 2, which states that the North Valley Area Plan is intended to “preserve and enhance the environmental quality of the North Valley Area.” (Pg. 5).

C. The EPC's decision is not supported by substantial evidence with respect to Finding No. 9(E) regarding harm to the community.

There is substantial testimony in the record regarding the harm to the community if this proposed zoning is permitted. While the C-2 zoning may be less harmful than some permitted M-1 uses, the intrusion of C-2 into residential zones is inexcusable and will cause additional harm. Notably, Resolution 270-1980(E) states that "A change of zone shall **not be approved** where some of the permissive uses in the zone would be harmful to adjacent property, the neighborhood, or the community. (emphasis added.)

IV. Conclusion

In summary, the EPC's action: (1) did not comply with procedural due process protections of written notice to interested parties; (2) is not supported by substantial evidence regarding its assertion that the C-2 commercial zoning does not substantially conflict with the North Valley Area Plan; and (3) is not supported with substantial evidence that the proposed zoning will not cause harm to the community and/or neighborhood.

Please contact this office if you have any questions or concerns.

Very Truly Yours,

Edward M. Anaya

Exhibit A – Letter of Authorization

August 2, 2019

City of Albuquerque
Planning Department
600 2nd Street NW, Third Floor
Albuquerque, NM 87102

Re: Letter of Authorization
OC-19-31 / AC-17-7 / Project #1011232 / 17EPC-40011

To Whom It May Concern,

I am the owner of residential property located at 2000 Lilac Avenue, NW, in Albuquerque, New Mexico 87104 (Parcel No. 101305915324032828). I also own an interest in residential Parcel No. 101305917021632826, which is situated at approximately Lilac and Saiz roads, NW, in Albuquerque, New Mexico.

Both of these parcels are zoned residential and are in the immediate vicinity and/or adjacent to the above- referenced proposed zone map amendment.

Please be advised that Edward M. Anaya is my agent and is authorized to interact with the Planning and Zoning Departments and the City of Albuquerque to act on my behalf regarding the above referenced matter, including my authorization to act as my legal counsel.

Darlene M. Anaya

OFFICIAL NOTIFICATION OF DECISION

August 8, 2019

Edward T. Garcia
c/o Garcia Auto Group LLC
8100 Lomas Blvd NE
ABQ, NM 87110

Project# 2019-002629 (1011232)
17EPC-40011 Zone Map Amendment (Zone Change)

LEGAL DESCRIPTION:

The above action for all or a portion of Tracts 224D3B, 225B2A1A1 & 226C2B, 225B2A1A2, 225B2B, 225B2C, 225B2D, 225B2E, 225B2F & 225B2A2, 225B2G, 225B2H, 225B2I, 226A, 227, 228, 232, 233A, 236-A, 236-B, and Land of J A Garcia Tract A, MRGCD Map #35, zoned M-1 and R-1 to C-2 and R-2, located North of I-40 and East of Rio Grande Blvd. between the Alameda Drain and Campbell Ditch, containing approximately 20 acres. (H-13)

PO Box 1293

On August 8, 2019 the Environmental Planning Commission (EPC) voted to Approve Project 2019-002629 (1011232), 17EPC-40011, a Zone Map Amendment (Zone Change), based on the following findings:

FINDINGS:

1. This is a request for a Zone Map Amendment (Zone Change) for Tracts 224D3B, 225B2A1A1 & 226C2B, 225B2A1A2, 225B2B, 225B2C, 225B2D, 225B2E, 225B2F & 225B2A2, 225B2G, 225B2H, 225B2I, 226A, 227, 228, 232, 233A, 236-A, 236-B, and Land of J A Garcia Tract A, MRGCD Map #35 located north of Interstate 40 and east of Rio Grande Blvd between the Alameda Drain and Campbell Ditch and containing approximately 20 acres.
2. The subject site is currently zoned a combination of R-1 (Residential Zone) and M-1 (Light Industrial Zone). The request is for a zone change for approximately 11.61 acres to C-2 (Community Commercial Zone) and 7.85 acres to R-2 (Residential Zone). The R-2 zone would allow townhomes and apartments in addition to what is currently allowed under the R-1 designation, and the C-2 zone would allow for a wide variety of office, commercial and service, and some institutional uses generally of a lower intensity than is allowed by the existing M-1 zone.
3. The existing R-1 zoning is the original zoning of the subject site. The M-1 zoning was the subject of a zone change request in 1957 (Z-440) and pre-dated the existence of I-40.

