1 the public realm, and contributing to neighborhood vibrancy and quality of  
2 life.

3 (C) Directing existing municipal services to designated commercial  
4 areas with a demonstrated need for enhanced support will allow for a targeted,  
5 intentional approach to prioritizing economic vitality, public safety, community  
6 engagement, and connecting the public with social services.

7 (D) Maintaining the strength and success of commercial areas is in the  
8 public interest, as their continued vitality supports local jobs, strengthens the  
9 tax base, encourages investment, and promotes equitable access to daily  
10 needs.

11 (E) Some such areas are experiencing adverse impacts due to high  
12 crime rates within the vicinity, creating an unsafe environment for customers  
13 and pedestrians, resulting in reduced foot traffic and negative impacts on  
14 business operations and overall community wellbeing.

15 (F) A coordinated and proactive response is necessary to address these  
16 adverse impacts to safeguard both the public and the social value generated  
17 by these areas, and to prevent decline in commercial activity, social fabric,  
18 and general public use and prosperity.

19 (G) These commercial areas require additional supportive services  
20 aimed at enhancing neighborhood quality and business growth.

21 (H) The City has a compelling interest to provide enhanced support  
22 through existing city services, such as facilitating access to social and  
23 behavioral health resources, cleaning and maintenance of public right-of-way,  
24 pedestrian safety measures, ambassador and hospitality programs,  
25 coordinated outreach, and targeted capital improvements as may be needed  
26 within individual designated areas, to enhance the economic performance of  
27 the commercial corridors and promote the overall wellbeing of members of the  
28 public.

29 (I) It is necessary to implement a consistent and coordinated approach  
30 to support businesses, take a proactive approach to public health, maintain  
31 public spaces, and promote community engagement in commercial areas,  
32 while respecting the distinct needs of all stakeholders.
