Cover Analysis

1. What is it?

This Executive Communication is the Mayor's recommendation of WHPacific Inc. for architectural on-call services for various projects at either the Albuquerque International Sunport or at Double Eagle II Airport.

2. What will this project do?

Allow the Aviation Department to design and construct various projects at either the Albuquerque International Sunport or Double Eagle II Airport.

3. Why is this project needed?

The Aviation Department has a frequent need for design services on various small projects at both airports and this will allow expeditious implementation of these projects.

4. How much will it cost and what is the funding source?

The cost is to be negotiated on a task by task basis and funding will be from Aviation Department Fund 613, Activity Number 1175230.

5. What will happen if the project is not approved?

Should this not be approved, the department will not be able to provide timely implementation of smaller projects.

Four proposals were received in response to the Notice of Request for Proposals.

Project Description:

This project will provide architectural design and possible construction phase services to the Aviation Department for various on-call projects at either the Albuquerque International Sunport or Double Eagle II Airport.

Estimated Compensation: \$600,000.00

The Administrator called the meeting to order at 8:30a.m. to review responses to the project. She reminded the Committee members of the section of the Rules and Regulations regarding lobbying and asked if anyone would like to make a motion to discuss the issue further. No motion was forthcoming.

The Administrator asked each Committee member to comment on the proposal, but to withhold giving their scores until all discussions ended. Committee members said that some proposals didn't even mention airport work at all and some did not mention on-call work. Committee members reminded respondents that working at the airport is very unique and different than working anywhere else. Some committee members noted that some proposals didn't fully answer the questions for the proposal. Cost control was brought up by several committee members in that some proposals did not mention cost for their projects so that is not helpful when trying to score proposals. Committee members verbalized that small projects can oftentimes cost more than larger projects because usually small projects, by nature, occur where construction already exists and there lies the challenge of navigating around existing conditions as opposed to new construction. Several committee members mentioned that some proposals appeared to just use boilerplate language for their technical approach instead of having project specific language for this project.

The Administrator asked the Committee members to report their scores and she deleted the high scores and low scores and then totaled the proposal scores. Ties did not result but because the two highest scores were within 5% of each other, point deductions were applied.

The SAC Administrator continued with her meeting agenda and, as required, asked if any Committee member wanted to make a motion to conduct interviews. No motion was requested. The Administrator reminded the Committee and the respondents that the proposal scores would need to be verified prior to submitting the Committee's recommendation to the Mayor.

Final scores reported at the meeting were as follows:

Jon Anderson Architecture	219
SMPC Architects	237
Sam Sterling Architecture	213
WHPacific Inc.	252

In accordance with the Rules and Regulations, subject to verification of the scores, the following firms are the Committee's recommendation.

Jon Anderson Architecture SMPC Architects WHPacific Inc.

There being no further business before the Committee, the Administrator adjourned the meeting at 8:45a.m.