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 2 of 2

4. The 2017 Albuquerque/Bernalillo County Comprehensive Plan (Comp Plan), North Valley Area Plan, Alameda Drain and Trail Master Plan, and the City of Albuquerque Zoning Code are incorporated herein by reference and made part of the record for all purposes.
5. The subject site is just northwest of the I-40 and Rio Grande Blvd interchange, which is the nexus of three Comp Plan Corridors: Rio Grande Blvd immediately west of the subject site from I-40 going north and then east on Indian School Road is a Multi-Modal Corridor; Rio Grande Blvd south of I-40 and heading west on I-40 is a Major Transit Corridor; and I-40 east of Rio Grande Blvd is a Commuter Corridor.
6. The subject site is within both the Area of Change and the Area of Consistency of the Comp Plan. The request is in compliance with and furthers the following applicable goals and policies of the Comprehensive Plan:

Policy 5.1.1 Desired Growth: Capture regional growth in Centers and Corridors to help shape the built environment into a sustainable development pattern.

(c) Encourage employment density, compact development, redevelopment, and infill in Centers and Corridors as the most appropriate areas to accommodate growth over time and discourage the need for development at the urban edge.

The request furthers Policy 5.1.1 c) because the subject site is a large infill site in close proximity to multiple corridor types, including Major Transit, and the change in zoning will allow for additional employment and housing density in a location not at the urban edge.

Policy 5.1.10 Major Transit Corridors: Foster corridors that prioritize high-frequency transit service with pedestrian-oriented development.

(b) Minimize negative impacts on nearby neighborhoods by providing transitions between development along Transit Corridors and abutting single-family residential areas.

The request furthers Policy 5.1.10 b) because the requested zone change creates a step-down from more intense commercial uses adjacent to I-40 and Rio Grande Boulevard to medium density residential down to single-family residential to the north.

(c) Encourage mixed-use development in Centers and near intersections.

The request furthers Policy 5.1.10 c) because the combination of Community Commercial and medium density multi-family development would foster more active mixed-use development near the intersection of three different Comprehensive Plan corridor types at the I-40 and Rio Grande Blvd interchange.

Policy 5.2.1 Land Uses: Create healthy, sustainable, and distinct communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.

(a) Encourage development and redevelopment that brings goods, services, and amenities within walking and biking distance of neighborhoods and promotes good access for all residents.

The request furthers Policy 5.2.1 a) because the requested zone change will facilitate redevelopment of long vacant land with goods, services, and amenities that is accessible to nearby residents within the Los Duranes neighborhood, as well as farther away, via walking and along a number of existing and proposed bicycle facilities.

(b) Encourage development that offers choice in transportation, work areas, and lifestyles.

The request furthers Policy 5.2.1 b) because the subject site is within ¼ mile of multiple transit stops, adjacent to convenient bicycle facilities, and close to a major interchange between I-40 and an arterial roadway that offers easy access for automobiles allowing for choice in transportation and lifestyles for both those residents living in the proposed development and those who live elsewhere and will travel to the development for employment and other activities.

(d) Encourage development that broadens housing options to meet a range of incomes and lifestyles.

The request furthers Policy 5.2.1 d) because changing some of the zoning from R-1 to R-2 will allow for a wider variety of housing options than currently exists on the subject site including single-family houses, townhomes, and medium density apartments.

(e) Create healthy, sustainable communities with a mix of uses that are conveniently accessible from surrounding neighborhoods.

The request furthers Policy 5.2.1 e) because the combination of R-2 and C-2 zoning requested allows for a wide mix of uses that will benefit the surrounding neighborhoods that can access the site via automobile, transit, bicycle, or walking.

(f) Encourage higher density housing as an appropriate use in the following situations:

- iii. In areas where a mixed density pattern is already established by zoning or by use, where it is compatible with existing area land uses, and where adequate infrastructure is or will be available;
- iv. In areas now predominately zoned single-family only where it comprises a complete block face and faces onto a similar or higher density development;
- v. In areas where a transition is needed between single-family homes and much more intensive development;

The request furthers Policy 5.2.1 f) because it includes higher density housing at the subject site in an area with a mix of uses already established, infrastructure in place, is of a size comparable to an entire block face, and will abut and be a transition between more intensive commercial development and existing developed single-family homes.

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 4 of 4

(n) Encourage more productive use of vacant lots and under-utilized lots, including surface parking.

The request furthers Policy 5.2.1 n) because it will facilitate redevelopment of long vacant and under-utilized lots.

Policy 5.3.1 Infill Development: Support additional growth in areas with existing infrastructure and public facilities.

The request furthers Policy 5.3.1 because rezoning the vacant subject site supports growth in an infill location surrounded by existing infrastructure including paved roads and various utilities.

Policy 5.6.1 Community Green Space: Provide visual relief from urbanization and offer opportunities for education, recreation, cultural activities, and conservation of natural resources by setting aside publicly-owned Open Space, parks, trail corridors, and open areas throughout the Comp Plan area as mapped in Figure 5-3.

(a) Maintain existing irrigation systems as Community Green Space and to help ensure agricultural lands in rural areas.

The request furthers Policy 5.6.1 a) because the development will maintain and enhance the Alameda Drain and Campbell Ditch adjacent to the subject site thus offering recreation and some visual relief from the surrounding urbanization, as well as contributing to the vision for this section of the Alameda Drain as described in the Alameda Drain and Trail Master Plan.

Policy 5.6.2 Areas of Change: Direct growth and more intense development to Centers, Corridors, industrial and business parks, and Metropolitan Redevelopment Areas where change is encouraged.

(b) Encourage development that expands employment opportunities.

The request will allow for development of long vacant parcels with a more productive use, including commercial uses that will expand employment opportunities on land that is partially designated as an Area of Change thus furthering Policy 5.6.2 b).

(c) Foster a range of housing options at various densities according to each Center and Corridor type.

The request includes R-2 zoning, which allows for a variety of housing options and densities up to medium density apartments thus furthering Policy 5.6.2 c).

(d) Encourage higher-density housing and mixed-use development as appropriate land uses that support transit and commercial and retail uses.

The request furthers Policy 5.6.2 d) because the combination of R-2 and C-2 zoning requested will allow for higher-density housing and mixed-use development that will

support transit along Rio Grande Boulevard, as well as supporting the existing and future commercial and retail uses in the area.

(f) Minimize potential negative impacts of development on existing residential uses with respect to noise, stormwater runoff, contaminants, lighting, air quality, and traffic.

The proposed zoning steps down in intensity from south to north and development of the vacant parcels will add an additional buffer between the existing residential and Interstate 40. Future development proposals will need to address stormwater, lighting that is in compliance with Night Sky and zoning regulations, and traffic circulation. In particular, a Traffic Impact Study has been completed for all of the proposed Rio Grande Crossing and shows that the transportation system can support this request thus furthering Policy 5.6.2 f).

(g) Encourage development where adequate infrastructure and community services exist.

The request furthers Policy 5.6.2 g) because redevelopment of the subject site will utilize existing available infrastructure including water, sewer, and electricity, as well as better utilizing other existing services as an infill location rather than new edge development.

Policy 5.6.3 Areas of Consistency: Protect and enhance the character of existing single-family neighborhoods, areas outside of Centers and Corridors, parks, and Major Public Open Space.

(b) Ensure that development reinforces the scale, intensity, and setbacks of the immediately surrounding context.

The requested R-2 and C-2 zones reinforce the surrounding context by allowing similar uses and intensities of development as the commercial zoning to the west and R-3 to the east, as well as creating a step-down transition of intensities to the existing R-1 located to the north of the subject site, so the request furthers Policy 5.6.3 b).

(c) Carefully consider zone changes from residential to non-residential zones in terms of scale, impact on land use compatibility with abutting properties, and context.

A portion of this request is to change the zoning from residential to commercial, and it has been considered carefully based on its context. The proposed zones are compatible with and reinforce the land uses on properties located immediately east and west of the subject site and step down in intensity to the properties to the north including leaving a portion of the applicant's property zoned R-1 to maintain land use compatibility thus furthering Policy 5.6.3 c).

Policy 5.6.4 Appropriate Transitions: Provide transitions in Areas of Change for development abutting Areas of Consistency through adequate setbacks, buffering, and limits on building height and massing.

(a) Provide appropriate transitions between uses of different intensity or density and between non-residential uses and single-family neighborhoods to protect the character and integrity of existing residential areas.

The request furthers Policy 5.6.4 a) because the applicant has made a request with appropriate variations in housing densities and commercial intensity in appropriate locations as to effectively transition to the existing residential areas to the north of the subject site. In addition, the applicant will need to comply with all zoning standards for setbacks, height, landscaping, and buffering when the site is eventually developed.

Policy 9.1.1 Housing options: Support the development, improvement, and conservation of housing for a variety of income levels and types of residents and households.

(a) Increase the supply of housing that is affordable for all income levels.

The request furthers Policy 9.1.1 a) because the requested R-2 zone allows for a variety of housing types and densities such as single-family houses, townhomes, and apartments that allows for free-market housing options to suit various income levels.

(e) Provide for the development of quality housing for elderly residents.

The applicant indicates a desire to develop a senior living facility as allowed by the requested zoning that will provide for quality housing for elderly residents thus furthering Policy 9.1.1 e).

(i) Provide for the development of multi-family housing close to public services, transit, and shopping.

The request for R-2 adjacent to C-2 will allow for development of multi-family housing immediately adjacent to shopping options, and the proposed development will be in close proximity to transit options along Rio Grande Boulevard, so the request furthers Policy 9.1.1 i).

Policy 9.3.2 Other areas: Increase housing density and housing options in other areas by locating near appropriate uses and services and maintaining the scale of surrounding development.

(a) Encourage higher density residential and mixed use development as appropriate uses near existing public facilities, educational facilities, job centers, social services, and shopping districts.

The proposed mixed-use development is near to existing public facilities, educational facilities, job centers, and shopping districts such as Duranes Elementary School, which has capacity, the Indian Pueblo Cultural Center and new development along 12th Street between Menaul and I-40, and Old Town thus furthering Policy 9.3.2 a).

(b) Encourage multi-family and mixed use development in areas where a transition is needed between single-family homes and more intense development.

The request furthers Policy 9.3.2 b) because the proposed multi-family zoning is a transition between existing single-family residential and the proposed C-2 zoning and the Interstate 40 corridor.

Policy 10.1.1 Distribution: Improve the community's access to recreational opportunities by balancing the City and County's parks and Open Space systems with the built environment.

The requested zone change will help better balance the parks and Open Space system by establishing more active commercial uses adjacent to the Alameda Drain and Trail system, which will encourage more users and activation of the future trail facility thus furthering Policy 10.1.1.

Policy 12.1.5 Irrigation System: Coordinate with MRGCD and other stakeholders to protect the irrigation system.

The request furthers Policy 12.1.5 because, in addition to being a stakeholder as a property owner abutting the Alameda Drain, the applicant has forged a relationship with MRGCD to support and protect the irrigation system abutting the subject site by improving access and generally supporting development of the Alameda Drain and Trail Master Plan.

Policy 13.5.1 Land Use Impacts: Prevent environmental hazards related to land uses.

(b) Protect public health, safety, and welfare by discouraging incompatible land uses in close proximity, such as housing and industrial activity.

The request furthers Policy 13.5.1 b) because it will replace an incompatible industrial zone that is currently adjacent to residential with a more appropriate commercial zone, while creating an effective transition from the busy I-40 corridor and the commercial zoning down to the lower density single-family residential north of the subject site.

7. The subject site is within the boundaries of the North Valley Area Plan. The request generally furthers the North Valley Area Plan goals and policies by:
 - a. providing a variety of choices for housing and lifestyles,
 - b. planning to address land use conflicts such as between industrial and residential zoning,
 - c. redevelopment of vacant land,
 - d. promoting higher density development where there is adequate infrastructure,
 - e. encouraging mixed use development,
 - f. promoting development that encourages more sustainable transportation options, and
 - g. The requested C-2 zone is not in significant conflict with purported NVAP limitations on commercial development because the most applicable Goal/Policy language (Goals

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 8 of 8

6 and 11, page 6) does not limit commercial development on the subject site. Any perceived or alleged limitation on commercial development in the Rank II NVAP is tempered and superseded by the Policy direction of the Rank I Comp Plan, per Section 14-13-2-2 Rank Importance of City Plans.

8. The subject site abuts the Alameda Drain on its west side, so considerations of the Alameda Drain and Trail Master Plan apply. The Alameda Drain and Trail Master Plan is primarily concerned with the design and routing of the proposed trail along the Alameda Drain, but it contemplated the future development of the subject site in its narrative stating the southern portion of the trail is fronted by vacant properties "with potential commercial uses." The request furthers the Master Plan because the proposed development offers an opportunity to create additional amenities along the trail corridor, as well as provide access and a destination for future trail users.
9. The zone change request has been justified pursuant to *R-270-1980* as follows:
 - A. The applicant's justification letter and the policies cited and analyzed in Findings 6 through 8 substantiate the claim that the request is consistent with the health, safety, morals, and general welfare of the city.
 - B. The proposed zoning categories allow for similarly intense uses as those surrounding the subject site – commercial to the west and multi-family residential to the east – and the request lays them out in a thoughtful manner stepping the intensity of the freeway to commercial zoning, followed by a medium density multi-family transition to the existing single-family residential located to the north of the subject site, which improves land use stability not found with vacant properties and industrial zoning adjacent to single-family residential.
 - C. The request is consistent with and furthers adopted plans and policies, including the Comprehensive Plan, North Valley Area Plan, and Alameda Drain and Trail Master Plan as summarized in Findings 6 through 8.
 - D. The existing zoning is inappropriate because it predates significant changes in the area, as well as the existing M-1 in particular being in an inappropriate location abutting single-family residential. Changed community conditions include the routing of Interstate 40 and the adoption of the Los Duranes Sector Development Plan by the City. The industrial zoning of the subject site was bisected by Interstate 40 when the highway was built, and the remaining portion is too small and inappropriately close to residential to be properly developed and utilized. Adoption of the plan, which affected the properties on the west side of the Alameda Drain and are not a part of this request, created zoning along Rio Grande Boulevard that allows for a mix of uses. The requested zone change would extend a mix of commercial and residential uses farther east and could lead to a more cohesive development with those other properties to the west. In addition, as shown in the policy analysis, the request furthers numerous policies of the Comprehensive Plan and generally supports the North Valley Area Plan and

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 9 of 9

Alameda Drain and Trail Master Plan, so the requested use categories are more advantageous to the community.

- E. The proposed R-2 and C-2 zones allow permissive uses that will not be harmful to the adjacent property, neighborhood, or community because the uses of these two zones are the same or less harmful than the uses already allowed on the subject site in the M-1 zone or in the adjacent R-3 zone to the east and the SU-2 LD MUD-2, which refers to the C-2 zone to the west fronting Rio Grande Blvd. The EPC has considered all of the permissive uses in the C-2 Zone as set forth in 14-16-2-17(A), a listing of which appears in the table attached to these findings. Given the context of the site, the down-zoning of 5.29 acres of M-1 to C-2 associated with the 6.32 acres of new C-2, and the proposed zoning pattern with transitions of use intensity from I-40 northward, none of the permissive uses of the proposed C-2 zone would be harmful to adjacent property, neighborhood, or community because many of the commercial uses are already allowed in some fashion, as well as more intense uses, by the existing M-1 zoning and/or any adverse impacts of the C-2 uses will be addressed by site design requirements, distance separation requirements, required off-site infrastructure (vehicular access) per use and intensity, and/or by required landscape and buffering, including the new R-2 buffering provided by Applicants. A table of the M-1 and C-2 permissive uses is attached to and incorporated in these findings.
 - F. Approval of the requested amendment will not require any capital improvements because the site is located in an area that already has infrastructure. If future development requires additional infrastructure the applicant will have to make those improvements themselves.
 - G. Economic considerations are not the determining factor in the request, rather the request is justified based on changed community conditions and being more advantageous to the community in accordance with the policies of the Comprehensive Plan.
 - H. The subject site does not front directly onto any major street except for I-40, which does not allow for direct access, and the request is not justified by the location. The request is justified based on changed community conditions and as being more advantageous to the community as articulated by the Comprehensive Plan.
 - I. The request is not creating a small area of zoning different from the surrounding zoning, so the request does not constitute a spot zone.
 - J. The request is not for a strip of land along a street, so it does not constitute a request for strip zoning.
10. The Near North Valley, Sawmill Area, Los Duranes, and West Old Town Neighborhood Associations, Symphony HOA, and the North Valley Coalition, as well as property owners within 100 feet were notified of the request, as required.
11. A facilitated meeting was held on May 23, 2017. The meeting report submitted by the facilitator indicates a primary concern of the neighbors related to traffic and what the

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 10 of 10

impacts development of commercial uses on the subject site will have on Rio Grande Blvd and the I-40 interchange, including a request that the application be deferred until a Traffic Impact Study can be completed. Other questions and comments included discussion about the height and density allowed by the R-2 zone, as well as the possibility of a grocery store and what type it could be.

12. Staff has talked with numerous individuals about the request in person or over the phone indicating varying levels of support and concern over aspects of the proposal. Six written letters of support were received before the June 8, 2017 hearing, as well as four letters in opposition to the request – two of which are from the owner and family of the closest neighboring R-1 zoned properties. The letters in opposition question the intensity and allowed uses of the C-2 zone, as well as reiterate the traffic concerns that were discussed extensively at the facilitated meeting.
13. At its June 8, 2017 hearing, the EPC voted to defer the request to the July 13, 2017 hearing to allow for continued discussion with affected neighbors regarding traffic and other issues related to the development proposal.
14. Since the deferral, approximately 32 more written public comments were received. Six of these comments are in support of the request with an additional two comments from the Los Duranes Neighborhood Association and homeowners within the Symphony subdivision offering conditional support.
15. 17 letters are opposed and three ask for another deferral related to continued concerns related to traffic, the potential closure of the Campbell Ditch to accommodate vehicular ingress/egress, the scale of development and density allowed by the requested zones, and the proposal taking away from the rural character of the North Valley.
16. Four letters take a more neutral tone asking questions and offering possible solutions to concerns that have been raised.
17. A Traffic Impact Study (TIS) was not required by Transportation Development for this zone change request; however, in the time since the deferral, the applicant has completed a TIS showing the impacts of their proposed development on the surrounding transportation system. The TIS shows there is sufficient capacity on Rio Grande Blvd. to handle the additional trips generated by the proposed development.
18. A second TIS was completed looking at the use of the Campbell Ditch alignment for ingress/egress, and it was shown that such a connection did not yield enough benefit to warrant an alternative connection.
19. The requested C-2 zoning is greater than 5 acres in size, which under the current Zoning Code would constitute a Shopping Center site and future development would have to comply with those regulations.
20. The Environmental Planning Commission (EPC) approved the requested zone change at the July 13, 2017 hearing. That decision was appealed to City Council, who in October

OFFICIAL NOTICE OF DECISION

Project #2019-02629 (1011232)

August 8, 2019

Page 11 of 11

2017 accepted the Land Use Hearing Officer's recommendation to deny the appeal. The City Council's decision was appealed to District Court.

21. The Second Judicial District Court affirmed the City Council's decision to grant the zone map amendment request in January 2017 except for two items that are remanded back to the City for further consideration:

- 1) Whether the proposed C-2 zone is in significant conflict with purported NVAP limitations on commercial development; and
- 2) Whether some of the permissive uses of the proposed C-2 zone would be harmful to adjacent property, neighborhood, or community

22. The applicant has replatted the site and created lot lines that correspond to the proposed zoning boundaries as accurately shown on Exhibit 1 of the applicant's Appendix to the July 29, 2019 letter.

APPEAL: If you wish to appeal this decision, you must do so within 15 days of the EPC's decision or by **AUGUST 23, 2019**. The date of the EPC's decision is not included in the 15-day period for filing an appeal, and if the 15th day falls on a Saturday, Sunday or Holiday, the next working day is considered as the deadline for filing the appeal.

For more information regarding the appeal process, please refer to Section 14-16-6 of the IDO, Administration and Enforcement. A Non-Refundable filing fee will be calculated at the Land Development Coordination Counter and is required at the time the appeal is filed. It is not possible to appeal EPC Recommendations to City Council; rather, a formal protest of the EPC's Recommendation can be filed within the 15 day period following the EPC's recommendation.

You will receive notification if any person files an appeal. If there is no appeal, you can receive Building Permits at any time after the appeal deadline quoted above, provided all conditions imposed at the time of approval have been met. Successful applicants are reminded that other regulations of the City Zoning Code must be complied with, even after approval of the referenced application(s).

Sincerely,

Brennon Williams
Interim Planning Director

Table of C-2 Permissive Uses under § 14-16-2-17(A)

Sub #	Use
(1)	Antenna (up to 65 feet)
(2)	Clinic
(3)	Copying, blueprinting
(4)	Institution (club, day-care, library, school, museum)
(5)	Office
(6)	Park-and-ride temporary facilities
(7)	Public utility structure
(8)	Residential uses permissive in R-3 Zone (subject to conditions)
(9)	Sign, off-premise (subject to conditions)
(10)	Sign, on-premise (subject to conditions)
(11)	Radio or television studio or station
(12)	Recycling bin (accessory use)
(13)	Retailing of consumer products and services
	Excluding:
	• Adult amusement/adult book stores §14-16-2-17(A)(13)
	• Hospitals for humans §14-16-2-17(A)(13)
	• Transit facilities §14-16-2-17(A)(13)
	• Auto dismantling §14-16-2-17(A)(13)(s)
	• Sheet metal working §14-16-2-17(A)(13)(s)
	• Tire retreading §14-16-2-17(A)(13)(s)
	Including, subject to specified conditions:
(13)-a	• Alcoholic drink sales for consumption off-premises (subject to conditions)
(13)-b	• Vehicle sales, rental, service, repair and storage (subject to conditions, excluding truck terminal)
(13)-c	• Banking, loaning money, including pawn
(13)-d	• Building materials (subject to conditions)
(13)-e	• Temporary circus or carnival operation (only 7 days per year)
(13)-f	• Drive-in restaurant (subject to conditions)
(13)-g	• Dry cleaning, laundry, clothes pressing (subject to conditions)
(13)-h	• Flowers and plants
(13)-i	• Gasoline, oil, and liquefied petroleum gas retailing (excluding truck terminal)
(13)-j	• Golf driving range, miniature golf course, baseball batting range (subject to conditions)
(13)-k	• Hospital for animals (subject to conditions)
(13)-l	• One mobile home for watchman or caretaker on same lot with otherwise permitted commercial uses (subject to conditions)
(13)-m	• Parking lot, as regulated in O-1 zone
(13)-n	• Pet shop
(13)-o	• Restaurant, including outdoor seating
(13)-p	• Sample dwelling unit used to sell similar dwelling units
(13)-q	• Second-hand store (subject to conditions)
(13)-r	• Stand or vehicle selling fruit, vegetables or nursery stock, up to 90 days per year
(14)	Temporary storage incidental to on-site construction
(15)	Wholesaling of jewelry
(16)	Otherwise permitted uses but in a tent, temporarily for 7 days twice per year
(17)	Wireless telecommunications facility (subject to conditions)
